We found one clue just in time. It was a scroll that came out of a secret hole in the wall as the last grain of sand fell through the timer.

The scroll told us to follow a ginger cat if we wanted to find the missing gem. Once we found the cat, it quickly ran off. After a while, it led us to a secret cave.

We used the magic map and our bedroom rug to get to the desert. The rug became a magic carpet and flew! When we got there, we met a boy called Asim.

Just then, the giant came out of the cell and started to chase us! Sam quickly got our mat out. We got onto the magic carpet and flew away.

Inside the cave, Asim could see the gem behind the bars of a cell. However, his dad's brother tried to stop us getting it. Asim bravely got the gem from the cell.

Asim needed our help because a gem had been stolen. We flew over the city on a magic carpet to look for clues to help us find the gem.
