

Weather Around Us

Aim

- To learn about the weather and how it affects us.

Curriculum Link

- Early Years Learning Framework;
- Outcome 2: Children are connected with and contribute to their world.
- Australian Curriculum;
- Foundation: Earth and Space Sciences;
- Daily and seasonal changes in our environment affect everyday life (ACSSU004).

What Is Weather?

Weather describes what is happening with the air, sun, rain and wind when you go outside.

Three things make up the different parts of the weather.
They are the sun, air and water.

The Sun

heat

and

light

It helps plants grow.

Air

The air is all around us and covers the earth like a blanket.

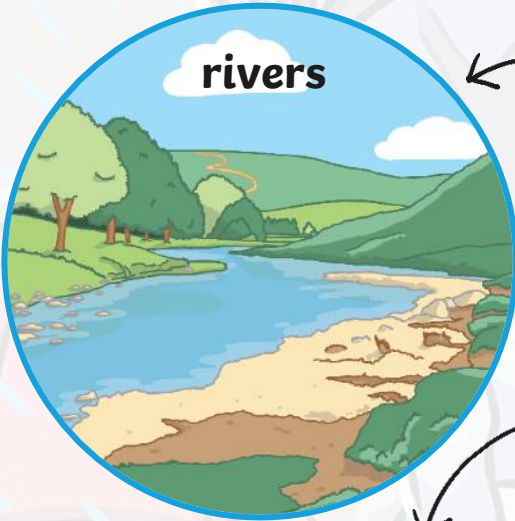

When it moves, you feel it as wind on your face.

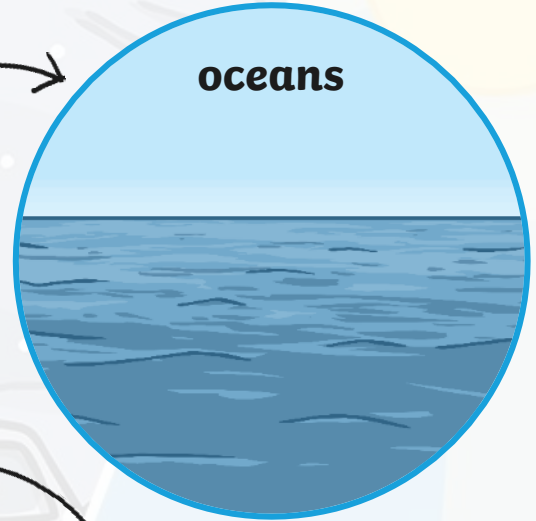

Water

Water is in...

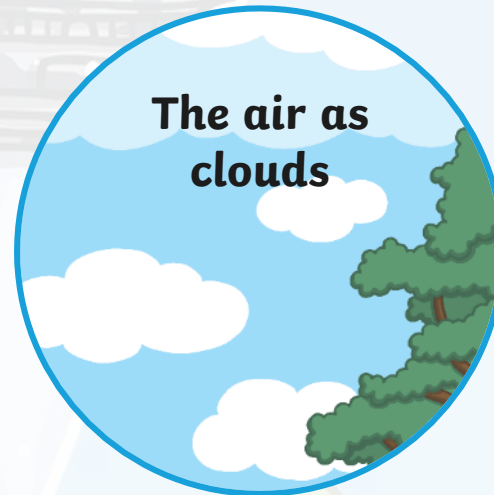

rivers

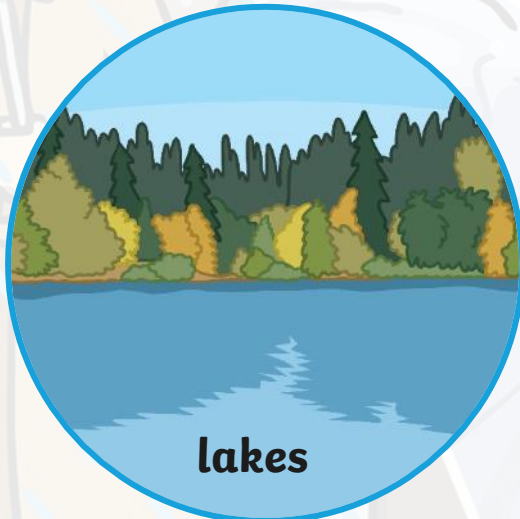

oceans

The air as
clouds

lakes

Weather

Weather is important to everyone's life. It affects the games you play, the clothes you wear, how you feel, what you eat, what can grow, how something is built and many other things.
