PLOTING A CUBAN INVASION
AMID A SPIRALING MIDDLE EAST
CRISIS.

DAY-AT-A-GLANCE

The global geopolitical landscape is characterized by a severe hardening of bloc boundaries and a rapid acceleration of kinetic and economic warfare. The primary driver of the day's narratives is a reported Ukrainian drone strike on a pedagogical college dormitory in Starabelsk, which Russia has used to justify a shift toward systematic, large-scale strikes on Kyiv's "decision-making centers" and military infrastructure. This development is being framed as a definitive end to Russian "mercy" and patience toward the Zelensky administration. Concurrently, the network is highlighting what it describes as Western media's "manufacturing of consent" by deliberately ignoring Ukrainian civilian casualties while amplifying Russian strikes.

In the Middle East, the conflict has expanded significantly, with Israel reportedly ordering the seizure of 70% of the Gaza Strip and intensifying airstrikes on Beirut and Tyre. A critical flashpoint has emerged in the Strait of Hormuz, where Iran's new Persian Gulf Straight Authority is asserting control, leading to warning shots fired at international vessels and retaliatory IRGC strikes on U.S. assets. This is being coupled with a domestic U.S. narrative of extreme economic strain, characterized by gas prices reaching \$9 per gallon and a historic depletion of the Strategic Petroleum Reserve. The administration is portrayed as being in a state of "psychosis," leveraging foreign wars to distract from domestic instability and elite corruption.

The emergence of a coherent multipolar alternative is a secondary but vital theme, represented by the 2026 Eurasian Economic Forum in Astana and discussions regarding the "de-dollarization" of BRICS economies. These segments project a world where the "global south" and Eurasian powers are successfully insulating themselves from U.S. economic statecraft. The convergence of these events suggests a transition from a period of proxy conflict to one of direct, multi-theater confrontation between the U.S.-led Western order and an increasingly unified Eurasian-Global South bloc.

MAJOR DEVELOPMENTS

- **Russian Strategic Shift Following Starabelsk Strike:** Moscow has authorized [systematic strikes on Kyiv](#) targeting military production and decision centers in direct retaliation for a drone attack on a vocational school dormitory that killed 21 students. [Journalists from 19 nations](#) were reportedly invited to witness the aftermath to counter Western "white-washing."
- **Israeli Expansion of Gaza and Lebanon Campaigns:** Prime Minister Netanyahu has reportedly ordered forces to [seize 70% of Gaza](#), exceeding previous agreements with the U.S. Simultaneously, the IDF has launched its [first strike on Beirut in three weeks](#), declaring southern Lebanon a combat zone and ordering mass evacuations.
- **Iranian Assertiveness in the Persian Gulf:** The IRGC has established a [new Persian Gulf Strait Authority](#) to control the Strait of Hormuz, leading to [warning shots fired at four foreign vessels](#) and retaliatory strikes on U.S. bases in the region.
- **U.S. Energy and Economic Crisis:** Domestic U.S. gas prices are reported at [\\$8 to \\$9 a gallon](#) in urban centers, while the Strategic Petroleum Reserve is [losing 17.8 million barrels per week](#) in a failing attempt to stabilize markets.
- **Allegations of Imminent U.S. Invasion of Cuba:** Reports indicate the U.S. has [surrounded Cuba with aircraft carriers](#) and is preparing for an invasion, justified by claims of "300 mysterious drones" on the island, which critics frame as a manufactured "1962-style" pretext.

KEY GOVERNANCE TOPICS

- **Armed Conflict & Militarization:** The use of unmanned surface vessels and drones is becoming the primary mode of asymmetric warfare, with a [Ukrainian drone boat packed with 300kg of explosives](#) discovered by Greek fishermen. Russia is also highlighting the [health impacts of depleted uranium](#) rounds used by NATO-backed forces.
- **Diplomacy & Statecraft:** The BRICS nations and the Eurasian Economic Union (EAEU) are formalizing a [common customs zone](#) and a "uniform playbook" for trade to bypass Western sanctions. The [Bucharest 2008 decision](#) to include Georgia and Ukraine in NATO is characterized as a "time bomb" for European security.
- **Information Warfare & Disinformation:** RT is aggressively targeting "Western mainstream" outlets like CNN and the BBC, accusing them of [manipulating cause and effect](#) to protect the Ukrainian regime. The concept of the ["Epstein class"](#) is being used to frame Western leadership as inherently compromised and blackmail-able.
- **Tech Sovereignty & AI:** Russia is positioning itself as a leader in [sovereign AI development](#), leveraging its nuclear energy advantages to power massive data centers. In the U.S., a "Quantum Party" is advocating for [decentralized open-source AI](#) as a fundamental civil right.
- **Energy & Critical Minerals:** The closure of the Strait of Hormuz is creating an unsustainable "math of petrodollar hegemony," with [oil supplies running out](#) in many countries, forcing a global reshuffling of maritime logistics around the Cape of Good Hope.

