

To the Pied Piper,

My name is Simon. I am the Mayor of Hamlin. We need your advice and ideas. The number of rats and mice in the village is on the rise! There are too many for the cats to catch. They are eating all our supplies. Time is running out, because I think the mice will eat all of the rice during the night and the villagers will have no food. It is not very nice and we need to get rid of them all.

Please can you help us? I have heard that you are an expert in this type of thing. What is your price? I promise we will pay you.

Many thanks,

Simon
