

Cyrkl Copilot

Reduce waste.

Cut costs.

Protect the planet.

Your intelligent all-in-one software for smarter
waste management and circularity.

Start reducing waste and costs from day one with Cyrkl Copilot.

**Save 20–50%
annually
in waste management costs**

**Full visibility
across all waste streams**

**Meet your
sustainability goals
and reduce CO₂e emissions**

Cyrkl Copilot is designed to simplify, optimize, and digitize your organization's entire waste management workflow. Enabling smarter decisions, lower expenses, and real environmental impact.

Waste management and circularity in one software

Our success is grounded in three powerful, interconnected pillars.

Cyrkl's unique edge: built by practitioners, backed by data, tested by waste management specialists.

Data & Marketplace

Data-driven ecosystem

Cyrkl Copilot connects to Europe's largest waste and recycling marketplace and verified network of professionals — giving you unmatched transparency and efficiency.

ARQIMPEX BEW ZENERGO RETEK GSI

Consulting

Trusted advisory insight

Our years of consulting for major EU companies bring proven best practices, compliance expertise, and sustainability know-how directly into Cyrkl Copilot.

Cyrkl Waste Management

Expertise built in

Cyrkl Copilot was created by waste management specialists with real hands-on experience across Europe. We built it to solve our own challenges — and now it solves yours.

SPUR SKODA PHOENIX RECYCLING

The Cyrkl Copilot software explained

One dashboard for complete waste management.

Cyrkl Copilot connects your physical waste operations with a clear digital overview — giving you control, transparency, and real-time insights in one place.