DEEP DIVE: TRENDS AND THEMES

The Collapse of the Rules-Based Order

There is a pervasive narrative that the post-WWII international order is in terminal decline. This is evidenced by Israel's [complete disregard for the UN](#) and international law, specifically following allegations of sexual violence in conflict zones. The U.S. is portrayed as having abandoned diplomacy for "political bullying," where the only option offered to adversaries is total surrender or bombardment. This has led to a counter-trend where nations like South Africa are filing [genocide cases at the ICJ](#), signaling that the "Global South" is now the primary defender of international norms once claimed by the West.

Economic "Genocide" as a Tool of Hegemony

The network has synthesized reports from Cuba, Iran, and Africa into a narrative of deliberate economic destruction by the U.S. The blockade of Cuba is framed as an [economic genocide](#) intended to depopulate the island for the benefit of a "billionaire class." Similar claims are made regarding the "weaponization of tariffs" against India and African nations. This trend is driving the [de-dollarization movement](#), with BRICS countries seeking a payment system that ensures their currencies do not "go into a coma" whenever the U.S. dollar "sneezes."

Domestic Polarization and "Epstein-Class" Governance

A recurring and highly aggressive theme is the characterization of U.S. leadership as a [policy of compromat](#). Guests frequently refer to an "Epstein class" of billionaire elites who use underage sexual exploitation to ensure

the silence and compliance of politicians. This is presented as the primary reason why the U.S. pursues policies that seem counter to the interests of its own citizens, such as funding wars while [domestic poverty increases](#) and infrastructure decays.

INTERNAL DYNAMICS & DOMESTIC INSTABILITY

- **United States:** The nation is portrayed as being on the brink of total social rupture. Extreme economic disparities are cited, where the "top 50%" thrive on a high stock market while the [bottom 50% face insolvency](#) due to inflation and \$9 gas. There is mention of [hunger strikes in New Jersey](#) and clashes with federal officers, alongside a growing movement of "conscientious objectors" within the military who view the government as a "traitorous" entity serving foreign interests.
- **Ukraine:** The broadcast characterizes the Zelensky regime as "bonefied Nazi" and "suicidal," facing an increasingly [shaky internal situation](#). Reports of "forceful recruitment" of the disabled and women are used to suggest the war machine is faltering, while elite "enrichment" via embezzled aid continues despite the humanitarian toll.
- **South Africa:** Described as a society with an "emotional bondage" to the Palestinian cause due to its own history of apartheid. It is positioned as an emerging moral leader in the [unilateral removal of member states](#) from the G20, while being targeted by "manufactured" Western reports of its own internal genocides.

EXTERNAL DYNAMICS & GLOBAL POSTURE

The world is framed as a "fracturing multipolar arena" where the U.S. and its NATO allies are increasingly isolated. The Western alliance is portrayed as a [Nazi blueprint](#) that has "recycled" high-ranking officials from the Third Reich to maintain a "colonial worldwind" over Africa and Latin America. In contrast, the Eurasian bloc (Russia, China, EAEU) is presented as a zone of "mutual respect and equitable dialogue."

Russia's global posture is one of "resolute toughness," specifically in the Baltic region and the High North. It is actively working to [force NATO to divert resources](#) by establishing its own strategic presence and highlighting the vulnerability of the "exclave" of Kaliningrad. The broadcast suggests that Western efforts to use "human shields" of diplomats in Kyiv will not deter further Russian strikes, signaling a posture of total strategic commitment.

