HANGIS – Hanging Frame Planter

HANGIS is a three-part hanging planter designed to feel light, minimal, and secure at the same time.

The set consists of:

- planter body
- drip tray
- structural frame

The planter body is secured inside the frame, so you don't have to worry about it slipping or falling out. Once assembled, it feels stable and balanced when hanging - yet it can be easily lifted out anytime for more comfortable watering or plant care.

It's designed to be suspended with a rope up to **6 mm diameter**, making it easy to adapt to your own hanging style - natural jute, cotton cord, ...

TIP: I used macrame rope.

Total dimensions: 245 × 160 × 119.5 mm
Minimum print bed: 250 × 250 mm

Filament in the photos: Bambulab Matte PLA Bone White + Latte Brown

Recommended Print Settings

General

- Layer height: 0.2 mm
- Infill: 8–12% gyroid

Drip tray (for watertightness)

- Wall lines: 5

Planter body

- Wall lines: 3–4 recommended for strength