1. Home page

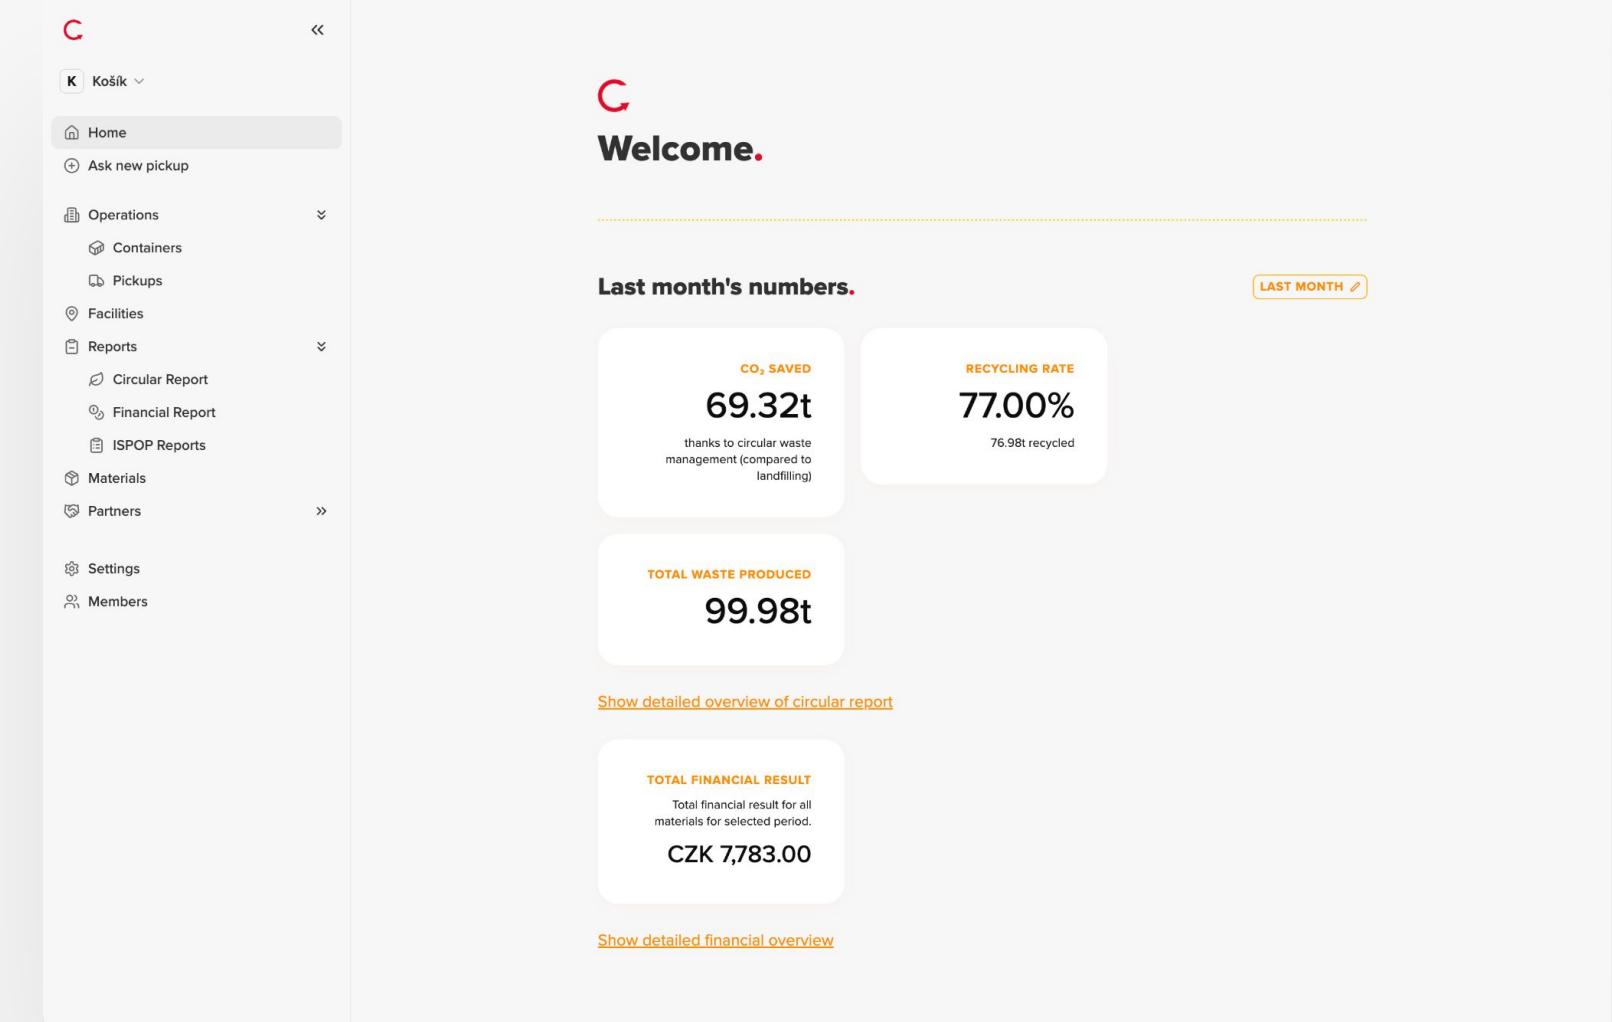

See key metrics at a glance — across all facilities and waste streams.

2. Operations

Monitor containers, pick-ups, and partners in real time to streamline daily operations.

3. Circular Overview & Costs

Track costs, material flows, and CO₂e emissions instantly — with export-ready reports.

