THE ULTIMATE
FLOORING EXPERIENCE

TABLE OF CONTENTS

Welcome to the creative universe of Tarkett Laminate flooring.

Through 130 years' researching the best solutions for all flooring needs, we have come up with thousands of different colours, designs, surface finishing and formats for our vinyl, linoleum, wood and laminate ranges, proving that flooring is an essential element of decoration to express style and character.

Laminate is the ideal deco product: endless colours and style possibilities, easy to install, easy to maintain and affordable. All these characteristics have inspired our international design team to explore the limitless options of this flooring: 80% wood and 100% style.

With 110 decors, 14 surface finishes, 4 board constructions, 3 types of bevelling, we invite you to browse our new Tarkett Laminate Collection – designed to offer you a creative toolbox to personalise your space. Pick a style, a shade, explore the different formats and surface finishing – every detail counts in making a lasting impression. Our collection gives you the versatility to create distinctive styles and the ultimate flooring experience whether at home or in commercial interiors.

Overview

A RANGE DEDICATED TO DECORATION

COLOURS FROM NATURE AND MORE

Advanced techniques in manufacturing enable consumers to choose a 'wood' floor to fit their budget made from a variety of different materials – solid wood, multi-layer wood, laminate and vinyl.

Although nature gives us a rich palette of wood colours, wood floors, whatever their construction, can take on a whole world of other shades or painted tones. With laminate, when digital technology meets nature, unique and rare colours are born. Take a look at our full spectrum of wood nuances.

NATURAL AND WOOD EFFECTS

A natural wood effect goes beyond colours and visual effects, it needs structure and pattern. What the eye sees, the hand touches: It may be the feeling of a smooth, perfectly sanded and varnished surface or a rougher, more rustic surface where the finger runs along the cracks, goes around a knot and is tickled by the subtle saw cuts or the soft silky sensation of an oiled floor. The mastery of advanced manufacturing hiding beneath the surface of a very authentic looking floor.

A SUSTAINABLE FLOORING

The HDF boards that are the core material of laminate planks are made of compressed wood that is recycled leftover wood pulp from sawmills. Tarkett's laminate is made of 84% wood, and can be recycled as combustible material for the industry, for example to generate electricity.

TIMELESS CLASSIC

Sharing a heritage of style and elegance. From fancy to rustic, the wood displays its natural features in a subdued and reassuring way. The classic floor is part of the home's history.

CREATIVE LAB

A vintage floor tells its own story: the colour shades, stains and marks say something about its origins and how it was made or previously used. It is an active component of the whole decoration and a protagonist of the home narrative.

TIMELESS CLASSIC

CREATIV LAB

INCREDIBLY NATURAL EFFECTS

A TEXTURED SURFACE FOR MORE NATURALITY

Our EIR (embossed in register) surfaces bring out distinctive appearance of wood decors and underline the natural characteristics of classic, rustic and vintage woods. They are intended for those who feel that a wood floor brings visual and tactile pleasure.

Glossy EIR: For a very classy and classic look the glossy surface of a lacquered parquet.

Matt EIR: The new classics are not as glossy as they used to be. They display satin surfaces of oiled or matt lacquered wood.

3D EIR: New trends look for wood with character. Our new 3D technology, achieves deep looking cracks for the very vintage look of used, distressed or recycled woods.

