Digital Painting: Erase and Recreate

National Curriculum

Use technology purposefully to create, organise, store, manipulate and retrieve digital content.

Aim

To erase and undo actions to change a digital painting.

Lesson Duration

It is estimated that this lesson will take approximately 60 minutes.

60 mins

Success Criteria

I can use the appropriate tool to remove mistakes.

I can erase part of my digital painting.

I can undo an action.

I can redo an action that was undone.

Key Vocabulary

Paint, brush, rubber, eraser, action, remove, size, narrower, wider, undo, redo.

Resources

Lesson Pack

PC devices, such as laptops, Chromebooks and/or tablets.

Preparation

Erase and Recreate Lesson Presentation (Google Version) - as required

Erase and Recreate Lesson Presentation (Microsoft Version) - as required

We advise you choose the presentation that fits with the painting software you are using.

Knowledge Organiser - one per class

Differentiated Erase and Recreate Activity Prompt Cards - one per child.
We advise you choose the prompt cards that fit with the painting software you are using.

Microsoft Paint or PaintZ - we recommended using the painting software that is compatible with your chosen device.

Prior Learning: After completing the previous lessons in this unit, children should be familiar with using painting software independently.

Learning Sequence

	Remember It: Using the Lesson Presentation, give children tasks to complete using the skills learnt in previous lessons. Children will be asked to draw shapes and fill them with colour.
	Knowledge Organiser: Display the Knowledge Organiser to the class. As a class, highlight any words from the key vocabulary section that the children recognise. Can children discuss with their partner what those highlighted words mean?
	Making Mistakes: Use the Lesson Presentation to discuss what happens if you make a mistake when creating a painting. Then discuss what happens if you make a mistake when creating a digital painting. Discuss the differences between making a mistake on a painting and making a mistake on a digital painting.
	Using the Rubber/Eraser: Use the Lesson Presentation to model how to use the rubber/eraser to remove parts of their drawing. Give the children time on their devices to explore drawing different lines and shapes, then removing them with the rubber/eraser. Ask the children why they think changing the size of the Rubber/Eraser tool could be useful.
	Using the Undo Tool: Use the Lesson Presentation to model how to use the Undo icon to remove an action, such as a shape drawn. Show children what happens when you click on the Undo icon more than once.

Using the Redo Tool: Use the **Lesson Presentation** to model how to use the Redo icon to remove an action that has been removed using the Undo icon. Show children what happens when you click on the Redo icon more than once. It is important the children understand that the Redo tool can only be used the same amount of times that the Undo tool has been used.

Using the Undo and Redo Tool: Use the **Lesson Presentation** to discuss the difference between the Undo and Redo icons. Discuss the difference in the arrow direction and how this relates to its function.

Use the **Lesson Presentation** to give children time to draw shapes and lines, then explore the Undo and Redo icons.

Can children fill an area with colour and then use the Undo and Redo tools to make the colours disappear and reappear?

Time to Explore: Using the **Lesson Presentation**, the differentiated **Erase and Recreate Activity Prompt Cards** and the skills explored in the lesson already, children should recreate the digital painting shown on the **Lesson Presentation**. Then, using the Rubber/Eraser, Undo and Redo tools, they should change the painting to recreate the digital painting on their prompt card. Encourage children to think about and explain what tools and icons they used to make the changes.

★ Children are asked to make minimal changes to their digital painting. They should remove the red berries, change the colour of the central circle from green to yellow and add red petals.

The prompt card provides instructions, icons and visual examples to recreate.

★★ Children are asked to make the following changes to their digital painting: remove the red berries, change the central circle from green to yellow, add orange petals, draw leaves onto the stalk and add a plant pot.

The prompt card provides instructions, icons and visual examples to recreate.

★★★ Children are asked to make the following changes to their digital painting: remove the red berries, change the central circle from green to yellow, add orange petals, draw leaves onto the stalk and add a plant pot.

The children should then explain how they have used the Rubber/Eraser, Undo or Redo tools to change their digital painting by completing the sentences.

Time to Share: Using the **Lesson Presentation**, children need to talk to their partner about a change they have made to their original digital painting. Encourage children to discuss the tools and icons they used to do this.

Exploreit

Sayit: With a partner, children can practice using the 'undo' command. They should a space and give each other instructions e.g. 'Walk forwards two steps, walk backwards three steps, hop to the right.' Then say 'undo' and the other person must remember the last action and work out how to do it in reverse.

Createit: Children will create a poster to explain what the undo and redo icons do when clicked on in the painting software. They could draw a picture of each icon and then write a sentence underneath to explain what each icon does.

Exploreit: Using word processing software, ask the children to locate the Undo and Redo icons. They can then type into the word processing software and see what happens when they click on the undo and redo icons.

Can you spot me in the Lesson Presentation?

The questions that appear will help you to think about the key learning throughout the lesson.

Aim

- To erase and undo actions to change a digital painting.

