COFESIA – Coffee Bean Planter I Planter for Coffee Layers

A planter inspired by the simple beauty of a coffee bean.

COFESIA is a soft, rounded form with a subtle seam running through it. The texture adds a natural, almost ceramic feel, even though it's fully 3D printed.

It includes drainage holes and a matching drip tray to catch excess water.

Filament in the photos: Bambulab Matte PLA Dark Chocolate

📏 Dimensions

- **Planter:** 132 × 132 × 103.2 mm
- **Tray:** 145 × 145 × 14.5 mm
