TANDIS MINI – Minimalist Organizer Pen Caddy with a Handle

TANDIS MINI is a compact minimalist organizer designed to keep your everyday essentials together in one simple form.

It works beautifully as a desk caddy for pens, markers, and small tools, or as a bathroom organizer for makeup, brushes, skincare, and other daily items. Its clean, soft shape keeps things visually calm, while the built-in handle makes it easy to move everything at once.

The handle is a key part of the design, made to lock in firmly **without glue**, so you can carry your items with confidence.

Material in the photos:
Panchroma Matte PLA – Army Beige, Muted Green

Size

Mini
150 × 150 × 90 mm
180 mm total height with handle

Make sure your printer can accommodate this size before printing.

Click-In Handle System

The handle is designed to snap in securely without glue.

- Align the handle with the side slots
- Press both sides evenly
- Apply firm pressure until it clicks into place

It may feel like it requires a lot of force — that's intentional. Once installed, the handle sits very firmly and won't loosen during use.

Tip: You can also insert one side first, then press down across the handle with steady pressure.

Recommended Print Settings

- Layer height: 0.2–0.24 mm
- Infill: 8–10% gyroid
- Supports: Not required
