

DÉCLIC

Job description :

DIGITAL CONTENT CREATOR CARBON NEUTRALITY CHALLENGE

The association:

Déclic is a Think & Do tank created in March 2020 at Sciences Po Paris with a simple goal: to accelerate the ecological transition in France and Europe by proposing concrete and innovative public policy solutions. Today, Déclic is made up of a team of 90 students and young graduates from all walks of life who work together to turn their ideas into reality!

For this mission, Déclic is collaborating with a team in charge of creating a Carbon Neutrality Challenge to be held in November 2021 in collaboration with major organizations such as the OECD, the European Investment Bank and various think tanks. The participation in the organization of the challenge will be an opportunity for the selected profile to meet and exchange with major actors in the field of carbon neutrality (institutions, think tanks, ...).

Missions :

The Digital Content Creator's mission is to produce digital, video and infographic content before and during the Challenge. He/she collaborates with the Communication Officer for the distribution of the content produced.

- Content creation: visuals, videos, infographics
- Creation of visuals and infographics
- Strategic assistance in the development of the challenge.

Profile:

Student or young graduate in communication or simply with experience in the production of digital content.

Good spelling skills in English and French

Teamwork

Interest in ecological transition

Mastery of Canva and Adobe suite or comparable video editing software

Mastery of Wix is a plus.
