

# Spring in Australia

There are four seasons during a year. The four seasons are spring, summer, autumn and winter. Each season lasts for three months. In Australia, spring happens during September, October and November.

## Weather in Spring

In spring, the days become warmer and longer. There is more daylight in spring. During spring, the weather is mixed. It can be warm, cool and rainy.

## Animals in Spring

In spring, many animals have their babies. Birds start to build their nests and then lay their eggs.

## Plants in Spring

Plants need water and sunlight to grow. Spring provides the perfect environment for new growth. Flowers may start to bloom because of the warmer weather. Fruits, such as apples, pears, avocados, lemons, mandarins and strawberries, begin to grow.

## People in Spring

As the weather gets warmer and the days last longer, people spend more time outside. What do you like to do in spring?
