

THE STATE OF THE STATES

Agricultural Land Conversion Highlight Summary

New Hampshire

Farms Under Threat: The State of the States mapped agricultural land conversion and evaluated state policy responses. The spatial analysis identified the extent, diversity, and quality of each state's agricultural land—and where this land has been converted to both urban and highly developed (UHD) and low-density residential (LDR) land uses.

AGRICULTURAL LAND CONVERSION 2001-2016

Conversion of non-federal farmland to UHD and LDR land uses from 2001-2016. The threat to working farms and ranches is pervasive, often claiming the most productive, versatile, and resilient lands.

 Conversion of agricultural land to UHD and LDR land uses

 Urban areas
 Federal, forest, and other lands

RELATIVE CONVERSION THREAT

MEDIUM

New Hampshire scored in the middle of all states for the conversion of agricultural land to urban and highly developed (UHD) and low-density residential (LDR) uses.

RELATIVE POLICY RESPONSE

MEDIUM

New Hampshire scored in the middle of all states for policies and programs that protect agricultural land from development, promote farm viability, and facilitate the transfer of agricultural land.

HOW IS THIS STATE DOING?

New Hampshire is in a green box because its policy response is aligned with its conversion threat, relative to other states. Learn more at www.farmland.org/farmsunderthreat

*Farmland is composed of cropland, pastureland, and woodland associated with farms.

** Our productivity, versatility, and resiliency (PVR) index helps identify high-quality agricultural land (see page 2).

DEVELOPMENT THREATENS NEW HAMPSHIRE'S AGRICULTURAL LAND

From 2001-2016, 11,600 acres of agricultural land were developed or compromised.

New Hampshire's farmland and ranchland was converted to:

- **Urban and highly developed (UHD)** land use, including commercial, industrial, and moderate-to-high-density residential areas.
- **Low-density residential (LDR)** land use, where scattered large lot development fragments the agricultural land base and limits production, marketing, and management options for the working farms and ranches that remain.

LDR PAVES THE WAY FOR FURTHER DEVELOPMENT

Agricultural land in LDR areas in 2001 was

6 TIMES MORE LIKELY

to be converted to UHD by 2016, compared to other agricultural land.

4,600 acres

40%

of conversion was to UHD

7,000 acres

60%

of conversion was to LDR

CONVERSION AFFECTED ALL TYPES OF AGRICULTURAL LAND

CROPLAND: 2,400 acres
PASTURELAND: 3,300 acres
WOODLAND: 5,900 acres

NEW HAMPSHIRE'S BEST AGRICULTURAL LAND IS UNDER THREAT

We used our unique **PVR index**, which quantifies the productivity, versatility, and resiliency of agricultural land, to identify:

1. **New Hampshire's best land**, which has PVR values above the state median, and
2. **Nationally Significant land**, which is the country's best land for long-term production of food and other crops. **28%** of New Hampshire's agricultural land, or **121,100 acres**, falls in this category.*

Protecting high-PVR land is critical for the long-term sustainability of agriculture, yet from 2001-2016:

- ▶ **5,300 acres** of New Hampshire's best land were converted to UHD and LDR uses.
- ▶ **2,800 acres** of New Hampshire's Nationally Significant land were converted.

*These two categories overlap and the same land may be included in both.

What's at stake?

- ▶ **431,800 acres of agricultural land remain¹**

CROPLAND: 135,500 acres
PASTURELAND: 75,100 acres
WOODLAND: 221,200 acres

- ▶ **\$187.8 million earned from cash receipts in 2017²**

- \$40.6 million from local food³
- \$75.6 million from agricultural exports⁴

- ▶ **11,600 acres were converted—enough land to generate \$5.1 million in annual revenue²**

- ▶ **New Hampshire's top 3 agricultural products:²**

- Nursery and Greenhouse \$53.3 million
- Milk and Dairy \$52.5 million
- Vegetables \$18.0 million

- ▶ **7,300 producers and 5,000 farm laborers on 4,100 farms²**

- ▶ **5 times as many producers over 65 as under 35 years old²**

4. Economic Research Service 2017

Farms Under Threat is American Farmland Trust's multi-year initiative to document the status of and threats to U.S. farmland and ranchland and to identify policy solutions to ensure the protection and conservation of America's diverse agricultural landscape.
