Measurement

Measuring Perimeters

Aim

- To measure the perimeter of a 2D shape.

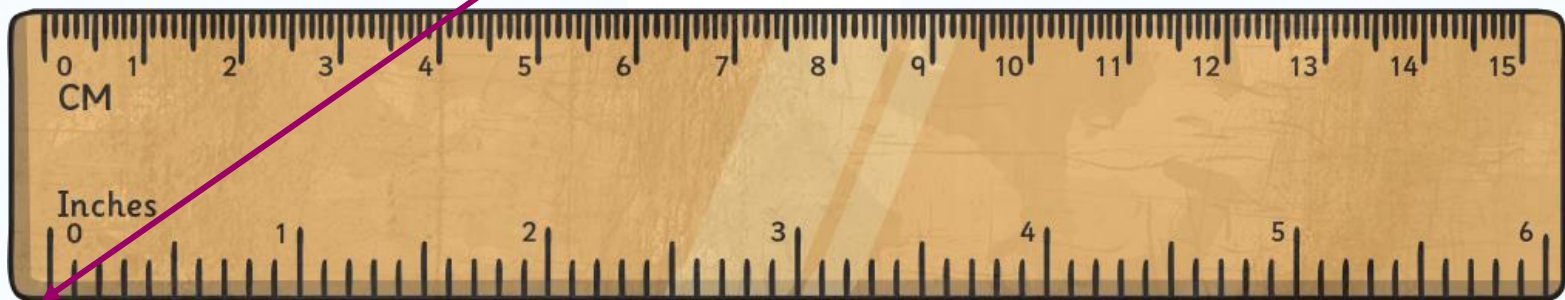

Success Criteria

- Know what is meant by 'perimeter'
- Know how to measure accurately

How to Measure Accurately

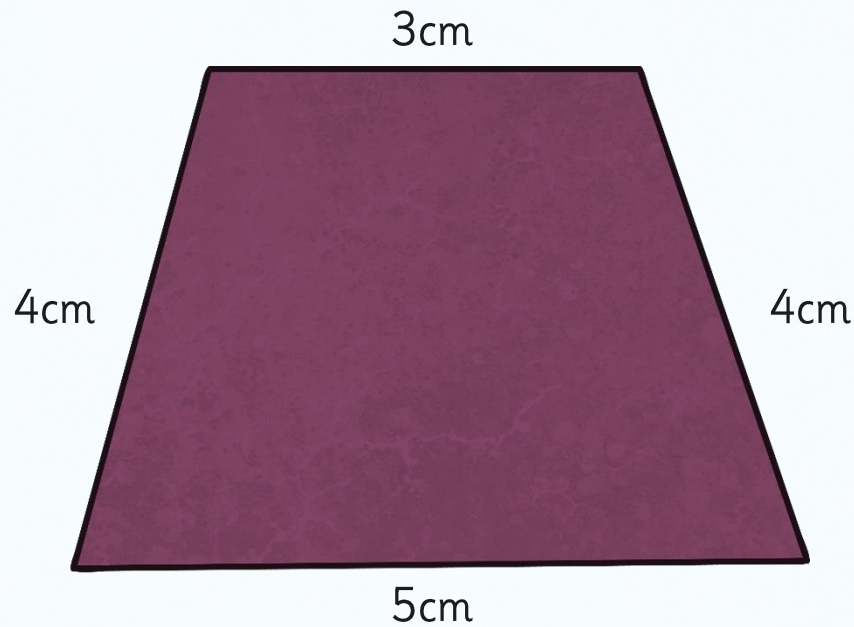

Where is the correct part of a ruler to measure from when using centimetres?

Always start from 0 on the side labelled CM!

Perimeter

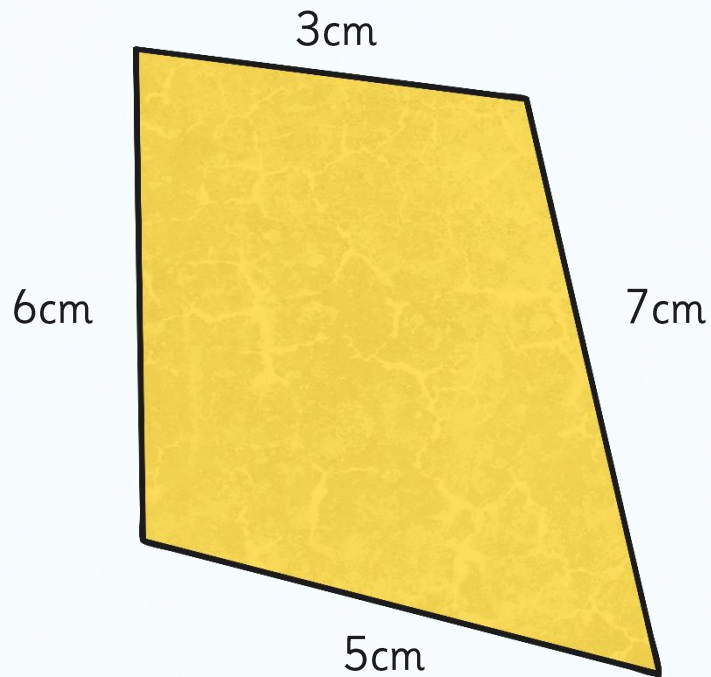

This shape shows the lengths of each of its sides. The perimeter is an ongoing imaginary line which goes around the outside of a shape.

The black outline shows the perimeter. What is the perimeter of this shape?
