THALOR Makeup Organizer – Description

THALOR Makeup Organizer is a modular, minimalist organizer designed to match the **THALOR planter** (https://thangs.com/designer/simiu/3d-model/THALOR%20planter%20with%20legs-1354340) in both shape and proportions. It brings the same soft geometry and elevated look to your vanity, bathroom shelf, or desk.

With its removable grid and elevated legs, THALOR offers practical storage while maintaining a calm, cohesive aesthetic.

Overall body dimensions (excluding legs):
220 × 180 × 109 mm

Design & Components

The organizer consists of three main parts:

- **Main body**
- **Removable inner grid**
- **Four legs**

The inner grid creates multiple compartments suitable for makeup brushes, skincare bottles, lipsticks, palettes, and everyday essentials. The elevated legs visually lighten the design and tie it seamlessly to the THALOR planter collection.

Printing Instructions

Included Files

- Main body
- Inner grid
- Legs in **3 tolerance versions**

Leg tolerances:

- **Loose fit** – intended for gluing
- **Press fit** – standard friction fit
- **Tight press fit** – stronger friction fit

Choose the tolerance that best matches your printer calibration and filament.

Recommended Print Settings

- **Layer height:** 0.20–0.24 mm
- **Infill:** 6–8%
- **Infill pattern:** Gyroid
- **Supports:** Not required

Bed Adhesion & Print Tips

- Use a **brim for the grid** if you experience adhesion issues
- Increase **bed temperature** slightly if needed
- Apply **3D Lac, glue stick, or similar bed adhesive**
- **Clean your build plate thoroughly with detergent** before printing to remove grease and residue

Good bed preparation is especially important for the grid.

Assembly

1. Insert the grid into the main body
2. Attach the legs:
    - Press-fit versions can be pushed in by hand
    - Loose-fit version should be glued in place