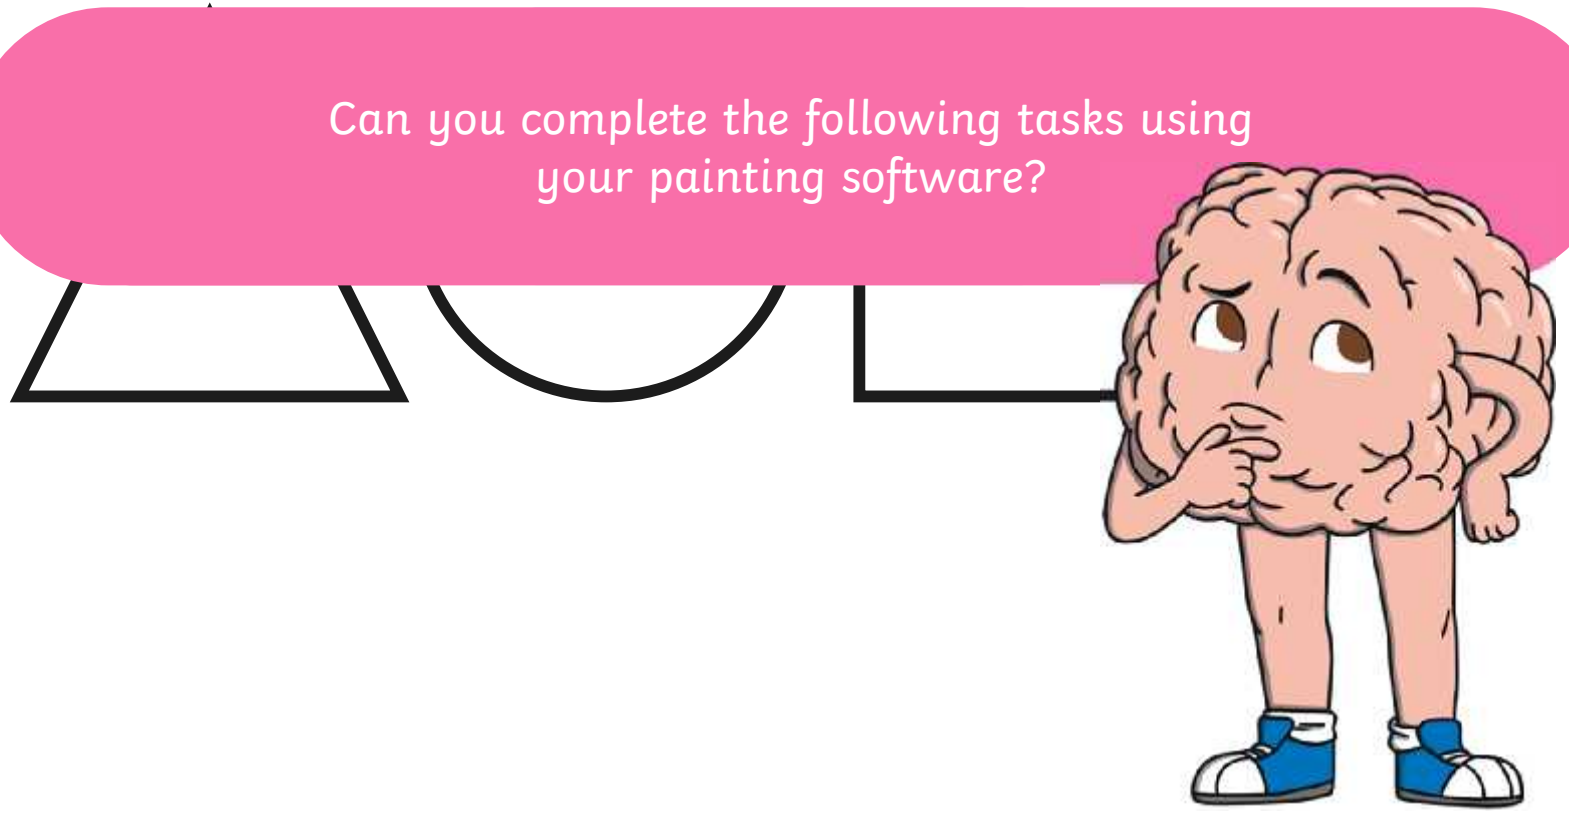
Success Criteria

- I can use the appropriate tool to remove mistakes.
- I can erase part of my digital painting.
- I can undo an action.
- I can redo an action that was undone.

Remember It

Last lesson we looked at how to draw shapes and fill them with colour.

