# CHARTER MY CHOICE

Thanks to the unique and ultra-light carbon hull, My Choice redefines performance by offering an acceleration like you have never felt before on the water!

My Choice is known by locals as the fastest accelerating RIB in Ibiza with a weight of just 3.3 Tons powered by nearly 900 HP. RIBs are lightweight, very safe boat types that are easy to steer. The combination of the proven RIB design with our ultra-lightweight carbon hull, interprets the meaning of performance in this type of boat.

With 13.85 meters in length, My Choice is generously spaced and approved for up to 11 guests + 1 Captain: Toni (Born and raised in Ibiza)

My Choice has been chosen as the ideal tender for super yachts and is therefore difficult to reserve in season.
