IMPORTANT – NOT LEGAL ADVICE

This report compiles publicly-available statutes, regulations, and county zoning rules into a research reference. It is **not legal advice** and is provided **without warranty** as to accuracy, completeness, or current applicability.

Cottage food law changes frequently. Counties may amend zoning, health departments may issue new permits, and state legislatures may update statutes after the publication date shown above.

Always verify rules directly with your state department of health/agriculture and your county health and planning offices before relying on them for any business or regulatory decision. Consult a licensed attorney for advice specific to your situation.

Hawaii's cottage food rules are set by HAR §11-50-3. The summary below is drawn from Crosodo's verified statute research and official agency guidance. Always confirm current requirements on the state agency website before you sell.

Program basics

What law governs cottage food in Hawaii?

- Hawaii Administrative Rules Title 11, Chapter 50 (Food Safety Code), §11-50-3 (Permits, special events, homemade food products and hand-pounded poi, and exemptions)

What is the annual sales cap?

- None

Is registration or a permit required?

- No

Is a food handler certificate required?

- Yes (specific course)

Are kitchen inspections required?

- Upon-complaint

Allowed products and sales channels

What foods are allowed?

- Hawaii allows non-potentially hazardous (non-PHF) foods only, including breads, rolls, mochi, cakes, cookies, pastries, candies, confections, jams, jellies, preserves, cereals, trail mixes, granola, and popcorn. Most shelf-stable baked goods and confections qualify.

What foods are prohibited?

- Prohibited items include fermented foods, acidified foods, canned or bottled foods (except jams/jellies), dried meats or seafood, low-acid canned foods, garlic in oil, pickles, kimchee, beef jerky, and all items requiring refrigeration.
- Perishable baked goods with dairy fillings (cheesecakes, cream puffs, custard pies) are also prohibited.

Can I sell to retailers or restaurants (indirect sales)?

- Hawaii prohibits online sales, mail order, consignment, wholesale, restaurant, and retail store sales; only in-person direct sales at home, farmers markets, roadside stands, and events are allowed.

Labeling

What labeling is required?

- Labels must include the statement 'Made in a home kitchen not routinely inspected by the Department of Health,' the common product name, an ingredient list in descending order by weight (for multi-ingredient products), and the operator's name and contact information (address, email, or phone; PO boxes are allowed).

Statute excerpt

HAR §11-50-3

What does the Hawaii cottage food statute say?

- **HOMEMADE FOOD OPERATIONS** Under HAR 11-50-3, Homemade Food (HMF) sales are allowed and exempt from the requirement of a food establishment permit. HMF operations can only make food that is not potentially hazardous. Operators can use their home kitchen to produce products to sell directly to consumers. HMF sales by internet, mail order, consignment or at wholesale are not allowed.
- **FOODS NOT ALLOWED AS HOMEMADE FOOD PRODUCT:** Foods not allowed include fermented foods, acidified foods, canned or bottled foods, dried meats or seafood, low acid canned foods, and garlic in oil. Examples of these foods include: kimchee, pickles, beef jerky, and the like. **APPROVED HOMEMADE FOOD PRODUCTS & LABELING:** As an HMF operator, you are allowed to produce food items which are considered not potentially hazardous.
- The following products can be made from your home kitchen: Breads, rolls, mochi; Cakes, cookies, and pastries; Candies and confections; Jams, jellies, and preserves; Cereals, trail mixes, and granola; Popcorn. All HMF products require specific labeling with the following information: 1. A statement that reads 'Made in a home kitchen not routinely inspected by the Department of Health'. 2. Common name of the product or descriptive name. 3.
- Ingredient list if made from 2+ ingredients, listed in descending order of predominance by weight. 4. Name and contact information of the homemade food product operator.

Executive summary

This report covers the Hawaii cottage food framework — the state statute, the regulatory body administering it, what producers can and cannot sell, and county-level rules layered on top of state law for the 5 Hawaii counties included in this dataset.

ANNUAL SALES CAP —	REGISTRATION REQUIRED No
FOOD HANDLER CERTIFICATION Yes (specific course)	KITCHEN INSPECTION Upon-complaint
DIRECT SALES ONLY Yes	INDIRECT SALES (RETAIL/ONLINE/WHOLESALE) No — Hawaii prohibits online sales, mail order, consignment, wholesale, restaurant, and retail store sales; only in-person direct sales at home, farmers markets, roadside stands, and events are allowed.