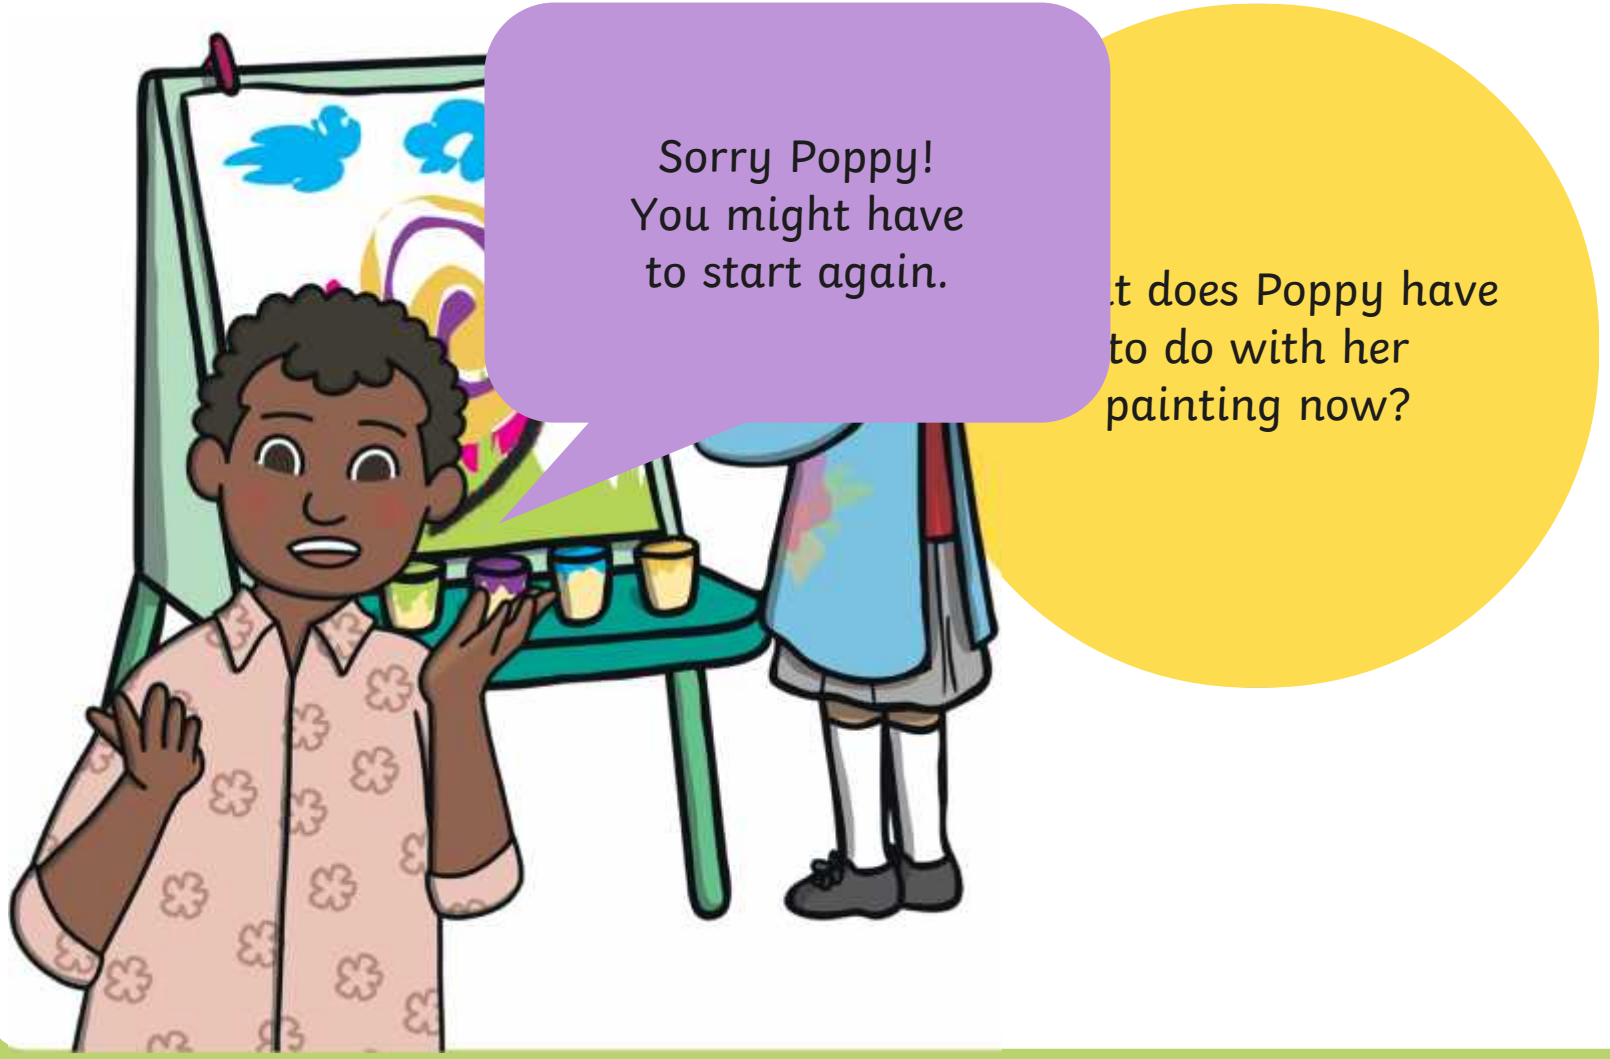
Can you complete the following tasks using your painting software?



Knowledge Organiser

- Look at the key vocabulary.
- What words do you recognise from last lesson?
- Can you tell your partner what the words mean?