cyrkl.com/copilot

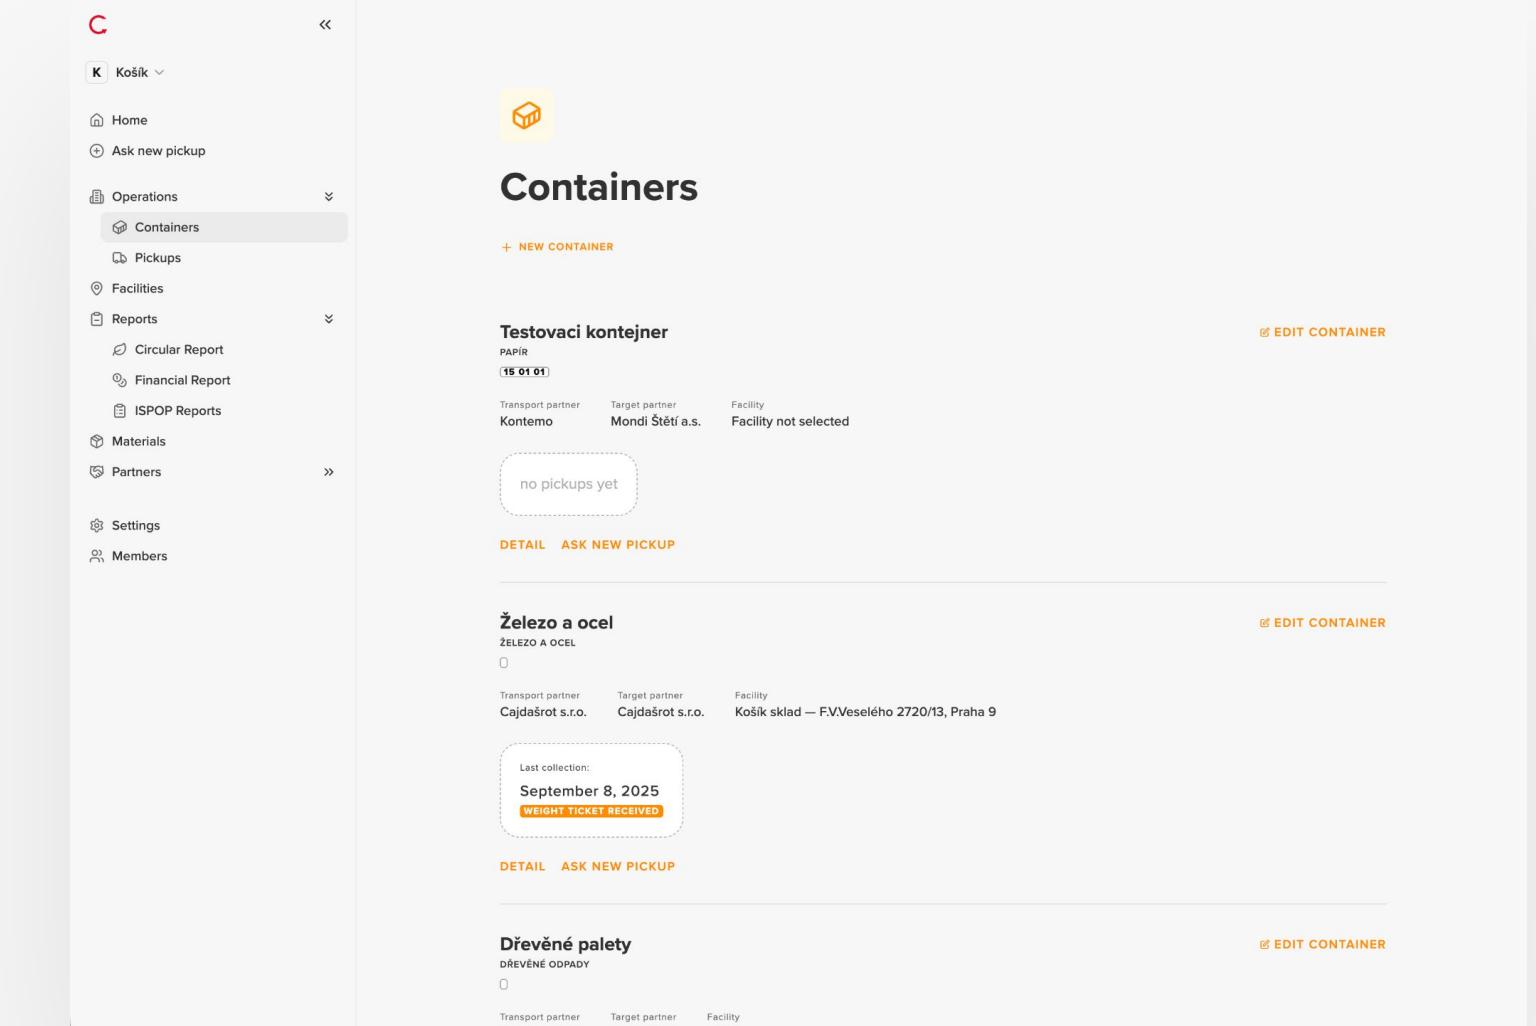

Waste management and circularity in one software

The Cyrkl Copilot software explained

Operations: Real-time container management.

This core module lets you efficiently manage all container-related operations and partners **in one unified view.**

- See all **containers, locations, and fill levels** in real time.
- **Prevent overflows** with predictive monitoring and timely pick-ups.
- **Manage all waste and recycling partners** in one interface.
- **Eliminate spreadsheets** and emails. Get full operational clarity.

cyrkl.com/copilot

Waste management and circularity in one software

The Cyrkl Copilot software explained

Operations: Smart control of all pick-ups.

Track all pick-ups from every partner in one dashboard.

- **Optimize routes and schedules** to cut down unnecessary trips and reduce costs.
- **Receive automated reminders** and notifications for timely coordination.
- Let our AI assistant handle **weigh tickets** by reading and processing them automatically — so you don't have to.

