

ACTIONTRAC™ POWERED RUNNING BOARDS

**PATENTED STEP-
WITHIN-A-STEP™.**

**SIMPLE-2-
INSTALL™ SYSTEM.**

**LIMITED LIFETIME
WARRANTY.**

ActionTrac™ powered running boards feature an innovative step-within-a-step™ design. The main housing has an integrated, non-skid stepping surface along the top edge, contouring to the vehicle's rocker panels.

When the door opens, a magnetic door switch automatically deploys the power step for an 8" drop, up to 15" below the doorsill. The two steps combined offer safer, easier entry and exit, particularly on larger, lifted vehicles. When the door is closed again, the power step retracts to be safely concealed within the housing.

- Patented step-within-a-step™ design for easier access, especially on large vehicles
- 4" top step provides convenient access to the roof of the vehicle
- Housing shields retractable step, pivot points and electronics from the elements
- Contoured design helps protect the rocker panels from road debris and door dings
- Simple-2-install™ system with no-splice wiring and no-drill brackets (on most models)
- Powder-coated 6061-T6 aluminum is durable, lightweight and non-corrosive
- Integrated control module detects obstructions and eliminates pinch hazards
- Limited lifetime warranty (five-year finish, one-year parts)

APPLICATION GUIDE

ActionTrac™ Powered Running Boards