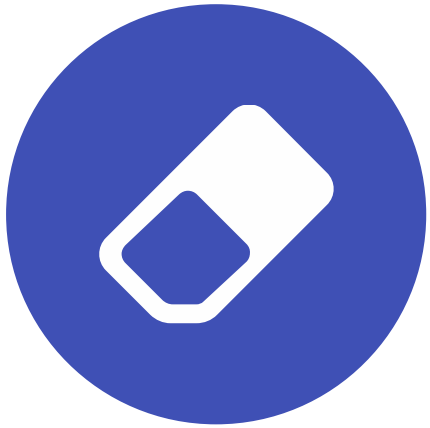
Making Mistakes



Making Mistakes

Using the Eraser

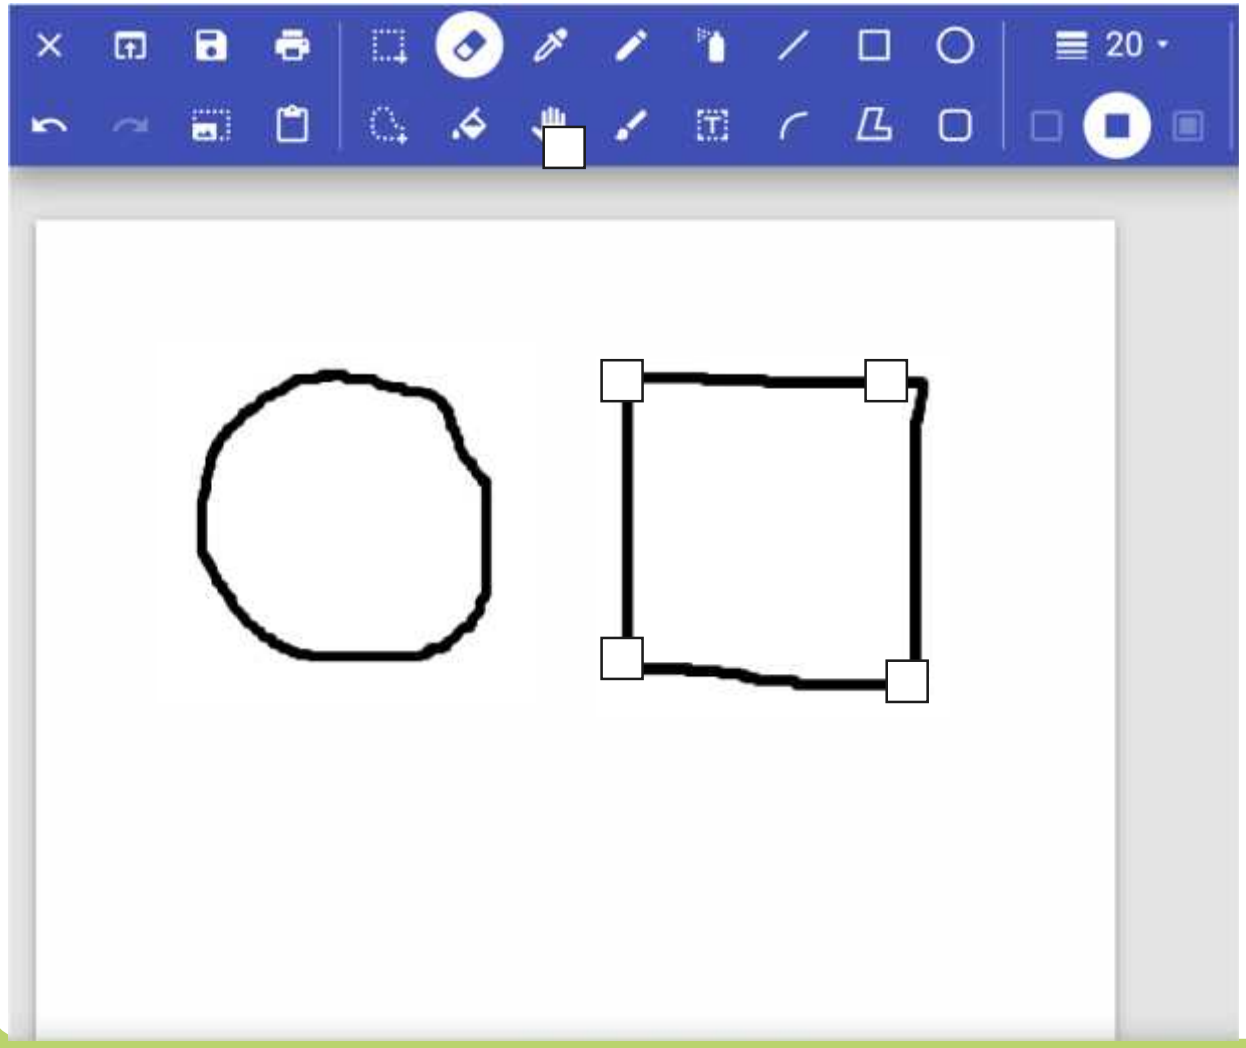
When you select the Eraser tool, your pointer changes to an eraser. Click and drag the eraser over the parts of your picture you want to erase. Be careful not to erase too much!



Remember, you can always undo your last action if you make a mistake.

Keep trying to erase the different parts of your picture, and don't worry if you make mistakes and then try again.

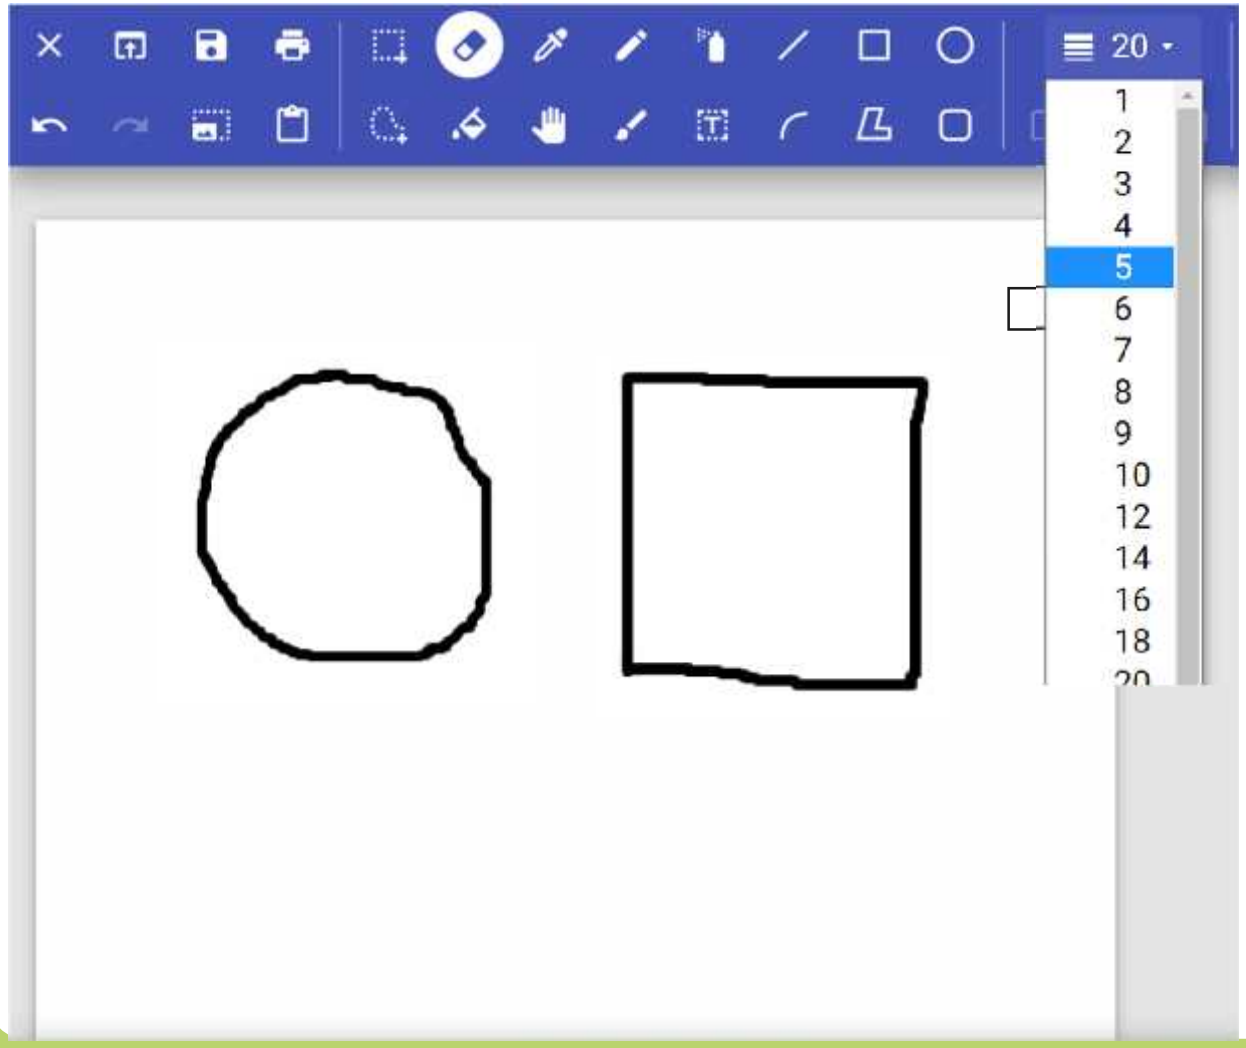
Using the Eraser



Click on the **Eraser** icon.

Use the **Eraser** to remove any part of your digital painting.

Using the Eraser

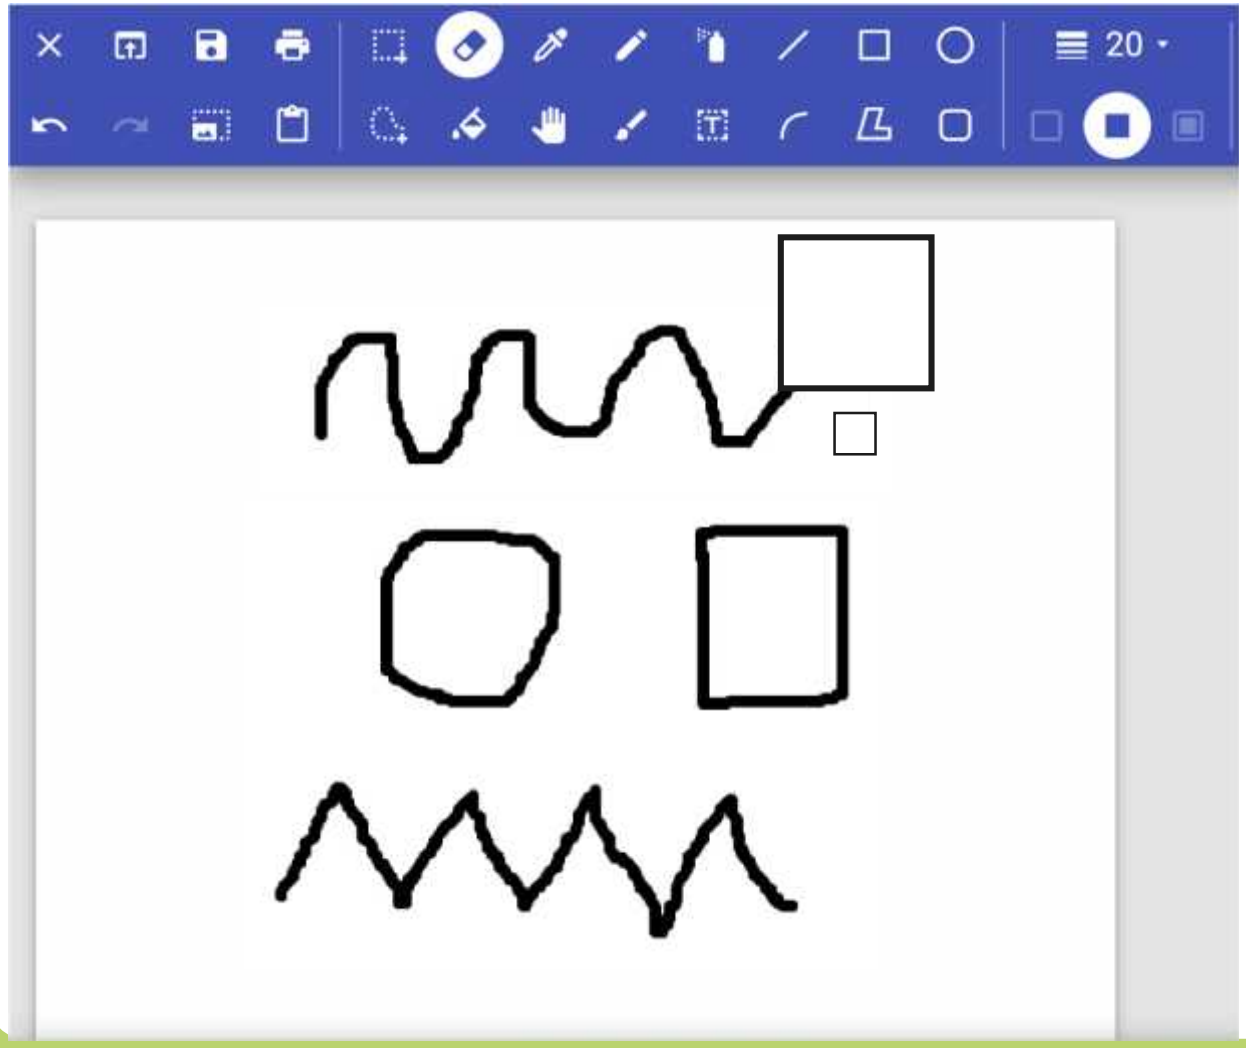


Click on the **Eraser** icon.

Use the **Line Width** icon to change the size of your **Eraser**.

A narrower **Eraser** will allow you to remove small areas of your digital painting.

Using the Eraser



Draw some lines and shapes in the painting area.

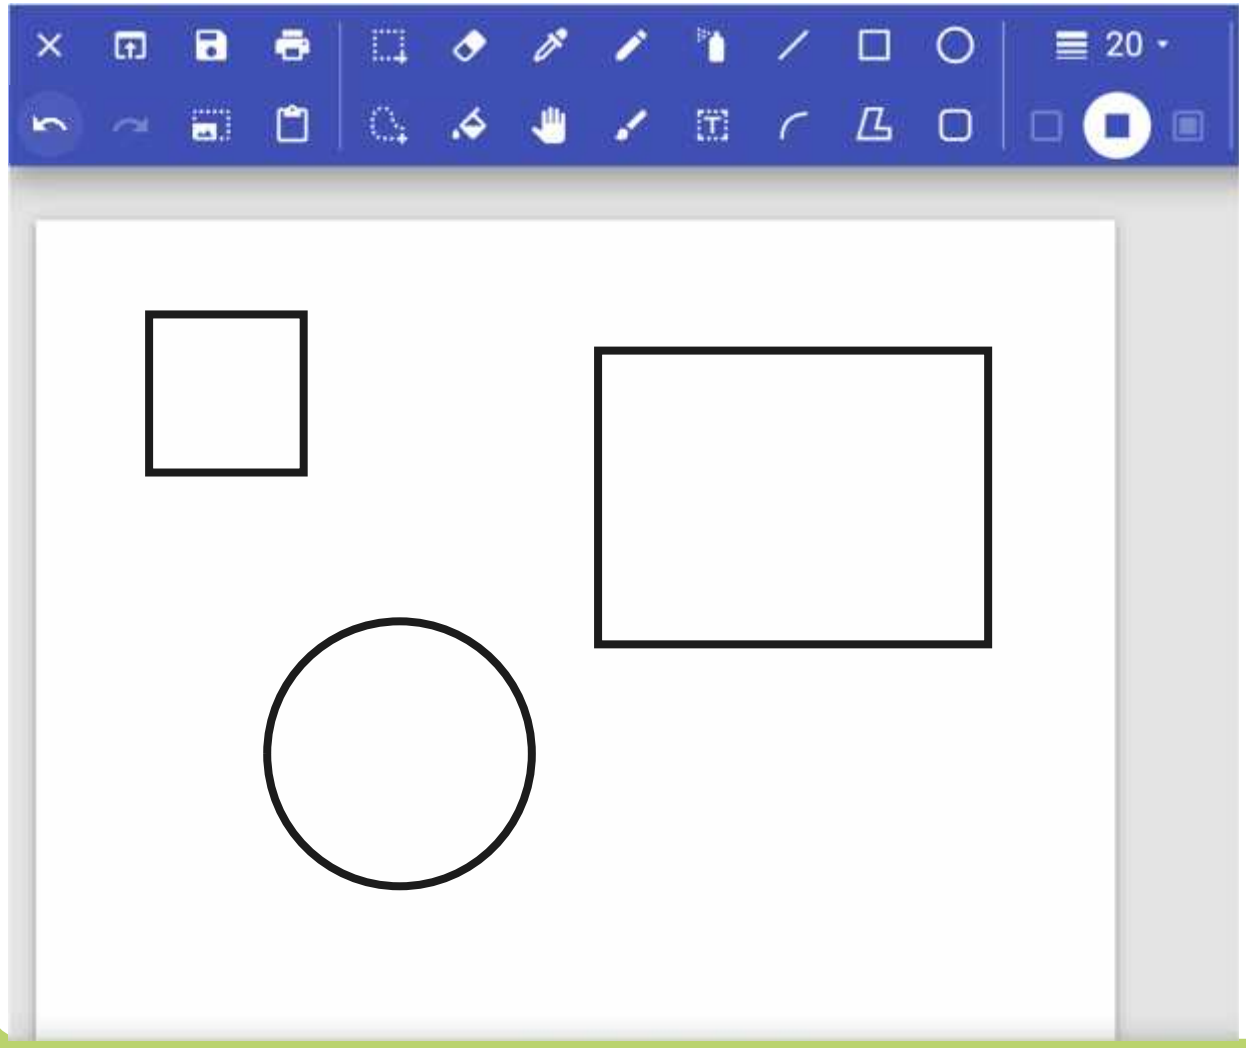
Practise using the **Eraser** to remove parts of your digital painting.

Why do you think changing the size of the **Eraser** tool could be useful?