The screenshot shows the Cyrkl Copilot software interface. On the left is a sidebar with navigation links: Home, Ask new pickup, Operations (selected), Containers, Pickups (selected), Facilities, Reports, Circular Report, Financial Report, ISPOP Reports, Materials, Partners, Settings, and Members. The main area is titled 'Pickups' and shows 'Future pickups' for Bioodpad BPS Všebořice (scheduled for January 29, 2026) and Bioodpad BPS Všebořice (scheduled for January 28, 2026). It also shows 'Today pickups' for Bioodpad BPS Všebořice (scheduled for January 22, 2026). A 'Request a new pickup' modal is open, prompting 'When do you need a ride?' with options 'IMMEDIATELY' (selected) and 'SCHEDULE FOR LATER'. It also asks for a 'Container' (selected: Papír Košík) and a 'Test container' (selected: Paper Basket).

cyrkl.com/copilot

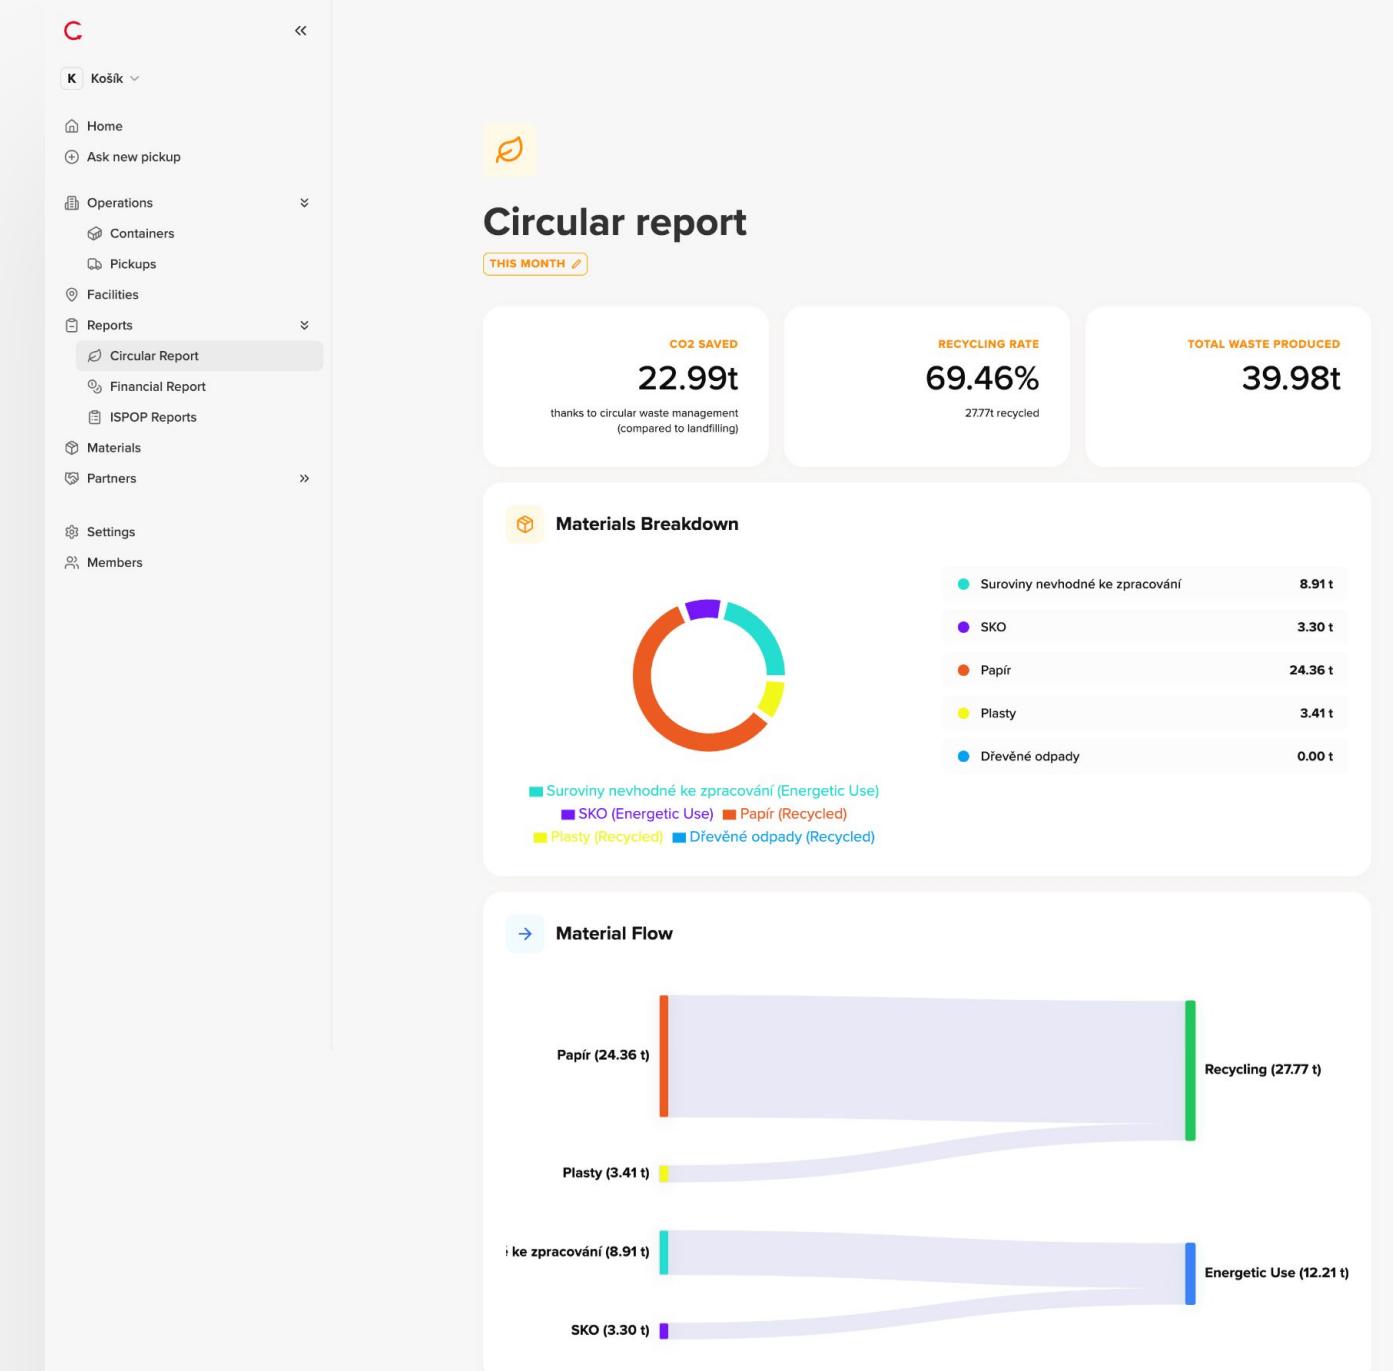

Waste management and circularity in one software

The Cyrkl Copilot software explained

Circular overview: All your data automatically calculated.

Access **real-time data on waste streams, material flows, and circularity** — no more waiting for reports.

- **Track environmental KPIs** and identify areas for improvement.
- **Export ready-made reports** for management updates and ESG compliance.
- Automatically calculates **CO₂e savings** from your waste management operations.

