REGENT STUDIES

Focused education on life's walk

[www.regentstudies.com](http://www.regentstudies.com)

# Monday

There were 34 rugby players on the squad. 15 of them were playing on the field. The rest were on the bench.

How many players were on the bench?

# Tuesday

A fidget spinner costs €7. Aoife has €20.

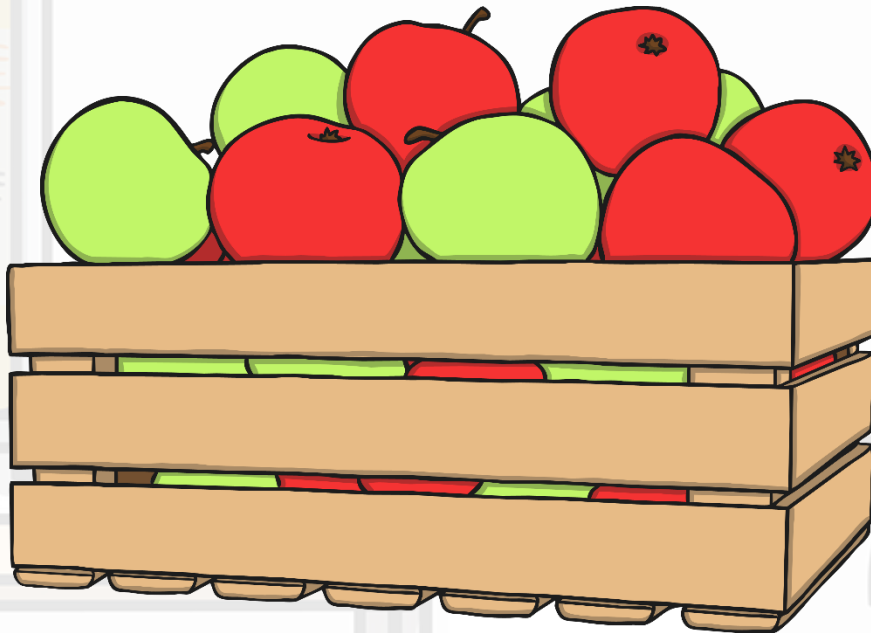

How many fidget spinners can she buy with her money?

# Wednesday

Paul had 37 apples in his basket. He picked 28 more apples.

How many apples did he have then?

# Thursday

John has 36 trading cards. His friend gave him 18 more to add to his collection.

How many does he have now?

# Friday

Cormac had 60 football trading cards. He gave 17 away to his friends.

How many does he have left?
