MANY ADVANTAGES

SIMPLE

We have always been convinced that the best ladder is both short and long. The telescopic ladder is easy to pull out to the desired length and securing it before use is just as easy.

FLEXIBLE

The ladder can be adjusted to the optimal height to fit your needs. It is small and compact for storage and transportation and with the telescopic function the ladders are perfect in small spaces.

QUALITY & SAFETY

Telesteps does not compromise on anything. The products are certified according to leading norms - EN 131, SP - and more. For more info on Telesteps safety work visit www.telesteps.com

ELEGANT AIR-DAMPING SYSTEM

The Eco has the elegant air-damping system built in to minimize squeezing fingers and for a controlled closing of the ladder. It is not only safe but makes the ladder easier to use at the same time.

THE PERFECT HOME LADDER

Simple locking system with only two buttons. Big and small yet simple and user friendly to use with no compromise in quality or safety. In other words - Your perfect **HOME** ladder.