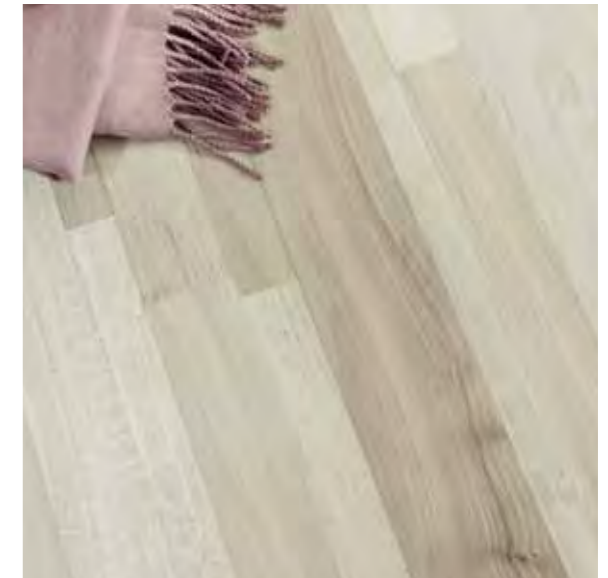

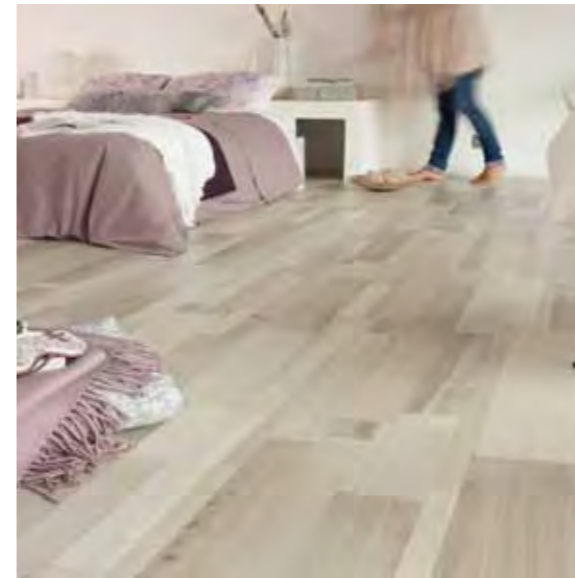

DEEP STRUCTURE

Deep looking structure can be achieved without having actual cracks that would weaken the product. By alternating matt and shiny overlay, we play with light and perspective and give depth to the specific characteristics wood.

ALL OVER SMOOTH SURFACES

Our all-over surfaces have the silky feel of processed wood. A little grainy or completely sleek depending on whether it is a modern or vintage wood.

Smooth Surface: The feel of a brand new polished and lacquered wood with a very subtle grain. Or the sleek and glossy surface of an exotic wood

Grainy Surface: A rawer matt rendering, the vintage look of a floor that has been polished by years of use

3D Effect: Playing with the matt and shiny effects of the overlay can achieve an amazing structured look for decors with character.

COLLECTION OF SURFACE FINISHES

GLOSSY

MATT

LUMINOUS

High gloss slightly striped texture
Lamin'Art, Essentials

PATINA

Glossy, structured surface for a very authentic waxed look
Essentials, Vintage, Lamin'Art, Special formats

EIR HANDSCRAPED

EIR moderately glossy with an authentic structured vintage effect
Vintage

MATT WOOD

Non-glossy, finely structured surface for a soft vintage look
Essentials, Vintage

AUTENTICO

3D effect, gives structure to a very matt finish
Essentials, Vintage, Long Planks

LIGHT CATCHER/ EIR LUNAR/ EIR CEMENT

EIR with 3D effect: Ultra matt on top and shiny in the creases - it catches the light for a smooth satin look
Woodstock, Loft

Very matt EIR embossing underlining the features of classic oak
Woodstock

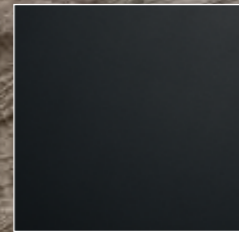

ANTISLIP

Moderately glossy all over structure preventing slipping in humid environments
Aquastyle

STONE EIR

Matt EIR especially for stone designs to bring out the natural variations of slate.
Loft

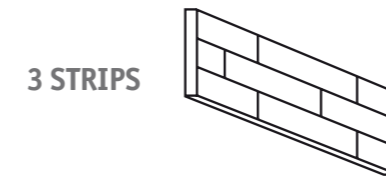

MATT

All-over silky, no-gloss surface for light colored decors
Essentials, Vintage, Long Planks

A VARIETY OF SHAPES AND SIZES

BOARD CONSTRUCTIONS

BEVELLING

DOUBLE-SIDED BEVEL (2V) :

Boards are V bevelled along their length to provide the impression of length

FOUR-SIDED BEVEL (4V) :