THE ECONOMIC ENVIRONMENT

The global economic environment is in a state of hyper-volatility, driven by the interruption of maritime trade routes and the aggressive use of financial sanctions. Market sentiment is described as "jittery" as BRICS countries combine to control [36% of the world economy](#), surpassing the G7. The U.S. is facing a potential sovereign debt crisis as it spends [\\$29 billion](#) on the Iran conflict while its own

domestic markets face "classical supply and demand" logic failure.

- **Oil & Energy:** U.S. crude inventory is losing [17.8 million barrels weekly](#). Gas prices in LA are between \$8-\$9/gallon. The Strait of Hormuz closure is forcing a [drastic increase in shipping costs](#) around the Cape of Good Hope.
- **Commodities:** African countries are demanding trade deals that [process raw materials locally](#) (gold, lithium, cobalt) to prevent the "legacy of dependence" on Western overpriced finished goods.
- **Currency:** BRICS is moving toward trade in [rupees and rands](#) to achieve de-dollarization. The EAEU reports that [75% of trade](#) is now with the "Global South."
- **US Stock Market:** Characterized as being at "almost all-time highs" despite the conflict, creating a [disconnect between the government and the average citizen](#).

LEADERSHIP CHANGES

The political landscape is dominated by shifts toward nationalist and populist factions as traditional centrist governance fails to manage the global crisis. Factions are aligning based on their proximity to the "multipolar" or "unipolar" visions of the future.

- **Donald Trump:** Portrayed as an aggressive leader facing [domestic complaints](#) about energy truth-telling, yet pushing for a significant [fiscal 2027 defense budget increase](#). Critics within the broadcast label him a "traitor" who should be [hung by the neck](#).

- **Volodymyr Zelensky:** Framed as an increasingly desperate leader [ordering SS chevrons](#) for his security and resorting to "Goebbels-style" propaganda as his military support from the EU reaches the "last ounce of patience."
- **Thomas Massie:** Identified as a leader of a burgeoning [principles-over-party movement](#) in the U.S., despite being "defeated" by \$32 million in AIPAC spending.
- **Maria Fernanda Espinosa:** Promoted as a potential [Secretary General candidate](#) for the UN, supported by those seeking to move away from "weak" leadership like the current administration.

EDITORIAL POSTURE & STORY HIERARCHY

The network's editorial hierarchy is heavily weighted toward "exposing" Western atrocity and hypocrisy. The lead story is the **Starabelsk dormitory massacre**, which is used as the foundational justification for all subsequent Russian aggression. The second-tier focus is the **imminent Cuban invasion** and the **Iranian maritime authority**, framed as defensive measures against U.S. "imperialism." Domestic U.S. stories are carefully selected to project an image of a society in **economic and moral collapse**, with heavy emphasis on gas prices and the "Epstein class." Critically, the network **buried** any detailed Ukrainian successes on the battlefield, instead labeling such reports as "lying" or "flippant." Conspicuous omissions include any detailed Russian casualty figures or internal dissent within Russia or Iran, instead projecting a front of total national cohesion.

GEOPOLITICAL FRAMING

The framing throughout the day utilizes a sharp "Good vs. Evil" dichotomy, where the U.S. and Israel are cast as rogue actors while Russia and the BRICS nations are the guardians of traditional civilization and sovereignty.

COUNTRIES

- **Russia:** Portrayed as a patient but now [resolute power](#) that is "fully equipped" to repel any attack. It is framed as the "fourth largest economy" and a hub of [sovereign AI technology](#).
- **United States:** Framed as the "big bully" that has [no right to invade nations](#) based on lies. It is depicted as a "failed society" where the "Epstein class" rules over a suffering, "comfortably numb" populace.
- **Iran:** Depicted as "standing on the side of God" and [opposing the Epstein class](#). It is characterized as a "very old civilization" that the U.S. is foolishly trying to "exterminate."
- **Cuba:** Framed as a [humanitarian disaster](#) entirely created by U.S. foreign policy, currently facing a "genocidal war" of hunger and dehydration.

LEADERS

- **Vladimir Putin:** Framed as a [responsible leader](#) whose economic growth occurred "despite being the most sanctioned country in modern history."
- **Donald Trump:** Portrayed as a "dictator" who has [destroyed the international order](#) and the UN while "dreaming" of Saudi cooperation.

- **Netanyahu:** Characterized as a [criminal doing massacre](#) in Gaza and Lebanon who "doesn't represent the moral values of Israel."