RESEARCH NOTES

Hawaii’s cottage food program is implemented through administrative rules (HAR Chapter 11-50) rather than a standalone statute. The enabling HRS citation (§321-30.5) in the input may not be the correct operative section; the actual cottage food provisions are in HAR §11-50-3. The HAR was updated in September 2017 to allow homemade food sales and was most recently revised in November 2024 (Ch-50-revision-11.12.2024.pdf). Before 2017, only temporary event permits were available. A food safety training course is mandatory before selling — operators may attend a free on-island Food Safety Education Workshop or complete an ANSI-accredited online course (~\$10, 2-3 hours, valid 3 years). The health department retains authority to inspect home kitchens for complaints and illness investigations. The state dept cottage URL (home-bakery-permit) returned a 404 — the correct URL appears to be health.hawaii.gov/san/ with relevant guidance PDFs. Hawaii is among the most restrictive states: direct sales only, no online/wholesale, limited allowed foods. The input notes ‘baked goods only’ which slightly understates the allowed range (candies, preserves also allowed) but the program is still quite restrictive.

KEY TAKEAWAYS FOR BAKERS IN HAWAII

- Hawaii (Poor tier) — annual sales cap: see statute.
- Home kitchen rules vary by county — use the county sections below for permits, inspections, and zoning overlays.
- Check whether your county requires a separate dedicated kitchen, home occupation permit, or local business license.
- Labeling and registration requirements are set by state law; confirm exact wording with Hawaii Department of Health.
- Registration required: No.
- Direct vs indirect sales: No (Hawaii prohibits online sales, mail order, consignment, wholesale, restaurant, and retail store sales; only in-person direct sales at home, farmers markets, roadside stands, and events are allowed.).

PORCH / ON-SITE SALES

These are frequently more restricted by local zoning than by cottage food law. Check the county-level "On-site / porch pickup" answers and confirm with county planning.

RECOMMENDED FIRST STEPS

1. Confirm your county rules using the county sections below or the standalone county PDF.
2. Check if you need any local business license or home occupation permit (most don't).
3. Prepare labels with the required home-kitchen disclosure (wording varies by state/county).
4. Register with the state if your projected sales or product type requires it (check the registration field).
5. Start with direct sales at farmers markets or on-site — often the easiest path in Hawaii.

HOME KITCHEN ALLOWED?

Yes (Hawaii Homemade Food Operation (HMF) program (HAR §11-50-3) allows non-potentially hazardous (non-PHF) foods produced in the operator’s primary home kitchen. No DOH establishment permit required. Food safety training (free on-island workshop or ANSI-accredited online course, ~\$10, valid 3 years) required. Direct sales only — no internet, mail order, consignment, or wholesale. Very restrictive list of allowed foods: breads, rolls, mochi, cakes, cookies, pastries, candies, confections, jams, jellies, preserves, cereals, trail mixes, granola, popcorn. Hawaii County (Big Island) is one of four Hawaii counties.)

INSPECTION REQUIRED?

No (HMF operations not routinely inspected by DOH. DOH investigates consumer complaints and potential foodborne illness outbreaks. Some farmers markets or events may require a Special Event permit.)

Home kitchen rules

HOME KITCHEN ALLOWED	Yes — Hawaii Homemade Food Operation (HMF) program (HAR §11-50-3) allows non-potentially hazardous (non-PHF) foods produced in the operator’s primary home kitchen. No DOH establishment permit required. Food safety training (free on-island workshop or ANSI-accredited online course, ~\$10, valid 3 years) required. Direct sales only — no internet, mail order, consignment, or wholesale. Very restrictive list of allowed foods: breads, rolls, mochi, cakes, cookies, pastries, candies, confections, jams, jellies, preserves, cereals, trail mixes, granola, popcorn. Hawaii County (Big Island) is one of four Hawaii counties.
SEPARATE DEDICATED KITCHEN	No
PET RESTRICTIONS	No explicit pet restriction in HAR §11-50-3, but DOH retains authority to inspect for complaints and foodborne illness investigations. Standard food safety practices apply.
WATER SUPPLY	No specific water testing requirement documented for Hawaii HMF operations under HAR §11-50-3.
HANDWASHING	Food safety training required; handwashing and hygiene covered in training.
FOOD STORAGE	Only non-PHF (not potentially hazardous) foods. No fermented foods, acidified foods, canned or bottled foods (except jams/jellies), dried meats/seafood, low-acid canned foods, garlic in oil. Items requiring refrigeration not permitted.

