

# Self-Checking 3,4 and 8 Times Table Game

## How to Play - Adult Guidance

- Cut out the calculation cards and place them over the correct answer on the board.
- Students try to answer the number sentences and lift the card to see if their answers are correct.
- This game can be played individually or with a partner. The aim is to get from the start all the way to the finish without making any mistakes.

# Self-Checking 3,4 and 8 Times Table Game

You will need:

- game board
- calculations cards

1. Ask an adult to set the game up for you.
2. Begin at 'start' and move along the snake by answering each of the number sentences.
3. When you have an answer, lift the card up to check if your answer is correct.
4. If your answer is correct, move onto the next card.
5. If you get one wrong, go back to the start. (If you are playing with a partner, it is now there turn.)
6. The aim is to get all the way from the start to the finish, answering all the questions correctly.

$5 \times \underline{\quad} = 15$

$10 \times \underline{\quad} = 30$

$8 \times \underline{\quad} = 56$

$10 \times \underline{\quad} = 40$

$3 \times \underline{\quad} = 12$

$8 \times 2 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$2 \times \underline{\quad} = 8$

$4 \times 10 = \underline{\quad}$

$2 \times \underline{\quad} = 16$

$4 \times 0 = \underline{\quad}$

$2 \times \underline{\quad} = 8$

$7 \times 8 = \underline{\quad}$

$5 \times 8 = \underline{\quad}$

$3 \times \underline{\quad} = 33$

$9 \times 3 = \underline{\quad}$

$4 \times \underline{\quad} = 4$

$4 \times 12 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$6 \times \underline{\quad} = 18$

$2 \times 3 = \underline{\quad}$

$4 \times 8 = \underline{\quad}$

$8 \times 12 = \underline{\quad}$

$5 \times 4 = \underline{\quad}$

$8 \times \underline{\quad} = 72$

$8 \times 11 = \underline{\quad}$

$7 \times \underline{\quad} = 21$

$3 \times 1 = \underline{\quad}$

$8 \times 4 = \underline{\quad}$

$4 \times \underline{\quad} = 16$

$3 \times 0 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

$8 \times 1 = \underline{\quad}$

$4 \times 7 = \underline{\quad}$

$8 \times \underline{\quad} = 80$

$3 \times 3 = \underline{\quad}$
