

# Presentation Skills: Planning a Branching Story

<p><b>Aim:</b> select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information This is the first lesson in a sequence of three lessons where children apply skills form to create a branching story. Here they plan their story.</p> <p>I can plan a branching story.</p>	<p><b>Success Criteria:</b> I can create a story with different outcomes. I can organise the different outcomes into different branches.</p>	<p><b>Resources:</b> <b>Lesson Pack</b> Desktop or laptop computers Presentation application Paper and pens/ pencils and/ or whiteboards and pens</p>
	<p><b>Key/New Words:</b> branching story, plan, link, image, picture, audio, video</p>	<p><b>Preparation:</b> <b>Planning a Branching Story Activity Sheet</b> - as required</p>

**Prior Learning:** Children need to be familiar with story planning.

## Learning Sequence

	<p>Talk to children about branching stories – what are they? Show presentation of Cinderella from Lesson pack – ask children to identify branches. An example based on Cinderella is provided in the pack, but other sorts of stories are also available _____</p> <p><b>The Plan:</b> Show children the plan from the lesson pack, and explain how the story is organised by branches.</p> <p><b>Branches:</b> Demonstrate how to use the <b>Planning a Branching Story Activity Sheet</b> to plan a story.</p>	
	<p><b>Plan a Branching Story:</b> Children plan their own branching story. As an extension they consider how images, audio or video could also be used.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div data-bbox="215 1048 566 1225">  <p>Children use the simple <b>Planning a Branching Story Activity Sheet</b> to plan a story they already know.</p> </div> <div data-bbox="614 1048 965 1225">  <p>Children use the advanced <b>Planning a Branching Story Activity Sheet</b> to plan a story.</p> </div> <div data-bbox="1013 1048 1364 1225">  <p>Children create their own branching story without a template. They will need to number their slides.</p> </div> </div>	
	<p><b>Share:</b> Children share their plans with a partner for ideas. Do the branches all work and make sense?</p>	
	<p><b>Edit the Plan:</b> Children make any necessary changes to the plan and number the required slides.</p>	
	<p><b>Templates:</b> Briefly prepare the children for creating the slides in the next lesson by showing the 2 slide templates they will need – one with options and one as a dead end.</p>	

## Taskit

**Investigateit:** Children investigate other branching stories.

# The Plan

Look at the plan for the Cinderella Branching Story.

Notice how some choices lead to a dead end.

Can you follow the route to a happy ending?

How could you use numbers to help you?

1 2 3 . . .

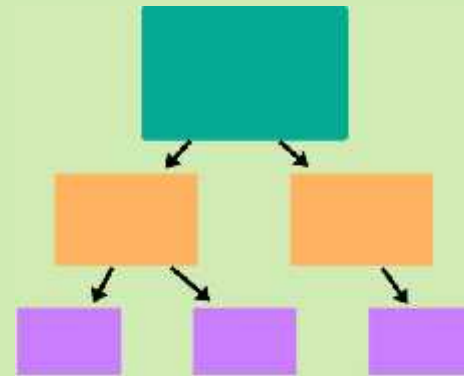

# Share

Share your plan with a partner.

Do the branches work and make sense?

Can you make any suggestions?

# Edit the Plan

Edit your plan following any comments or suggestions from your partner?

How might you use presentation features to make your story look good?

Think about your slide designs.

# Templates

You will need 2 templates for your presentation.
