# Installation guide\_ Raised Laying

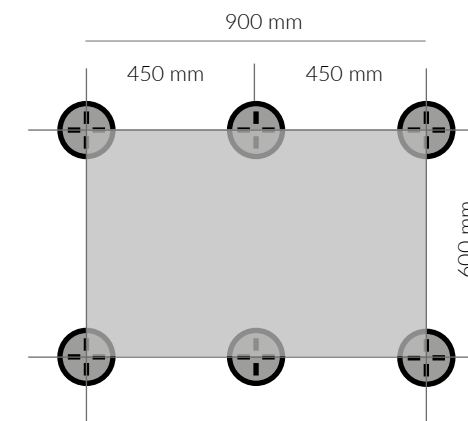

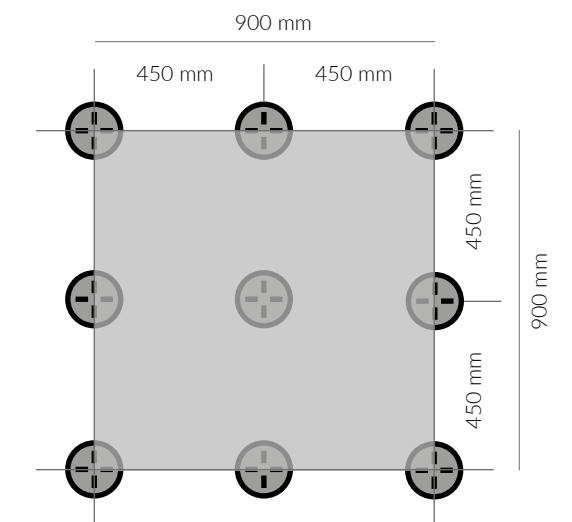

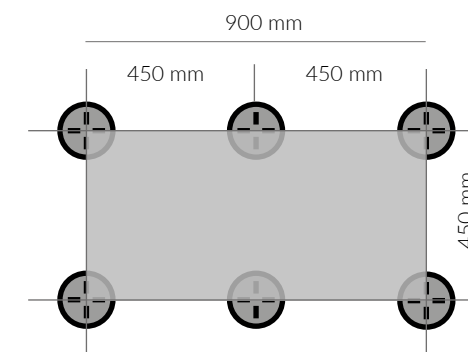

In the raised floor system, 20mm thickness porcelain tiles are placed on supports (plots) of adjustable height, which allows to obtain in a easy and quickly way the desired height, something that greatly helps with the installation of the pieces. It is perfect for areas with a slight inclination such as terraces, gardens, patios or pedestrian crossings, among others, since the plot, being self-adjusting would balance this unevenness.

To install the 20mm thickness porcelain tiles, we must only place the piece on the plots, check the inclination with a level and adjust the PVC support to the desired height to achieve the desired planimetry (see drawings 1, 2 and 3).

**Private Use**  
6 Plots  
Height <20 cm.

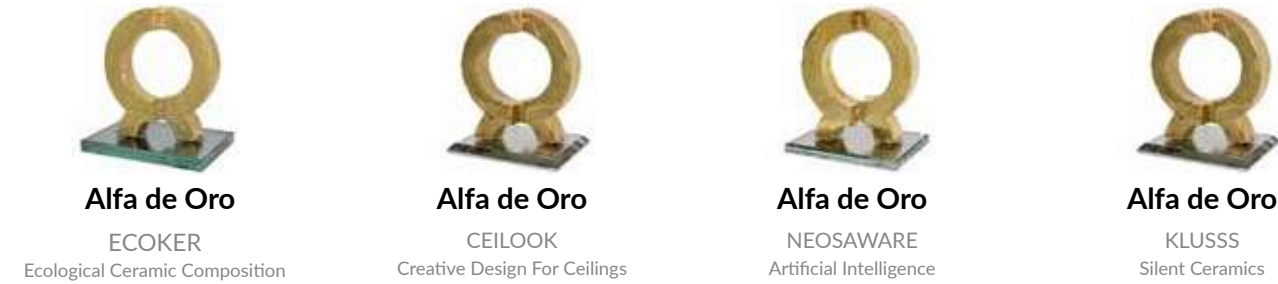

**Public Use**  
8 Plots  
Height >20 cm.

For heights higher than 40 cm, we recommend using a batten substructure and mesh reinforcement on the back of the tile to avoid defragmentation or reducing the distance between battens.

## Always innovation

Raising Awareness Committed

Thanks to continuous research and development in new techniques and new collections, Bestile has been awarded four times with the prestigious prize ALFA DE ORO granted by CEVISAMA, the International Ceramic Exhibition (Valencia, Spain) 2008, 2015, 2017 & 2020.

## Global creation

BESTILE provides sophisticated design ceramics, with a concept of total quality, pursuing the complete customer satisfaction and guaranteeing our best design and innovation.

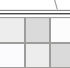

Through aesthetic creativity and a high level in the manufacturing of all our products, BESTILE has reached households all around the world by always offering the highest excellence of the product. Bestile is living a consolidation period, that is a consequence of our latest efforts. Nowadays, Bestile keeps on being a pioneer and a reference in innovative products and production technologies.

This consolidation is based on:

- \_Experience and control of the latest technologies for decoration, agility to respond to news developments.
- \_Complete renewal of the product range and continuous research of innovative products.
- \_Respect for the environment and collaboration with the society in which our activity is carried out, in a permanent exercise of social responsibility.
- \_Continuous research and development in new techniques and new collections.
