

# Observational Drawing

To identify and name some common garden and wild plants.

Draw the plants you find. Label the plant with its name and whether it is a garden plant or wild plant.

**Challenge!**  
Explain why you think it is a **garden plant** or a **wild plant**.

# Garden and Wild Plants Matching Game

## Instructions:

This game is played in groups of 4.

1. Spread the cards face down across the table.
2. On your turn, turn over 2 cards for everyone to see. Read out the name of each plant. If they match, you keep the cards and have another turn.
3. If they don't match, put them back face down on the table. It's then the next person's turn.

clematis

iris

sweet pea

## Reasoning Cards

3

Can you name these plants? Have you seen any of them in real life before? Explain where.

Choose one plant and describe it to a friend, without telling them its name. Do they know which plant you are describing?

Are any of these plants **weeds**? How do you know?

## Reasoning Cards

Choose one plant and describe it to a friend, without telling them its name. Do they know which plant you are describing?

Are any of these plants **weeds**? How do you know?

## Reasoning Card ③

Can you name these plants? Have you seen any of them in real life before? Explain where

**Rose, sweetpea, dandelions, clover. Children might describe having seen them in gardens, parks or around the school.**

Choose one plant and describe it to a friend, without telling them its name. Do they know which plant you are describing?

**Children might describe the colour of the flowers, size and shape of the plant, its leaves or petals, etc.**

Are any of these plants **weeds**? How do you know?

**Children should recognise that a weed is a plant that grows where people don't want it to. Dandelions and clover are common weeds.**