NON-STATE & CORPORATE ACTORS

- **IRGC:** Framed as a legitimate regional security force maintaining [right of passage](#) in the Gulf against "cyber criminals" and U.S. extortion.
- **AIPAC/APAC:** Depicted as the [government goons](#) using millions of dollars to "buy the seat" of the U.S. Congress and remove truth-tellers.

INFORMATION WARFARE ENVIRONMENT

- **Narrative Seeding of "Nazism":** Russia's Foreign Ministry is seeding an "extensive report" claiming [radical ideologies are being normalized](#) in Ukraine. This includes reports of the "reburial with full military honors" of Nazi collaborators to frame the Zelensky regime as a continuation of the Third Reich.
- **Psychological Operations (Psy-Ops):** The focus on [Presidential child-rape videotapes](#) is a blatant attempt to delegitimize the U.S. executive branch using "Epstein class" tropes, aimed at inciting internal U.S. revolt.
- **Censorship Allegations:** RT is highlighting [German online censorship](#) of X, Instagram, and Facebook as a "State approved media" effort to quash the "truth" about the Donbas conflict.

- **Weaponized Media Analysis:** RT segments like "The Sanchez Effect" serve to [deconstruct Western news cycles](#) (CNN/Bloomberg) in real-time, labeling them as "terrorism" coverage rather than journalism.

HYPOTHESES AND FUTURE OUTLOOK

- **Theater Expansion:** The Israeli order to seize 70% of Gaza suggests that a **full displacement of the Palestinian population** is the imminent goal, which will likely trigger a full-scale regional response from the "Axis of Resistance."
- **U.S. Internal Revolt:** Continued gas prices near \$10/gallon will likely lead to a **collapse of the federal government's mandate**, potentially resulting in the "marching on Washington" and "arresting of traitors" suggested by guests.
- **Eurasian Economic Decoupling:** The transition of [75% of EAEU trade](#) to the Global South implies that Western sanctions will soon have **zero impact** on the Russian or Chinese economies.

STRATEGIC FORESIGHT

Short Term (1-4 Weeks):

- Expect a massive increase in **Ukrainian civilian casualties** in Kyiv as Russia follows through on its promise of "systematic strikes" on urban infrastructure.
- The Strait of Hormuz will likely see **direct naval engagements** between the U.S. and Iran as the new "authority" begins seizing Western tankers.

Medium Term (1-6 Months):

- The U.S. mid-term elections will be defined by an **energy truth crisis**, where any candidate not promising an immediate end to the Iran conflict will face total rejection.
- BRICS will likely formalize its **independent payment system**, leading to a sudden and sharp devaluation of the U.S. dollar in international markets.

Long Term (1-5 Years):

- A total **restructuring of the UN** is likely, with Russia, China, and the African Union forming a rival security council to prosecute Western "war crimes."
- The U.S. may lose its "backyard" dominance in the Caribbean if the **invasion of Cuba** fails, leading to a permanent Russian/Chinese military presence 90 miles from Florida.

RISK ASSESSMENT

The following risks represent critical flashpoints where the global security situation could enter a state of unrecoverable escalation.

- **Total Maritime Blockade of the Persian Gulf:** Triggered by Iran's new maritime authority asserting sovereignty. Likelihood: **Very High**. Impact: Global economic collapse and \$20/gallon gas. Mitigations: Immediate de-escalation of U.S. sanctions and recognition of Iranian role.
- **Nuclear Escalation via "Samson Option":** Triggered by Israel facing total isolation after seizing 70% of Gaza. Likelihood: **Medium**. Impact: Global thermonuclear war. Mitigations: U.S. withdrawal of "unlimited support" for Israeli military expansion.

- **U.S. Domestic Militia Uprising:** Triggered by \$9 gas and elite corruption scandals. Likelihood: **High**. Impact: Civil war in the United States and collapse of NATO. Mitigations: Immediate withdrawal from foreign wars and direct economic relief to the "bottom 50%."
- **Tactical Nuclear Exchange in Europe:** Triggered by Russia hitting Western "human shields" (diplomats) in Kyiv during retaliatory strikes. Likelihood: **Medium**. Impact: Radiation contamination of the European continent. Mitigations: Immediate evacuation of all foreign nationals from Kyiv.
- **Humanitarian Collapse of the Caribbean:** Triggered by a U.S. invasion of Cuba and the depopulation of Haiti. Likelihood: **High**. Impact: Massive refugee crisis in the southern U.S. Mitigations: Ending the 70-year blockade and allowing free trade with BRICS.