cyrkl.com/copilot

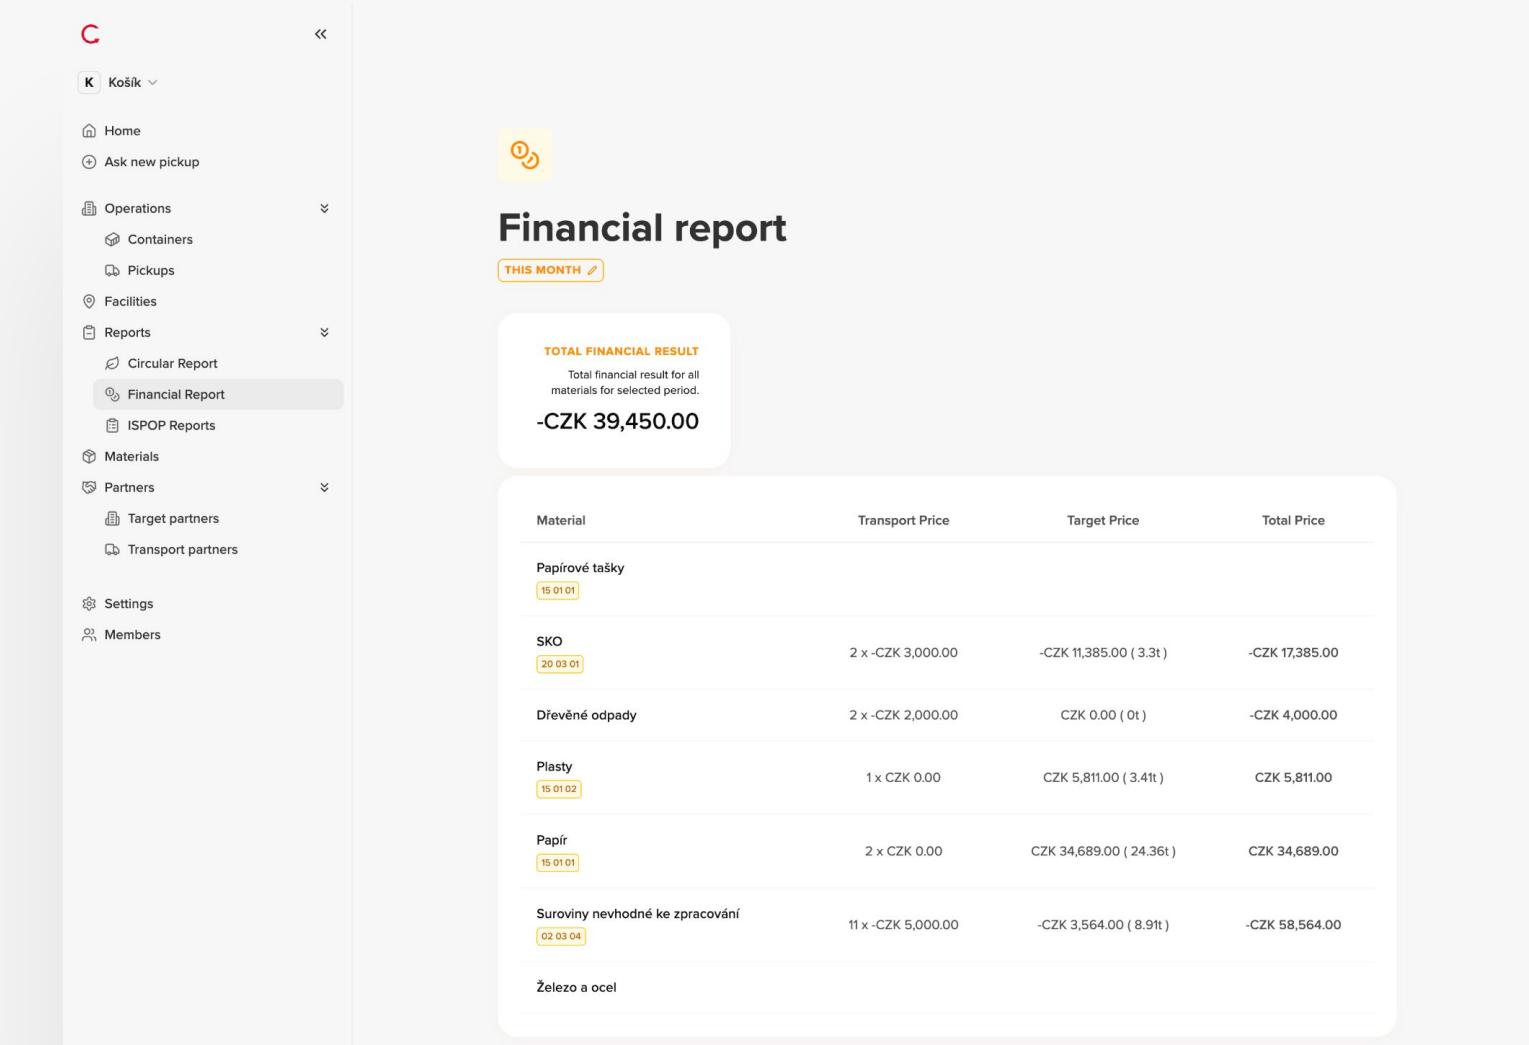

Waste management and circularity in one software

The Cyrkl Copilot software explained

Financials & accounting.

Stay on top of your financial performance with clear, actionable insights.

- **Monthly financial reports** show your progress and highlight key trends.
- Instantly see **costs per pick-up**, allowing you to pinpoint inefficiencies.
- **Discover your most valuable materials** and areas with the biggest saving potential.
- Use the data to **make informed decisions** that directly impact your bottom line. Cyrkl Copilot turns waste data into financial advantage.