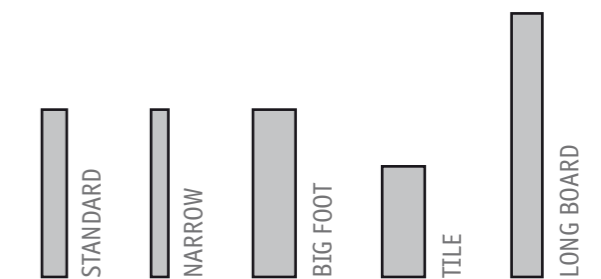

Boards are V bevelled along their width and length for a classic and classy look

MICROBEVELS :

The boards are square beveled along their length for an elegant finishing of elaborate vintage decors

BOARD DIMENSIONS

- STANDARD: 1292 x 194 mm
- NARROW: 1292 x 136 mm
- BIG FOOT: 1292 x 331 mm
- TILE: 855 x 331 mm
- LONG BOARD: 2033 x 240 mm

PERSPECTIVE IS THE MAIN VARIABLE IN DECORATION

Four types of board constructions to help you play with perspective, widen perception of space and bring volume into different types of living areas. Long and narrow boards to enhance perspective, magnify or lengthen large surfaces. Two, three and random strip constructions to maximise space in less roomy areas. Plus three types of beveling to match the functional and aesthetic needs of different interior spaces.

LAMINATE IS COMFORTABLE, EASY AND STRONG

COMFORTABLE FLOORS

Cosy and hassle free

Laminate is made out of 80% wood, a material that provides natural thermal insulation

The melamine top layer prevents the proliferation of germs and bacteria

The hard sealed surface is stain resistant and the tight locking system prevents dust and dirt from getting stuck in the seams

A vacuum and a damp mop with soft detergent is all that is needed to keep the floor clean and beautiful

EASY INSTALLATION

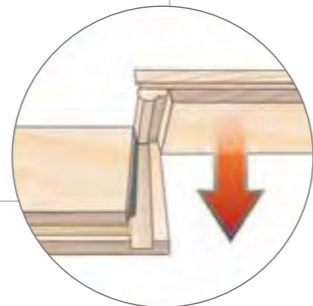

Quick, no mess, and can be used immediately

- All our floors are equipped with easy to use tongue and groove installation system (T-Lock) or very quick and easy to use click system (2-Lock) which take 50% less time to install

- There is minimal underfloor preparation and few tools are needed
- It is a floating installation, so it can be walked on right away!

ISO 9001, ISO 14001, OHSAS 18001

Tarkett Laminate products are made in Germany in an ISO 9001 and ISO 14001 certified facility to the highest quality, safety and environmental standards.

INCREASED RESISTANCE

A beautiful floor for a long time

The high density fiberboard gives structural strength to the product, product to resist falling objects and heavy furniture without a dent

The Techwear melamine top layer protects the surface of the floor to withstand the daily punishments of a busy home

The Tech 3S silicon joint is a protection against water damage such as molding, curving, and gaping (for wetroom solutions, see Aquastyle p.50)

1 - OVERLAY

The overlay contributes greatly to the product's durability. It ensures a hygienic floor. The embossing of the overlay gives the flooring its surface appearance, from simple textured surfaces to highly sophisticated effects.

2 - DECORATIVE LAYER

Made out of printed paper, it allows the widest variety of designs.

3 - CORE BOARD

High-density fiberboard (> 80% wood): gives exceptional structural strength to the product.

4 - BALANCING LAYER

Protects the core board from moisture ingress and guarantees dimensional stability.

European Producer of Laminate Flooring

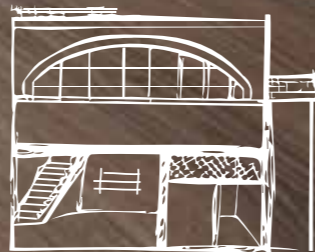

Tarkett has a long history of developing products that are good for people and the environment. We have adopted the Cradle to Cradle approach from product design to end-of-use to ensure that flooring becomes the beginning of something new again. **Tarkett laminate is 100% recyclable - check with your local waste management office before throwing away used laminate.**

All the layers are pressed together under high pressure at a high temperature in a single operation. The technology used is called Direct Pressed Laminate or DPL. This process is registered in a European norm (13329) that sets all the criteria and tests that must be satisfied for a floor to be classified as laminate.