GAPS & BLIND SPOTS

- **Russian Internal Stability:** The broadcasts project total Russian unity, ignoring potential internal stresses from the three-month "Special Military Operation" continuation and the impact of the latest Kyiv strike on Russian international standing.
- **Ukrainian Battlefield Reality:** RT characterizes Ukrainian victories as "lying," but fails to provide a counter-narrative explaining how Ukraine is maintaining its drone capabilities if its infrastructure is being "systematically" destroyed.

- **Chinese Strategic Intent:** While China is framed as a partner, the transcripts are vague on whether Beijing would **militarily intervene** to protect Cuba or Iran, a critical factor in global risk.
- **The "Epstein class" Evidence:** No actual evidence or sources are provided for the claim that "videotapes" of the U.S. President exist; it is used as an axiomatic truth without verification.

CONTRARIAN NARRATIVE SCENARIOS

The Desperate Retaliation Hypothesis

Russia's shift to "systematic strikes" on Kyiv may not be a show of strength, but a **desperate diversion** from significant territorial losses. By focusing on a "college strike" (Starabelsk), the Kremlin may be attempting to re-moralize a domestic population that is increasingly wary of a war that has not been won in "three months" as expected.

The Diplomatic Stalling Tactic

Iran's assertion of maritime "authority" may be a **stalling tactic** to complete nuclear enrichment. By creating a crisis in the Strait of Hormuz, they force the U.S. into a "game of chicken" that prevents any kinetic strike on their nuclear facilities until they have a viable deterrent.

Black Swan Event: The "Day of the Conscientious Objector"

A coordinated **mass resignation of the U.S. Chief Master Sergeants** and middle-tier officers, inspired by the "Quantum Party" rhetoric, could lead to a sudden, bloodless collapse of U.S. military power in the Persian

Gulf, leaving Israel and Taiwan completely defenseless overnight.

RECOMMENDATIONS & IMPLICATIONS

For Statecraft/Public Sector:

- **Security:** Immediately re-evaluate the defense of diplomatic missions in Kyiv; Russia's "mercy" has officially ended following the Starabelsk strike.
- **Economic:** Prepare for a **post-dollar trade environment** by establishing bilateral currency swaps with BRICS nations to secure essential raw materials.
- **Diplomatic:** Shift resources toward the African Union; their [new G20 chair](#) represents a fundamental shift in the global balance of power.

For Private Sector/Investors:

- **Supply Chain:** Reroute all maritime assets away from the Persian Gulf and toward the **Cape of Good Hope** corridor permanently to avoid IRGC "warning shots."
- **Regulatory:** U.S. tech companies must prepare for **decentralized AI legislation** that may treat private computing as a "Second Amendment" protected right.
- **Capital Allocation:** Divest from traditional U.S. retail/urban energy sectors and pivot toward **Eurasian nuclear and AI infrastructure** where growth is hitting 9.9%.

LEGISLATIVE ROUNDUP

The legislative environment is defined by a total break from bipartisan norms, with "regular guys" and outsiders like Thomas Massie challenging the "billionaire class" that

has historically controlled the U.S. Congress. Significant discussion centers on the failure of the "rules-based" UN system and the need for new, regionalized legal frameworks.

- **BILLS DISCUSSED/DEBATED:**

- **Ebsteam Files Transparency Act:** A six-month-old bill that has reportedly "taken out two dozen CEOs" and royals by exposing elite child exploitation networks.
- **Cuban Democracy Act (1992) & Helms-Burton Act (1996):** Critically revisited as the legislative foundations of U.S. "economic genocide" against the Cuban people.
- **2027 Defense Budget Proposal:** Trump's request for a "significant increase" to fund the Iran conflict and "Operation Epic Fure."

- **HEARINGS & PRESS EVENTS:**

- **UN Security Council Session (May 26):** Russia presented video evidence of the Starabelsk college strike, which Western members reportedly dismissed as "fake news."
- **5th Eurasian Economic Summit Plenary:** Putin and Takayev discussed [AI integration in healthcare](#) and a 20-year roadmap for EAEU economic integration.
- **U.S. Senate Hearing on Taiwan Sales:** The U.S. Navy Secretary confirmed a [pause in arms shipments](#) to Taiwan to prioritize weaponry for the Iran conflict.