Inspection & permitting

INSPECTION REQUIRED	No — HMF operations not routinely inspected by DOH. DOH investigates consumer complaints and potential foodborne illness outbreaks. Some farmers markets or events may require a Special Event permit.
HOME OCCUPATION PERMIT	Conditional — Hawaii County (Big Island) may require a home occupation permit from Hawaii County Planning Department for home-based food businesses. Contact Hawaii County Planning Department (hawaiicounty.gov/planning) to verify whether food production from a home constitutes a home occupation requiring a county permit.
LOCAL BUSINESS LICENSE	Varies

Customer-facing rules

ON-SITE CUSTOMER PICKUP	Yes
ON-SITE SIGNAGE	Conditional
DELIVERY / PICKUP RULES	Hawaii HMF program allows direct-to-consumer sales only. Home pickup permitted. No internet sales, mail order, consignment, or wholesale allowed. Some events may require a Special Event Food Establishment Permit from DOH if unpackaged samples are served.
MAX EMPLOYEES IN HOME	No explicit employee cap in Hawaii HMF program. Only the primary home kitchen operator is contemplated; home occupation zoning may restrict business activities.

Relevant county code

HAR §11-50-3; Hawaii County Code (contact Planning Department for home occupation); HB520 HD1 (2023 proposed expansion bill — not yet enacted as of research date)

RESEARCH NOTES

High confidence: Hawaii DOH HMF handout (2019, still current per HAR §11-50-3 last revised November 2024) confirmed from official health.hawaii.gov source. Hawaii is among the most restrictive states: direct sales only, very limited food list, no internet/wholesale sales. Hawaii County (Big Island) is distinct from Honolulu County, Maui County, and Kauai County — each county is essentially its own government. HB520 HD1 (2023) proposed expanding cottage food law but status of enactment is uncertain as of research date. Note: the state baseline HAR is 'Poor' tier due to restrictiveness. A separate DOH 'Home Bakery Permit' pathway may exist for baked goods with additional requirements; the HMF program is the primary no-permit pathway.

RESEARCH NOTES

Hawaii is among the most restrictive states (state tier: Poor), but the January 2026 updated rules represent a significant expansion: pickles, kimchi, salsa (plant-based, pH ≤4.2 or Aw <0.88) are now allowed; wholesale to retailers is now permitted; and online sales appear to be allowed. The prior (pre-2026) rules were: direct-to-consumer only, no fermented/acidified foods, limited to basic baked goods/candies/jams. City and County of Honolulu encompasses most of Oahu including Honolulu city. State rules apply uniformly throughout Hawaii’s counties.

RESEARCH NOTES

Kalawao County is the smallest and most unusual county in the US — a tiny peninsula on Molokai administered largely by the state. No county-specific zoning or home occupation ordinance was found. The Hawaii DOH HMF program under HAR §11-50 (revised November 2024, updated info sheet dated 01.29.2026) applies statewide including Kalawao. Key 2024 updates: plant-based acidified/fermented foods now allowed with pH ≤4.2 or Aw <0.88; juice allowed for direct sales; wholesale to permitted food establishments now allowed. The state baseline in this database may predate the November 2024 revision and should be updated to reflect these expansions. Kalawao's lack of a functioning county government means state rules are the only operative rules.

Relevant county code

HAR §11-50-3 (state); Kauai County Ordinance No. 164, Article 1, §8-1.5 (Home Business Requirements)

RESEARCH NOTES

Kauai County has specific Home Business requirements (Ordinance No. 164) that are MORE restrictive than the state HMF framework in terms of on-site sales. County explicitly prohibits selling commodities on the premises and requires business to be conducted by phone/mail only from home. No employees permitted. No exterior signs. These local restrictions mean Kauai cottage food producers should primarily sell at off-site venues (farmers markets, events) per local rules, even though state law allows broader channels. Hawaii state program (HAR §11-50, updated Jan 2026) requires food safety training, allows wholesale to permitted food establishments. County planning URL and .gov URL confirmed. Confidence: high (both state law and county planning ordinance directly retrieved).

Crosodo Index methodology: The Crosodo Index is our internal 1–N ranking of U.S. counties by how friendly the combined state + county rules are for home-based cottage food bakers. Score components (higher = better): home kitchen allowed (30/15/5), no dedicated kitchen required (25), pets allowed (15), no home occupation permit (15), on-site pickup allowed (10), no inspection (10), no local business license (5), high data confidence (5), plus state tier bonus (Freedom +20, Great +15, Good +10, Okay +5). Data drawn from county zoning codes, health department rules, and state cottage food statutes (primarily the county_cottage_food_zoning research set and state statutes CSV, last verified ~2026). Ranks are global across ~3,000 counties. Counties with sparse or missing data receive lower/default scores. This is a research and prioritization tool only — always verify current rules directly with your state department of agriculture/health and your county planning & health offices. The original U.S. Census population rank is retained in source data for reference but is no longer used for primary display or sorting in Crosodo materials.
