Ordering Numbers Differently

Aim

- To order numbers in different representations.

Success Criteria

- I can order numbers in different representations from smallest to greatest.
- I can order numbers in different representations from greatest to smallest.

Remember It

five tens

35

three tens

20

two tens

10

one ten

Ordering Numbers

Can we use place value to order these numbers?

Smallest to Greatest

47

33

31

41

38

What's different about these numbers?

Some of the numbers have the same tens digit.

Ordering Numbers

First, look at the tens digits.

Then, look at the ones digits.

Smallest to Greatest

Ordering Numbers

How can we order numbers that are represented in different ways?

32

thirty-nine

20 + 18

4 tens + 2 ones

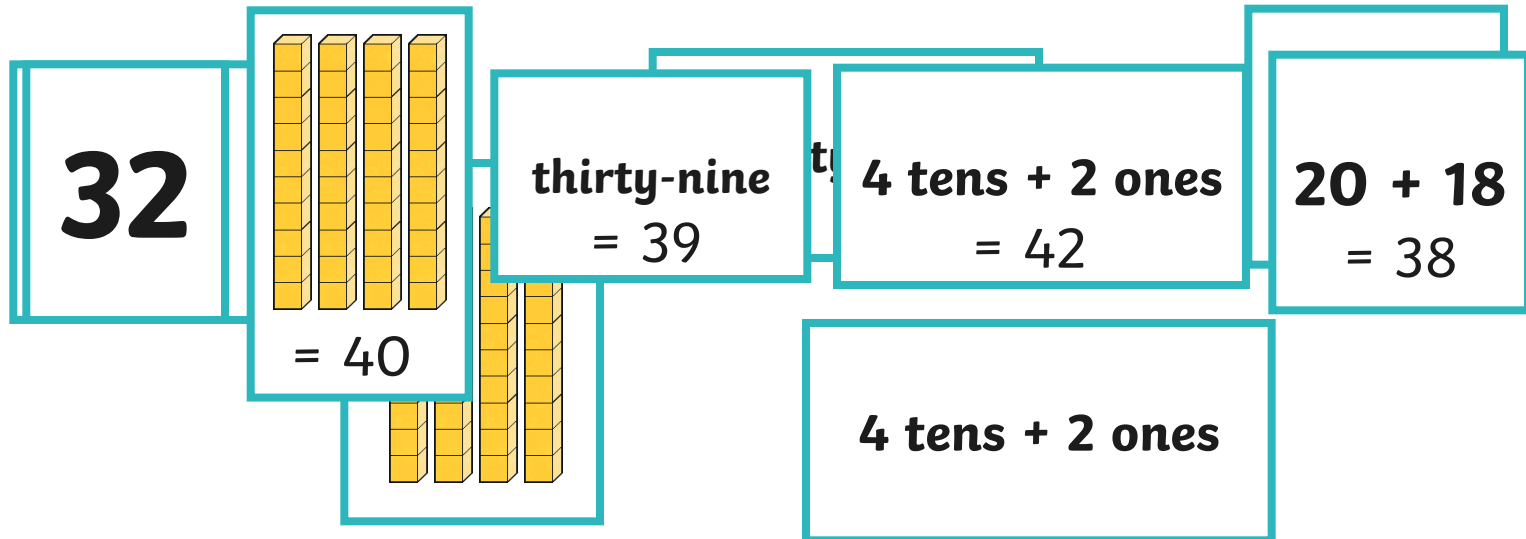

How did you order them?

Ordering Numbers

We use our understanding of what number each representation shows to order them.

Ordering Numbers

Can you order these numbers from smallest to greatest?