The screenshot shows the Cyrkl Copilot software interface. On the left is a sidebar with a red 'C' logo, a user name 'Košík', and navigation links: Home, Ask new pickup, Operations (Containers, Pickups, Facilities), Reports (Circular Report, Financial Report, ISPOP Reports, Materials, Partners), Target partners, Transport partners, Settings, and Members. The main area is titled 'Financial report' with a 'THIS MONTH' button. It shows a 'TOTAL FINANCIAL RESULT' of '-CZK 39,450.00'. Below is a table of materials with columns: Material, Transport Price, Target Price, and Total Price. The table lists various materials with their respective codes and financial details.

| Material | Transport Price | Target Price | Total Price |
|---|--------------------|--------------------------|----------------|
| Papírové tašky 15 01 01 | | | |
| SKO 20 03 01 | 2 x -CZK 3,000.00 | -CZK 11,385.00 (3.3t) | -CZK 17,385.00 |
| Dřevěné odpadý | 2 x -CZK 2,000.00 | CZK 0.00 (0t) | -CZK 4,000.00 |
| Plasty 15 01 02 | 1 x CZK 0.00 | CZK 5,811.00 (3.4lt) | CZK 5,811.00 |
| Papír 15 01 01 | 2 x CZK 0.00 | CZK 34,689.00 (24.36t) | CZK 34,689.00 |
| Suroviny nevhodné ke zpracování 02 03 04 | 11 x -CZK 5,000.00 | -CZK 3,564.00 (8.91t) | -CZK 58,564.00 |
| Železo a ocel | | | |

cyrkl.com/copilot

Waste management and circularity in one software

Extra module

Full environmental reporting with ISPOP reports.

Generate **fully compliant ISPOP reports**, ready for immediate submission through online authorization.

The system automatically **compiles monthly data and seamlessly prepares the mandatory annual report** — with the option to review and edit before submission.

The tool is fully **automated, aligned with legal requirements, and easy to navigate**, helping you stay compliant in a fraction of the usual time.

