

# -s and -es Word Snap

Level 5

Ben and Sam are busy packing their cases.

Play this game of snap with a partner to read aloud items that they have been packing.

## You will need:

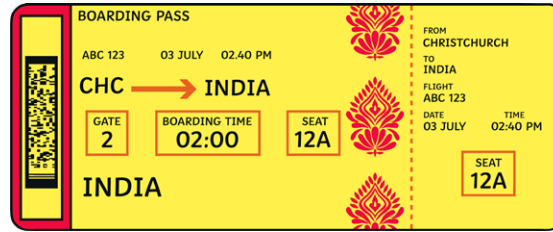

- [-s and -es Word Cards](#)

## Instructions

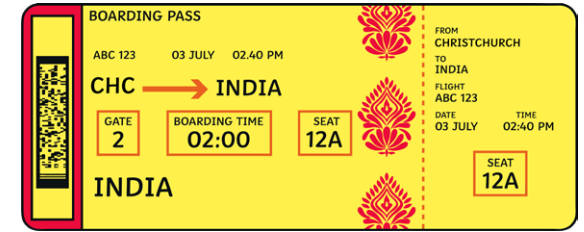

1. Print the [-s and -es Word Cards](#), so they are double-sided with a ticket on one side and a word on the other. Laminate the cards (optional).
2. Ask children to sit in pairs and give one copy of the word cards to each child.
3. Children take turns to place one card at a time face up in a pile.
4. If two cards placed down one after the other are the same, the players shout, "Snap!" and place their hand down on the pile.
5. The player who has their hand on the pile first collects the cards and adds them to their cards.
6. The game repeats until one player has all of the cards.