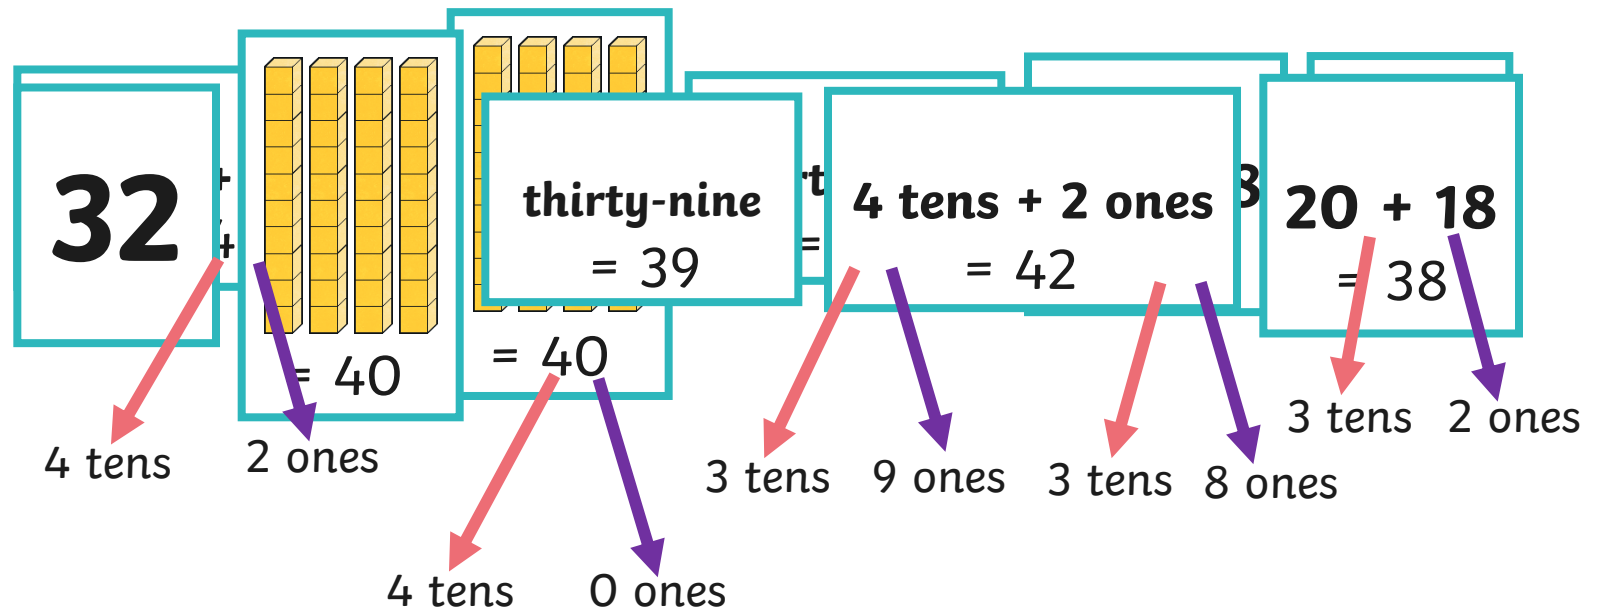

How do you know?

Ordering Numbers

Can you order these numbers from greatest to smallest?

How do you know?

Ordering Numbers

Can you order these numbers from smallest to greatest?
Can you order these numbers from greatest to smallest?

75

forty-five

6 tens + 5 ones

How did you do it?

Ordering Numbers

First, we understand what each one represents.
Then, we order them.

forty-five
= 45

6 tens + 5 ones
= 65

75
= 75

← smallest to greatest →

Ordering Numbers

First, we understand what each one represents.
Then, we order them.

$$\begin{array}{r} 75 \\ = 75 \end{array}$$

$$\begin{array}{r} 6 \text{ tens} + 5 \text{ ones} \\ = 65 \end{array}$$

$$\begin{array}{r} \text{forty-five} \\ = 45 \end{array}$$

← greatest to smallest →

Order it Again!

Work in pairs. Choose five cards at random. Order them from smallest to greatest. Then, order them from greatest to smallest.

73

seventy-three

7 tens + 3 ones

8 tens + 4 ones

+ 0 ones

Ordering Numbers Represented Differently

Can you order numbers represented in different ways?

Ordering Numbers Represented Differently

To order numbers in different representations.

1. Write these numbers in numerals, in order from smallest to greatest.

	$30 + 20$	2 tens and 0 ones	sixty	30
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

2. Write these numbers in numerals, in order from greatest to smallest.

19	2 tens and 1 one		$20 + 10$	twenty
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

3. Amma has ordered these numbers from greatest to smallest. Is she correct? Explain your answer.

$50 + 10$	5 tens and 5 ones	51	forty-nine	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Ordering Numbers Represented Differently

Amma has ordered these numbers from smallest to greatest. Is she correct? Write your answer.

$10 + 10$	40		5 tens and 0 ones
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Ordering Numbers Represented Differently

Order these numbers from smallest to greatest.

forty-nine		forty-nine
<input type="text"/>	<input type="text"/>	<input type="text"/>

Ordering Numbers Represented Differently

Order these numbers from smallest to greatest. True or false?

		9 tens and 1 one
<input type="text"/>	<input type="text"/>	<input type="text"/>

Ordering Numbers Represented Differently

Order these numbers from smallest to greatest.

nd	<table border="1"><tr><td>T</td><td>O</td></tr><tr><td>•••</td><td>•••</td></tr></table>	T	O	•••	•••	6 tens and 9 ones
T	O					
•••	•••					
<input type="text"/>	<input type="text"/>	<input type="text"/>				

Ordering Numbers Represented Differently

Order these numbers from smallest to greatest.

$20 + 15$	forty-five
<input type="text"/>	<input type="text"/>

Ordering Numbers Represented Differently

Order these numbers from smallest to greatest. Is she correct?

	9 tens and 9 ones
<input type="text"/>	<input type="text"/>

Diving into Mastery

Dive in by completing your own activity!

Ordering Numbers Differently

Order the numbers below from smallest to greatest.

5 tens
and
6 ones

42

thirty-
eight

10 + 13

T	0
7	0

Can you order them from greatest to smallest?

Choose numbers of your own, represented in different ways, to order.

stake.

Challenge Time

Anita has ordered the following items from longest to shortest.

Is she correct?

Anita is incorrect. 12cm is longer than the rest and 9cm is shorter than 11cm but longer than 4cm.

Challenge Time

Ronan runs a race with his friends. His time is 16 minutes.

What position does Ronan come in the race? Explain your answer.

Adam: 11 minutes

Layla: 15 minutes

Ronan: 16 minutes

Anwa: 17 minutes

Devinder: 21 minutes

Ronan came third in the race between Layla and Anwa.

Aim

- To order numbers in different representations.

Success Criteria

- I can order numbers in different representations from smallest to greatest.
- I can order numbers in different representations from greatest to smallest.
