REGENT STUDIES

Focused education on life's walk!

www.regentstudies.com

A vibrant illustration of a night sky. The background is a deep, dark blue. Scattered throughout are numerous small, white, five-pointed stars of varying sizes. Several soft, light blue clouds are depicted, some partially overlapping the moon. In the upper right quadrant, a large, bright white moon is shown, partially obscured by a dark blue shadow. The moon's surface is detailed with grey spots representing craters. At the bottom of the frame, a dark, silhouetted landscape of rolling hills is visible against the night sky.
