branches      roots      trunk      leaves      blossom

## Challenge!

Look at this tree and this pea plant. How are they the similar? How are they different?

### Similar:

Answers will vary but could include: both of them have leaves, roots and flowers; both of them grow in the ground; they are both held up by a type of stem.

### Different:

Answers will vary but could include: the plant has a stem but the tree has a trunk; the tree is much larger than the plant; the tree has lots more leaves; the plant has fruit; on the tree, the flowers are called blossom.