RANGES

WOODSTOCK 832 & 1032

Classic is timeless, just like a story that is told over and over again with a new detail added here and there to keep it updated, to make it personal. It has the reassuring sobriety of tradition, a heritage passed on from generation to generation. Classic is cosy and welcoming as a traditional family house and has the elegance of the bourgeois inner city apartment. In this renewed collection, the colours become more subtle with a myriad of nuances coming alive with the light movements as the day goes by.

VINTAGE 832

Vintage is an invitation to travel, imagine and interpret: the home is a creative laboratory. It is a very intimate and unique expression of personality through a patchwork of restored antiques, re-invented industrial furniture, travel souvenirs and ethnic objects. Our new Vintage collection will thrive in an aerial city loft or a converted workshop, with darker grey shadows giving hints of the wood's previous life.

RANGES

THE ESSENTIALS 731 & 832

Exotic species with their reddish woods, classic oaks in very natural shades of blond and brown, vintage woods with grey shadows and even fantasy decors, all the essentials of decoration are available in this basic collection.

LAMIN'ART 832

Painted and structured, striped and graphic or simply all over, the Lamin'Art range comes in black, white and grey. A collection with character that has become a new classic.

THE ESSENTIALS 731 & 832

LOFT 832 & 1032

AQUASTYLE 832

LAMIN'ART 832

SPECIAL FORMATS

LOFT 832 & 1032

A collection playing with the sober modern style of stone and concrete. From warm to cold and from dark to light, the different shades of grey find their home in a country kitchen, a sleek city loft or a vintage artist's studio.

AQUASTYLE 832

Because style doesn't stop at the bathroom doorstep, there's Aquastyle. A short but efficient range of favourite decors adapted to humid environments.

SPECIAL FORMATS

Perspective is the main variable in decoration, the use of colors in the room can create space or in the contrary make the room more intimate. The shapes and sizes of the floor patterns are a magic tool to create space, length and depth. This brand new special collection is an encouragement to creativity.

Woodstock 832 & 1032

THE OAK COLLECTION

Classic and classy, oak remains an all times favorite. From processed to rustic, the wood displays its natural features in a subdued way. From ultra-classic honey browns to super stylish Flament greys, Woodstock comes with a full offer of structures, EIR finishes, bevels and even sizes. Presented here: Grey Pepper Oak

Loft 832 & 1032

THE STONE CONCEPT

The cool natural look of stones adapts to the style and size of the room with different shades of grey and various dimensions. Large slabs of concrete for a contemporary look, smaller squares of slate for a classic feel and the unsettling plank of concrete oak. Presented here: Wild Light Stone

Loft 832 & 1032

Long side bevelled
2V

4 sides bevelled

Plank P	Big Foot BF	Tile T
1292x 194mm	1292x 331mm	855x 331mm

Locking system: 2-lock
Warranty: 25 years residential, 10 years professional

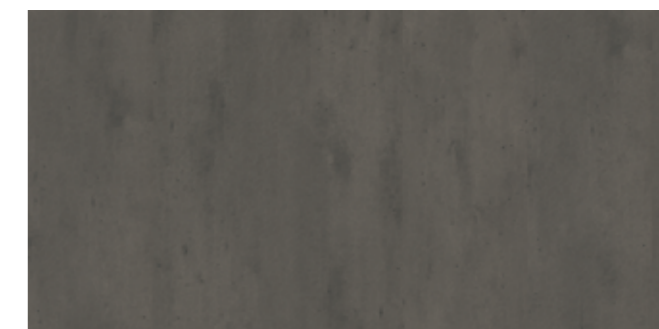

VARIOUS DIMENSIONS

The size of a tile changes the look of the room, even if the décor is similar. Very large dimensions will give a very modern feel to a large loft type room, whereas the new medium size tiles will be more classic, ideal in a kitchen where there is less space.

SPECIAL FORMATS

LONG BOARDS

NARROW PLANKS

INFINITE EFFECT

THE SPECIAL EFFECT CONCEPT

Put your style into perspective by playing with dimensions: wide & endless, long or narrow. Change places without actually moving.

