## Multiples of 100 Answers

Find the missing numbers.

Captain Greybeard only wants coins that are multiples of 100 . Circle the coins that are not multiples of 100.

Captain Greybeard says, 'All multiples of 50 are multiples of 100 , so all multiples of 100 are multiples of $50^{\prime}$. Is he correct?

Child's own answer, e.g. He is incorrect. All multiples of 100 are multiples of 50, however not all multiples of $\mathbf{5 0}$ are multiples of 100, e.g. 150 is not a multiple of 100, but it is a multiple of 50.
