

THE STATE OF THE STATES
Agricultural Land Conversion Highlight Summary

New York

Farms Under Threat: The State of the States mapped agricultural land conversion and evaluated state policy responses. The spatial analysis identified the extent, diversity, and quality of each state’s agricultural land—and where this land has been converted to both urban and highly developed (UHD) and low-density residential (LDR) land uses.

AGRICULTURAL LAND CONVERSION 2001-2016

Conversion of non-federal farmland to UHD and LDR land uses from 2001-2016. The threat to working farms and ranches is pervasive, often claiming the most productive, versatile, and resilient lands.

Conversion of agricultural land to UHD and LDR land uses

Farmland* that is:
Above state median PVR**
Below state median PVR

Urban areas
 Federal, forest, and other lands

RELATIVE CONVERSION THREAT

HIGH

New York scored among the top states for the conversion of agricultural land to urban and highly developed (UHD) and low-density residential (LDR) uses.

RELATIVE POLICY RESPONSE

MEDIUM

New York scored in the middle of all states for policies and programs that protect agricultural land from development, promote farm viability, and facilitate the transfer of agricultural land.

HOW IS THIS STATE DOING?

New York is in an orange box because its conversion threat is higher than its policy response, relative to other states. Learn more at www.farmland.org/farmsunderthreat

*Farmland is composed of cropland, pastureland, and woodland associated with farms.

** Our productivity, versatility, and resiliency (PVR) index helps identify high-quality agricultural land (see page 2).

DEVELOPMENT THREATENS NEW YORK'S AGRICULTURAL LAND

From 2001-2016, 253,500 acres of agricultural land were developed or compromised.

New York's farmland and ranchland was converted to:

- **Urban and highly developed (UHD)** land use, including commercial, industrial, and moderate-to-high-density residential areas.
- **Low-density residential (LDR)** land use, where scattered large lot development fragments the agricultural land base and limits production, marketing, and management options for the working farms and ranches that remain.

LDR PAVES THE WAY FOR FURTHER DEVELOPMENT

Agricultural land in LDR areas in 2001 was

10 TIMES MORE LIKELY

to be converted to UHD by 2016, compared to other agricultural land.

56,300 acres

22%

of conversion was to UHD

197,200 acres

78%

of conversion was to LDR

CONVERSION AFFECTED ALL TYPES OF AGRICULTURAL LAND

CROPLAND:	103,000 acres
PASTURELAND:	85,200 acres
RANGELAND:	0 acres
WOODLAND:	65,300 acres

NEW YORK'S BEST AGRICULTURAL LAND IS UNDER THREAT

We used our unique **PVR index**, which quantifies the productivity, versatility, and resiliency of agricultural land, to identify:

1. **New York's best land**, which has PVR values above the state median, and
2. **Nationally Significant land**, which is the country's best land for long-term production of food and other crops. **54%** of New York's agricultural land, or **4,923,800 acres**, falls in this category.*

Protecting high-PVR land is critical for the long-term sustainability of agriculture, yet from 2001-2016:

- ▶ **121,000 acres** of New York's best land were converted to UHD and LDR uses.
- ▶ **128,300 acres** of New York's Nationally Significant land were converted.

*These two categories overlap and the same land may be included in both.

What's at stake?

- ▶ **9,194,800 acres of agricultural land remain¹**

CROPLAND:	4,550,900 acres
PASTURELAND:	2,336,400 acres
RANGELAND:	1,300 acres
WOODLAND:	2,306,300 acres

- ▶ **\$5.4 billion earned from cash receipts in 2017²**

- \$539.0 million from local food³
- \$1.4 billion from agricultural exports⁴

- ▶ **253,500 acres were converted—enough land to generate \$148 million in annual revenue²**

- ▶ **New York's top 3 agricultural products:²**

- Milk and Dairy \$2.5 billion
- Cattle \$426.0 million
- Corn \$398.6 million

- ▶ **58,900 producers and 67,500 farm laborers on 33,400 farms²**

- ▶ **3 times as many producers over 65 as under 35 years old²**

3. Sold directly to consumer and intermediate outlets, NASS 2017

4. Economic Research Service 2017

Farms Under Threat is American Farmland Trust's multi-year initiative to document the status of and threats to U.S. farmland and ranchland and to identify policy solutions to ensure the protection and conservation of America's diverse agricultural landscape. For more information about AFT, visit www.farmland.org. If you have any questions about the analysis methods or would like access to data, please contact AFT's Farmland Information Center: www.farmlandinfo.org or (800) 370-4879.