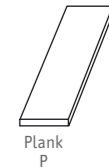

Long Boards 932

NEW

Long Boards 932

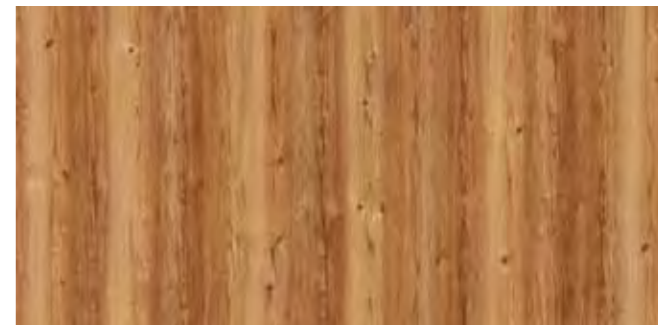

Dimensions: 2033 x 240 x 9mm - Locking system: 2-lock
Warranty: 25 years residential, 10 years professional

The good old ranch style floor boards have taken a trendy twist. Their large dimensions lend a very natural look to the deco and at the same time they give perspective to the room they are laid in. The traditional pine with a vintage look that's perfect for a renovated attic has made room for the classic oak that will bring volume and modernity to a classic living room.

Sublime Style 832

Narrow planks

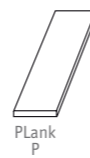

The narrow bevelled planks are the ultimate classic. Their glossy natural colours express the sophisticated, yet sober style of traditional European city apartments. The deep velvety tones of exotic essences will provide elegance and intimacy to larger spaces.

Infinite 832

The wide boards are bevelled along the length, without showing any connection on the short sides - like a plank cut directly from the tree! These infinite planks lend their length to the room for a feeling of wider space.

Aquastyle 832

THE WATER RESISTANT CONCEPT

Aquastyle is an exclusive solution for use in humid environments. The floor boards are treated with our Moisture Resistant Technology (MRTech) and should be installed with our Aquastyle accessories to create a totally sealed area to prevent any water ingress. With Aquastyle, trendy rhymes with safety thanks to its anti-slip surface.

A unique solution :

Aquastyle accessories, simple steps to prevent water ingress!

1 2 Lay Aquastyle PE foil on the floor from wall to wall all around your room, then fasten it in place with Aquastyle installation tape.

3 Complete the installation by fitting the Aquastyle skirtings, which will also prevent water ingress along walls.

4 Lay your Aquastyle 832 boards. Apply Aquastyle Edge Protect on to the cut boards.

NEW FINISHING

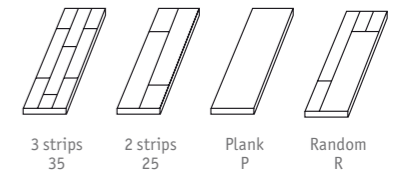

Polished hardwoods from exotic forests have a very characteristic shine that gives the deep, velvety colors an aura of elegance. This shine is perfectly rendered with the new high gloss finish and for an even classier look, the exotic woods are also available in narrow planks.

*Also available in narrow planks!

Laminate for the Pro

Several studies conducted by our international design team and external organizations have shown clear trends in retail and hospitality: Purchasing is triggered by much more than just displaying goods or services, shoppers are primarily looking for a journey that will surprise their imagination and build interaction with the brand. Beyond buying, the store is a place to experience, find meaning and socialise.

Our Laminate floors will help you convey this unique value when creating a commercial space with ergonomics, aesthetics, economy, ethics and emotion,

- > Practical and comfortable
- > Realistic imitations and original creations
- > Affordable and easy to maintain
- > 84% natural, 100% recyclable and produced in ISO certified plants
- > Imagined and designed to create signature ambiances

Our products will provide you with the Ultimate Flooring Experience.

Accessories

Laminate Pro, a high-tech product where standard laminate is just not enough

- **Overnight installation:** quick installation, no mess, can be used immediately.
- **Heavy display furniture & use of trolleys and carts:** reinforced construction to avoid damage and indentation, extra strong locking system supporting heavy charges, resistance against plastic wheels.
- **High traffic and street access:** extremely resistant against impact, abrasion and humidity, no problem for high heels, dirty and wet shoes.
- **High attendance:** Reinforced for high-density environments: melamine acts as a barrier against propagation of germs.
- **Dry climate:** antistatic treatment for improved comfort.
- **Cost Control:** stain resistant and easy to maintain: just damp mop & soft soap.