Using the Undo Tool

Using the **Undo** tool allows you to remove a whole action, such as a shape you have just drawn or an area you have filled with colour. However, it can be very time consuming using the **Eraser** to remove large areas or complete shapes.

Using the Undo Tool



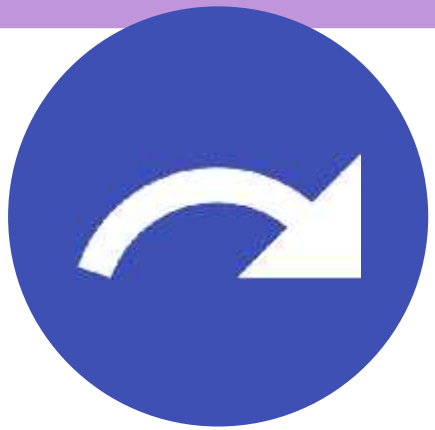
To remove the last action you have made, click on the **Undo** icon.

Clicking on the **Undo** icon more than once will remove more actions.

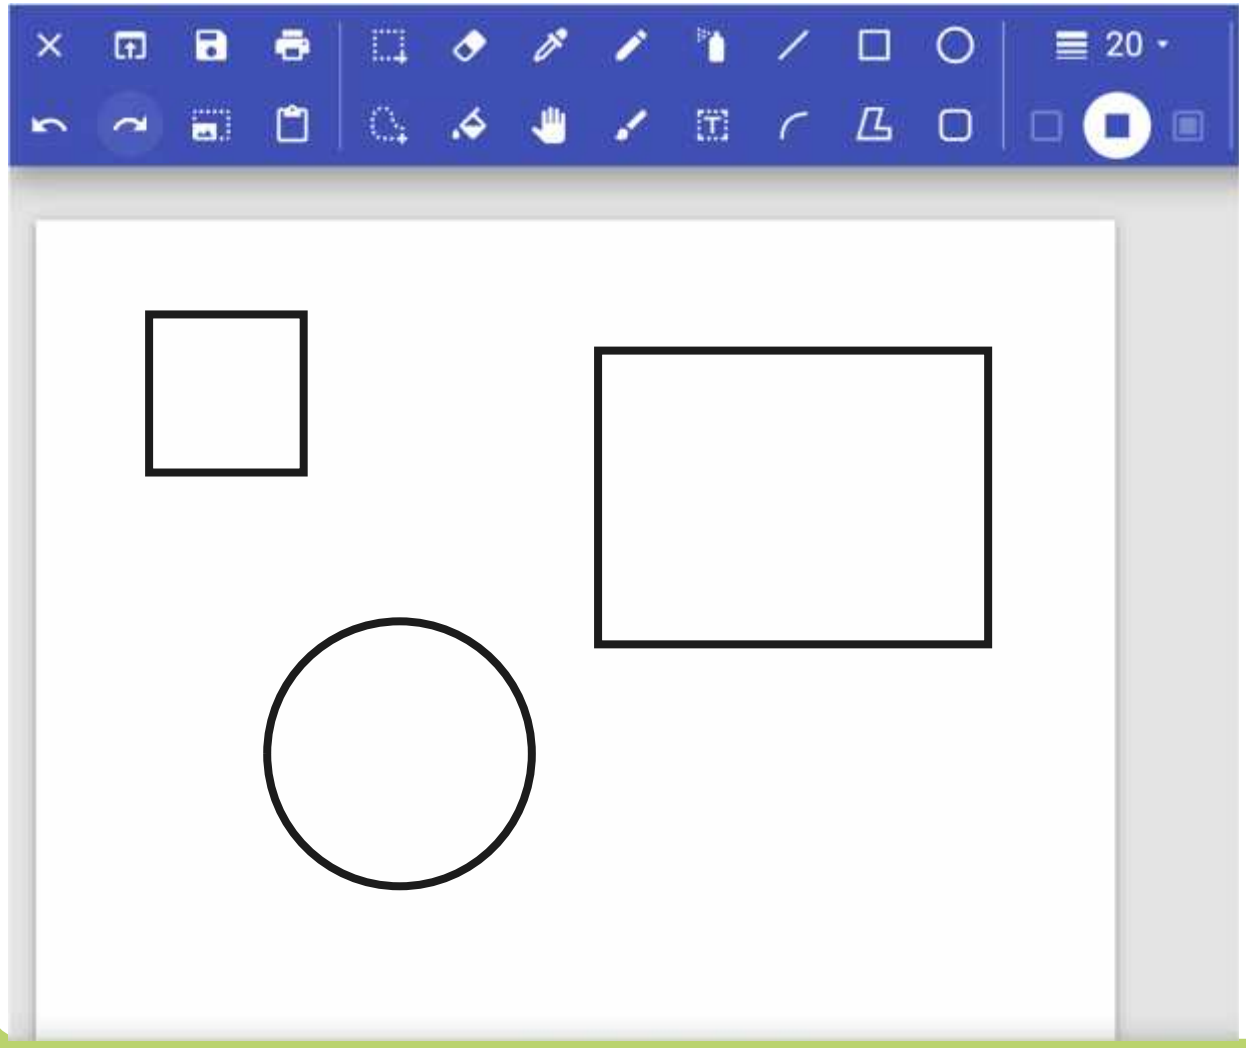
Using the Redo Tool

Using the **Redo** tool allows you bring back the action that was removed.

It can however, be very easy to click the **Undo** icon too many times and remove parts of our digital painting that we didn't need to.



