cabbage plant

onion plant

Can you name these plants?

Do **vegetables** always come from the same part of a plant? Explain how you know.

How are **fruits** and **vegetables** similar? How are they different?

Can you name these plants?

Do **vegetables** always come from the same part of a plant? Explain how you know.

How are **fruits** and **vegetables** similar? How are they different?

Reasoning Card 5

Can you name these plants?

Rhubarb, garlic, blackberries, pears (remind children that the fruit and vegetables are parts of the whole plant).

Do **vegetables** always come from the same part of a plant? Explain how you know.

Vegetables can be the roots, stem, leaves or flowers of a plant.

How are **fruits** and **vegetables** similar? How are they different?

Answers will vary. Children might explain that they both grow from plants and are often eaten. Fruits have seeds and grow from a flower, but vegetables do not.
