Unlock the Rainforest

A 'Let's Read Together!' Book

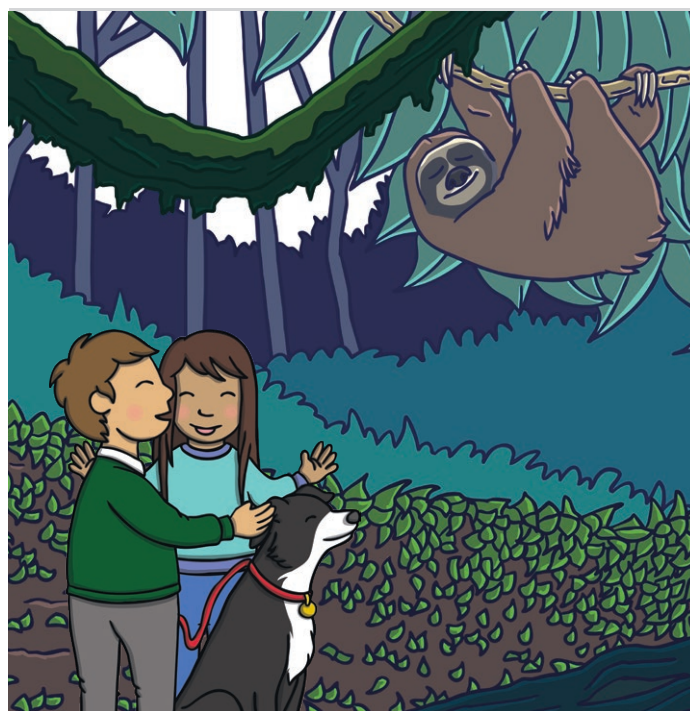

Ben noticed a stunning bird with a bright, long beak. After that, we thought she could hear water and we found a river.

As we got closer to the river, we could see a small boat in the water. There were two men standing and a lady sat down. They must have lived in the rainforest.

We used the magic book to take us to the rainforest. We were unlucky to land with a thud on the ground. There were massive roots growing from a tree.

Kit pointed out a sloth. The sloth looked asleep, upside down in a tree. Sam did not want to wake the sloth it in case it was unsafe.

There was a loud sound from the trees. We froze and felt unsafe but Ben was completely unafraid. Quickly, we went on through the forest.

We were surprised to see Ben. He had come with us! Kit put Ben on his lead as he did not want Ben to be unsafe.