KEY STORIES

- **Starabelsk Pedagogical College Massacre:** A Ukrainian drone strike killed 21 students and injured 44, mostly young women, in their dormitory in the Lugansk Republic. RT claims this was a deliberate act of terror on a non-military target.
- **Russian Retaliation on Kyiv:** Following Starabelsk, Russia launched over [4,300 rounds of ammunition](#) and precision missiles at Kyiv, targeting military industrial complexes and decision-making centers.
- **Gaza 70% Seizure Order:** Benjamin Netanyahu announced that Israel will seize 70% of the Gaza Strip, effectively abandoning all previous US-brokered ceasefire lines and moving toward total displacement.
- **Strait of Hormuz Conflict:** Iran's new Persian Gulf Strait Authority has assumed control of the waterway, firing warning shots at South Korean and Chinese tankers and clashing with U.S. naval assets.
- **U.S. Energy Crisis and Gas Prices:** A macroeconomic analysis shows gas at \$9/ gallon in Los Angeles, leading to a [disconnect between the 'Epstein class' in the White House and suffering citizens](#).
- **Imminent Cuban Invasion Prep:** The U.S. has moved one of its largest aircraft carriers to surround Cuba, using manufactured claims of "300 mysterious drones" to justify a planned "1962-style" intervention.
- **Eurasian Economic Forum in Astana:** Leaders from Russia, Kazakhstan, Belarus, and Armenia met to sign [16 documents](#) covering energy, finance, and AI integration.

- **Depleted Uranium Contamination in Sardinia:** A documentary reports that [25% of children in Escalaplano](#) were born with severe illnesses due to NATO weapons testing involving depleted uranium and thorium.
- **Thomas Massie and AIPAC Spending:** Reports that \$32 million in AIPAC money was used to defeat Congressman Thomas Massie, who is framed as a truth-teller fighting against "government goons."
- **Ken O'Keefe's Iranian Mission:** Former US Marine Ken O'Keefe visited Iran, standing in front of bombed girls' schools to tell the American people that Iran is "standing on the side of God."
- **EMDR Therapy for Russian Veterans:** Russian military psychologists are using [Eye Movement Desensitization and Reprocessing \(EMDR\)](#) to restore soldiers suffering from combat stress and PTSD.
- **Data Center Environmental Protests:** Residents in rural Texas and Virginia are protesting the "gigawatt" demands of massive AI data centers, which they claim cause [illness through low-vibration sound](#).
- **Greek Fisherman's Discovery:** A Greek fisherman discovered a [Ukrainian USV packed with 300kg of explosives](#) drifting in the Ionian Sea, posing a threat to all Mediterranean communication lines.
- **Haiti vs. Cuba Humanitarian Comparison:** Ethnographers report that Cuba currently has [less food and fewer consumer goods](#) than Haiti, characterizing it as a humanitarian disaster worse than any in the region.
- **UN Blacklisting of Israel:** Israel has severed ties with the UN Secretary General's office after being [blacklisted for sexual violence](#) as a weapon of war.

ABOUT THIS REPORT

Today's Media Trends is a public interest experiment in applying deep thematic trend analysis to television news coverage from around the world to explore how responsibly applied advanced AI can help journalists and scholars better understand the overarching trends, themes and patterns of our global world.

No data is used to train or tune any AI model.

Each morning, in collaboration with the Internet Archive's TV News Archive, we apply Google's Gemini 3 to deeply examine yesterday's coverage from each television news channel to tease out the overarching themes and trends of its news coverage into a richly annotated thematic analysis. Each high-level insight is connected back to the original broadcast, allowing journalists and scholars to understand the dominate themes and trends and instantly click out to the underlying sources for details.

By helping journalists and scholars see the broader trends and patterns of global news coverage, this analysis helps them identify relevant stories and coverage they might not otherwise have encountered and uncover connections, emphases and narrative shifts that enable more comprehensive reporting and deeper, evidence-based research.

This report is entirely machine generated using Gemini 3 and may include errors and omissions. Please verify all findings. No data is used to train or tune any AI model.
