# Safety Data Sheet

1780

#### 1 Material and Supplier Identification

Product Name:	Lemon Twist Lemon Oil
Description:	Cleaner/Polish/Protectant
Recommended use of the chemical and restrictions:	Use only for the purpose on product label. This product is not intended to be used without prior dilution if specified on product label.
Supplier's Information:	Maintex, Inc. 13300 E. Nelson Ave City of Industry, CA 91746 800-446-1888 (Customer Service)
Emergency Telephone:	(800) 255-3924 USA (813)248-0585 International (Chemtel 24 hrs)
2 Hazards Identification	
Classification of Mixture:	Skin Irritation: Category 2 Pictogram Specific Target Organ Toxicity (Single Exposure): Category
	Aspiration Hazard: Category 1 Skin Sensitization: Category 1A
Signal Word:	DANGER
Hazard Statements:	Causes skin irritation. May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause respiratory irritation.
Precautionary Statements	•
General:	KEEP OUT OF REACH OF CHILDREN. Read label before use.
Prevention:	Wash hands thoroughly after handling. Wear protective gloves. Avoid breathing spray. Wash any contaminated work clothing before reuse.
Response:	IF ON SKIN: Take off contaminated clothing and wash before reuse. Rinse skin with water. If skin irritation persists: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes.Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. If problem persists, call a Poison Center or get medical attention. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Get medical attention immediately.

#### **3 Composition/Information on Ingredients**

# Hazardous IngredientsCAS NumberConcentration Range %Hydrotreated light Petroleum Distillates64742-47-850-90Alcohols, Ethoxylated34398-01-11-5

4 First Aid Measures	3
Eye Contact:	Flush eyes with water for 15 minutes. Remove contact lenses if any.
Skin Contact:	Contact with concentrate may be an irritant to sensitive skin. If spilt in large areas of skin, rinse immediately with water and remove clothing. Wash skin thoroughly with soap and water.
Inhalation	If discomfort is experienced after prolonged exposure to vapors, move person to fresh air. Get medical attention if irritation persists.
Ingestion:	Get medical attention immediately. Rinse mouth with water. Do NOT induce vomiting. Drink glass of water to dilute product.

5 Firefighting Measures	
Suitable Extinguishing Media:	Water spray, normal foam, dry agent (carbon dioxide, dry chemical powder.)
Specific Hazards arising from the Chemical:	In a fire or if heated, a pressure increase will occur and the container may burst. Combustion products may include and are not limited to nitrogen oxides, carbon monoxide, and carbon dioxide.
Specific Protective Equipment and Precautions for Firefighters:	Firefighters should wear NIOSH approved self-contained breathing apparatus and protective clothing. If safe to do so, remove containers from path of fire. If involved in a fire, keep containers cool with water spray.

# 6 Accidental Release Measures

Emergency Procedures:	Keep area clear of personnel until area has been properly cleaned.
Personal Precautions/ Protective Equipment:	Slippery when spilt. To avoid accidents, clean up immediately and shut off source of leak, if safe to do so. Wear appropriate protective equipment to prevent any contamination of skin, eyes, and personal clothing. Provide sufficient ventilation.
Environmental Precautions:	If contamination of sewers or waterways has occurred, advise local emergency services.
Methods for Containment and Cleaning Up:	Contain spill with absorbent (soil, sand, or other inert material) or spill kit to prevent contamination of sewers or waterways. Neutralization agent is not recommended within building, as toxic vapors may be omitted. Properly dispose of used absorbents in accordance with local, state, and federal regulations.

7 Handling and Storage	
Precautions for Safe Handling:	Avoid skin and eye contact, inhalation and ingestion. Wash hands thoroughly after use. Keep out of reach of children.
Conditions for Safe Storage, Including Incompatiibiities:	Store in cool, dry place and out of direct sunlight. Store away from source of heat or ignition. Do not mix with other chemicals. Keep container closed when not in use, and check regularly for leaks.
	See Section 10 for incompatible materials.
	See Section 10 for incompatible materials.

Control Parameters:				
Hazardous Ingredients		ACGIH TLV	OSHA PEL	NIOSH IDLH
Hydrotreated light Petroleum Distill	ates	200 mg/m3	2000 mg/m3	5 mg/m3
Alcohols, Ethoxylated	ohols, Ethoxylated N/A			N/A
Appropriate engineering controls: Personal Protection	Good ventilation	should be sufficient to co	ontrol worker exposure t	o airborne contaminants.
Eye Protection:	May use protecti	ve glasses if splashing o	r spray-back is likely.	
Hand Protection:	May use protecti sensitive.	ve gloves (e.g., nitrile, vir	nyl) when used for prolo	ng periods or if skin is
Skin Protection:	No special prote	ctive equipment required.		
Respiratory Protection:	Use in well venti	lated areas or local exhau	ust ventilation when clea	ning small spaces.
Hygiene Measures:	Always wash har drinking, or using storage and re-u	nds after handling chemic g the toilet. Wash contan se.	cal products, and before ninated clothing or prote	smoking, eating, ctive equipment before

## 9 Physical and Chemical Properties

Physical State: Color: Odor: pH:	Liquid Yellow Lemon N/A	Specific Gravity: Evaporation Rate: Solubility in Water: VOC (g/L):	0.79 < 1 Complete <15	Vapour Pressure (mm Hg): Vapour Density: Freezing Point (°F): Boiling Point (°F): Flash Point (°F):	< 17 mm Hg > 1 < 32 > 212 > 200
		< means less than	> n	neans greater than	

**Note:** These physical data are typical values based on material tested but may vary from sample to sample. Typical values should not be construed as a guaranteed analysis of any specific lot or as specification items.

### **10 Stability and Reactivity**

Reactivity:	No specific data
Chemical Stability:	Stable
Possibility of Hazardous Reactions:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to Avoid:	Avoid exposure to heat and light.
Incompatible Materials:	Slightly reactive or incompatible with oxidizers (e.g., bleach), strong acids (e.g., hydrochloric acid) and reactive metals (e.g., aluminum).
Hazardous Decomposition Products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.