INSTALL & MAINTAIN

1. PREPARATION

Acclimatising

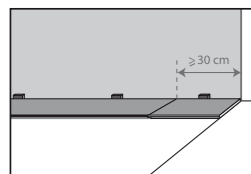

Allow your flooring to adjust to the temperature of the room in which it is to be installed. The packaged flooring should be placed in the room for a minimum of 48 hours prior to installation

Direction

Always take into account the main source of light and the main direction from which the floor will be viewed. The panels should be laid lengthwise to this direction and never crosswise.

2. INSTALLATION

Installation basics

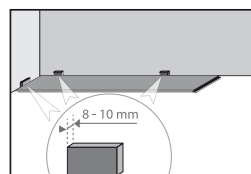

Laminate flooring should always be laid as a floating floor (i.e. the boards should never be fixed to the sub-floor in any way).

For maximum hold, boards should be staggered by a minimum of 30 cm and should always be longer than 30 cm.

In corridors and rooms longer and/or wider than 10 meters or between two rooms, expansion provision should be allowed for and covered with a matching transition profile.

The floor can be stepped on right away!

*Always refer to and follow the installation instructions provided with your laminate flooring or on our website www.home.tarkett.com.

How to instal your laminate flooring?*

Glue-free systems. No special tools: a pencil, ruler and saw are about all you need.

Always allow for an all around expansion gap of 8-10 mm between the flooring and any fixtures (walls, pipes, door-stops, etc).

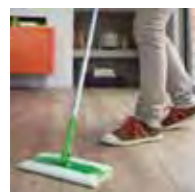

*Always refer to and follow the installation instructions provided with your laminate flooring.

3. MAINTENANCE

Cleaning, so easy!

Regular cleaning
vacuum and dry-mop.

Occasional cleaning
Damp-mop with soft detergent suited to laminate and dry-mop afterwards.

Stains

Remove stains, spots, etc. as they occur. Rub the stain with a clean, dry mop moistened with a dedicated cleaning agent. Never spray any cleaning agent directly onto the floor. When using a solvent or concentrated cleaning solution, read the safety advice carefully!

What you need to know about under-floor heating & laminate

Laminate flooring is suitable for installation above under-floor heating systems, provided that the heating element is embedded in concrete or another sub-floor, it is also suitable to be installed on low-temperature water-based under-floor heating systems. The flooring surface temperature should never exceed 28°C.

Laminate flooring is not suitable for installation above under-floor heating foil installed above concrete or any other sub-

floor, unless otherwise specified by the under-floor heating manufacturer.

If you are using an electrical under-floor heating system, make sure you have a self-regulating system in order never to exceed 28°C.

And walk over your flooring as soon as it is laid!

2-lock

Fold-down system!
It's so easy 2-Lock, it takes 50% less time to instal the flooring!

T-lock

Angle system: angle-angle-angle: it is locked and will stay firmly clicked in place for many long years!

STAIN	RUBBER, PLASTIC, HEEL MARKS	BLOOD, URINE	NAIL VARNISH, SHOE POLISH, PAINT, INK, LIPSTICK	FRUIT, MILK, BEER	CANDLE WAX, CHEWING-GUM
SOLUTION	Rub the mark with a dry cloth. Use acetone if needed. Once dry, brush it off with a white nylon pad.	Wipe the stain with a slightly damp cloth. If dry, rub it down with a dry nylon pad.	Remove with a cloth soaked in acetone, nail-tar varnish solvent, paint thinner or vinegar essence.	Remove with an absorbent dry cloth. If dry, wipe down with a dedicated cleaning solution (ideally Tarkett Bioclean), then wipe dry.	Once hardened, these should be removed with a blunt plastic scraper.

Bio clean ¹

Economical and effective general purpose cleaner. gentle on the skin. Biodegradable. Free from organic solvents, colouring agents and phosphates. Code: 8792120

Repair kit ²

A complete kit for repairing dents or scratches, in the unlikely event this should happen! Code: 8264000

Prevention always helps!

Place door-mats and foot brushes at all exterior doorway entrances. Fix felt protectors under furniture legs.

Disposal? Recycling?

You can dispose of your laminate flooring in normal household waste, or disposal waste for large quantities. Laminate flooring can be reused or recycled as an energy source.
