

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.		

Addition and Subtraction: Add Two 2-Digit Numbers, Crossing Ten

To add two 2-digit numbers by adding the ones (crossing 10) and the tens.		
I can use place value grids to add two 2-digit numbers, crossing ten.		
I can use part-whole models to add two 2-digit numbers, crossing ten.
