CLAIM

The ornamental design for a hair brush handle, as shown and described.

DESCRIPTION

FIG. 1 is a bottom perspective view of a hair brush handle, showing our new design, showing a central aperture on the bottom thereof, the interior of which central aperture does not form part of the claimed design;

FIG. 2 is a top perspective view of a hair brush handle thereof, showing op surface and bore for illustrative purposes only which couples to a hair brush head, which top surface and bore that couples to a hair brush head is not visible during normal use and therefore does not form part of the claimed design;

FIG. 3 is a top perspective view of a hair brush handle rotated ninety degrees with respect to FIG. 2, thereof, showing a top surface and bore for illustrative purposes only which couples to a hair brush head, which top surface and bore that couples to a hair brush head is not visible during normal use and therefore does not form part of the claimed design;

FIG. 4 is a front side elevational view thereof, the back side thereof being identical thereto;

FIG. 5 is a front perspective view, thereof;

FIG. 6 is a front perspective view thereof;

FIG. 7 is a left side elevational view, thereof, the right side thereof being identical thereto;

FIG. 8 is a bottom view, thereof, showing a central aperture, the interior of which does not form part of the claimed design; and,

FIG. 9 is a top view thereof, which couples to a hair brush head, showing a top surface and bore for illustrative purposes only that couples to a hair brush head, which top surface and bore that couples to a hair brush head is not visible during normal use and therefore does not form part of the claimed design.
The broken lines are for illustrative purposes only and form no part of the claimed design.