cyrkl.com/copilot

Waste management and circularity in one software

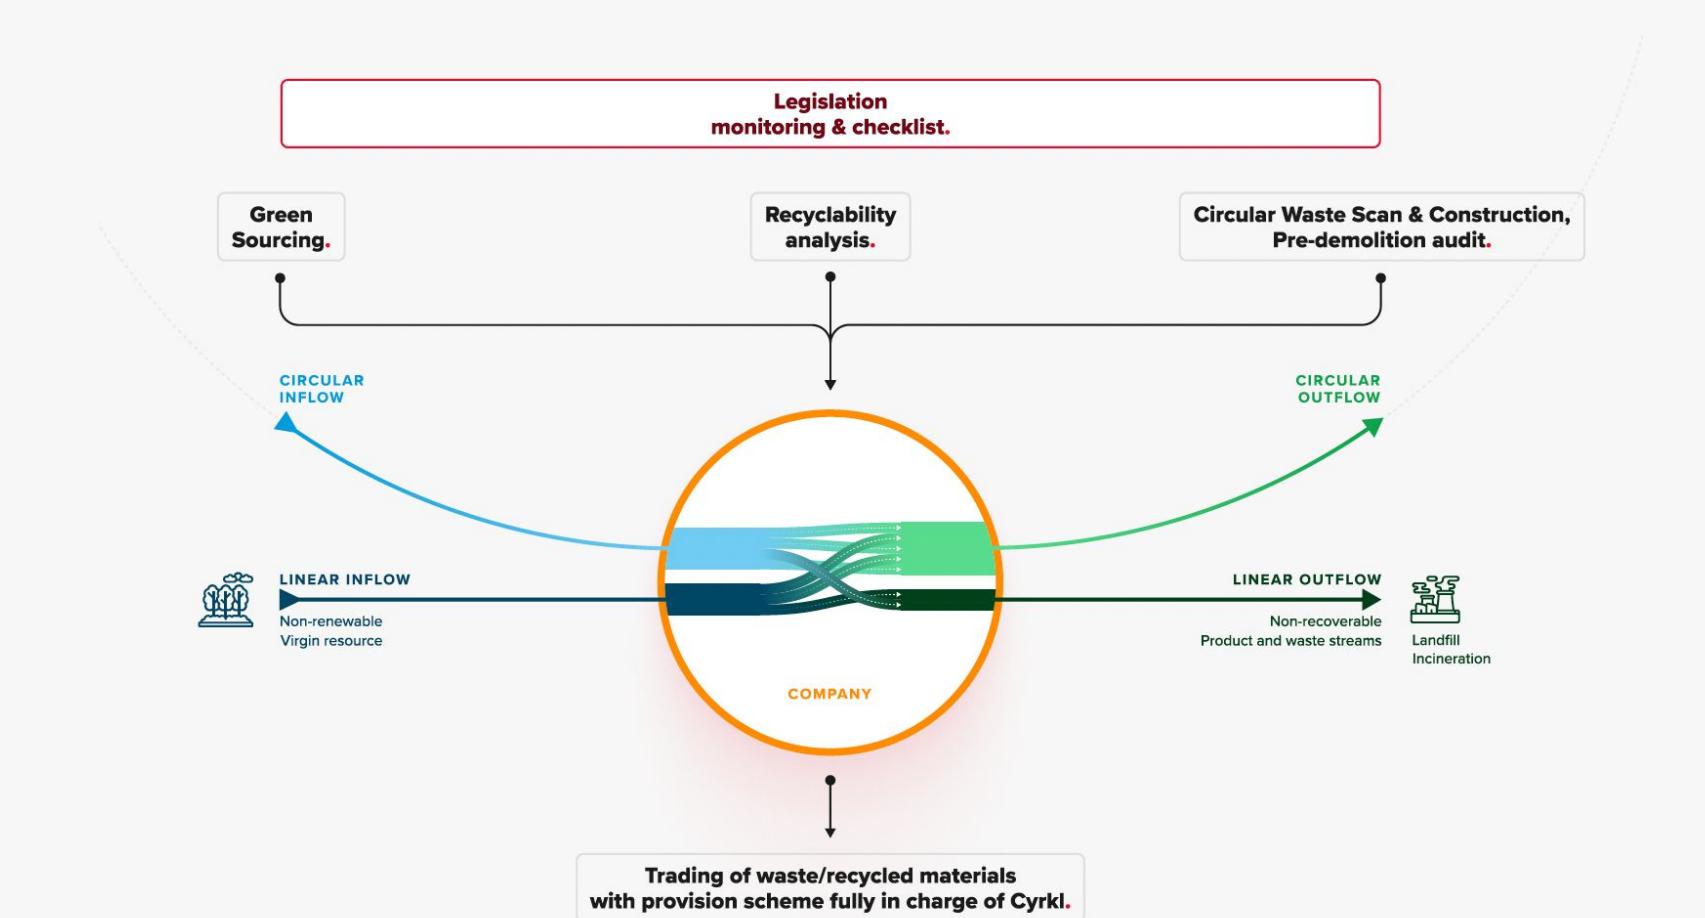

Extend your capabilities with smart add-ons

Cyrkl Copilot is constantly evolving — and you can boost your system with powerful extra modules tailored to your needs.

Material flow mapping gives you a complete overview of circularity across all material inflows and outflows — helping you manage and improve your circular performance.

Circularity insights let you run an online waste scan and instantly receive actionable recommendations to boost circularity and reduce waste.

Upcoming modules include **tendering tools, an AI optimization engine, and more**. If you need additional features, let us know — our in-house tech team can build them for you.

cyrkl.com/copilot

Waste management and circularity in one software

Simple, transparent pricing No hidden costs

Our pricing model is built to deliver measurable results first and scale alongside your operations.

Included at no extra cost:

- **Full customer support** from onboarding to daily use.
- Access to **Cyrkl Connect**, the most comprehensive EU-wide database of verified recycling companies.
- **Exclusive invites to ESG trainings** — join our community and stay ahead with ESG education.

3-month free trial

Explore the platform with no commitment.

Flat monthly fee of €200

Gives you full access to all core features and unlimited users.

€2 per pick-up

Ensures pricing that scales with your real waste operations.

Optional modules

Add only the tools you need, exactly when you need them.

cyrkl.com/copilot

Waste management and circularity in one software

Copilot's onboarding is built to be smooth, guided, and tailored to your needs — so you see value fast.

Today

We analyze your current setup, clarify your goals, and define operational needs.

Based on this, you receive a personalized proposal showing how Cyrkl Copilot fits into your workflow and the value it delivers.

Within 4 weeks

Experience Cyrkl Copilot in action.

We prepare a pilot using your own data, allowing you to see real outcomes and test key features before making a long-term decision.

Within 8 weeks

Full implementation begins.

Once you're ready, we finalize the contract and deploy Cyrkl Copilot into your live environment — with full support from our onboarding team at every step.