Using the Redo Tool



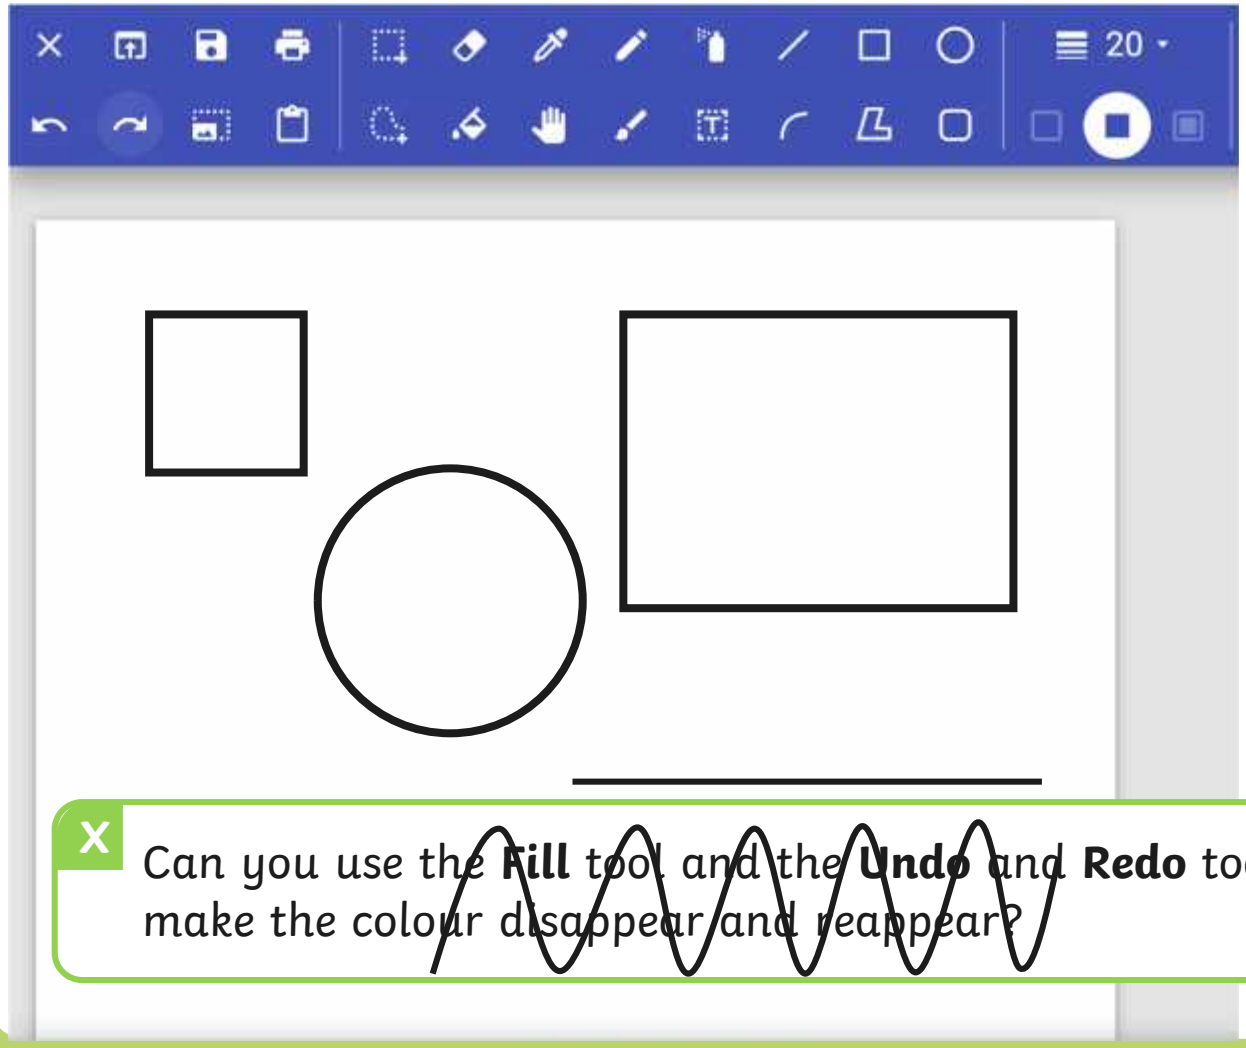
To bring back the action that was removed, click on the **Redo** icon.

Clicking on the **Redo** icon more than once will bring back more removed actions.

Using the Undo and Redo Tool

What do you notice about the arrows?

Using the Undo and Redo Tool



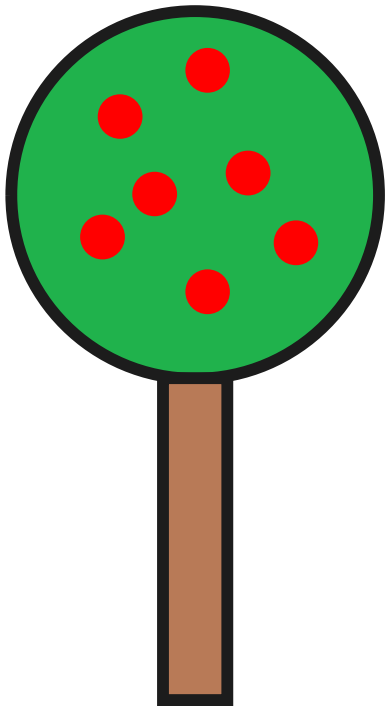
Draw some lines and shapes in the painting area.

Practise using the **Undo** and **Redo** tools to remove and bring back actions to the painting area.

X Can you use the **Fill** tool and the **Undo** and **Redo** tools to make the colour disappear and reappear?

Time to Explore

Recreate this digital painting using your painting software.



Time to Share

Show your partner your new digital painting.

Tell your partner about one change you have made. Make sure you talk about the tools and icons you have used.
