**RE: 2022 Sewer Performance Annual
Report for the Town of Jamestown
WQCS 00314**

Gentlemen:

The Town of Jamestown did not experience reportable sanitary sewer overflows for the year 2022. We are looking forward to an equally successful year in 2023.

The Town of Jamestown collects wastewater and discharges into the City of High Point wastewater collection system where treatment occurs at the Eastside WWTF.

This letter is available on the Town's website (www.jamestown-nc.gov) and at Town Hall located at 301 East Main Street. Public notices are provided in utility billings. This report is accurate and complete to the best of my knowledge. Please feel free to contact me at 336-454-1138 should you have any questions or concerns.

Respectfully,

Paul R. Blanchard, PE
Director of Public Services
