Dino Adventure

A 'Let's Read Together!' Book

Then, we went further through the forest. There were **many** funny noises. We saw one dinosaur called an Apotosaurus that had a long neck and a long tail.

Next, we saw some meat eaters who were fighting. We quickly hid **because** we did not want to be spotted. We had to stay still and be silent until the herd went by

We landed with a bump onto a bed of green moss on the ground. We were in a forest with tall trees around us.

Then a bird-like reptile flew past us and some frightening dinosaurs were coming near us. Sam thought it was about time to go home!

When we set off again, I fell down a hole! It was really a dinosaur's footprint. There were lots of footprints on the ground.

We saw some creatures just like Steg. They were eating plants off of the ground. They had rows of bony plates running along their backs and tails.
