ROOTSY plant propagation vases

Rootsy – Propagation Tube Vase

Rootsy is a quiet little home for your plant cuttings. Designed with soft, organic lines and a grounded shape, it brings a warm, natural feel to any space — whether it's a windowsill, a kitchen shelf, or your studio corner.

This design holds standard **glass test tubes** in two sizes:

- **20mm diameter × 150mm long**
- **25mm diameter × 150mm long**

Just slide in a tube, add water, and nestle in your cutting.

Test tubes not included – easy to find online or at craft/lab supply stores.

Link for the tubes I used on Amazon:
