

Teacher Note

Favourite Fruit	Tally
Banana	/
Grapes	
Apples	/
pears	

Take your own survey in class. Copy the tally marks into the table to get the count. Use the information you have gathered to create some graphs on the next slides.

You could use a smart board or project the presentation onto a whiteboard so the children to write their own tally marks into the table.

Use the graph slides to construct your graphs. Copy the blocks to represent the different survey answers. You can edit the scale as you wish. You could use a smart board or project onto a white board so the children can draw in their own bars for the charts

Make Your Own Class Bar Charts

Favourite Fruit

Take your own survey in your class. Add the tally marks to make a total for each fruit.

Favourite Fruit	Tally
Banana	
Grapes	
Apples	
pears	

Favourite Fruit

Use your tally to create your own bar chart. Change the length of the bars to show the number of children that like each fruit.

Favourite Fruit

Use your tally to create your own scaled bar chart. Change the length of the bars to show the number of children that like each fruit.

Favourite Colour

Take your own survey in your class. Add the tally marks to make a total for each fruit.

Favourite Fruit	Tally
Red	
Blue	
Green	
Yellow	
Pink	

Favourite Colour

Use your tally to create your own bar chart. Change the length of the bars to show the number of children that like each colour.

Favourite Colour

Use your tally to create your own scaled bar chart. Change the length of the bars to show the number of children that like each colour.

Class Pets

Take your own survey in your class. Add the tally marks to make a total for each pet.

Favourite Fruit	Tally
Dog	
Cat	
Fish	
Rabbit	
Hamster	

Class Pets

Use your tally to create your own bar chart. Change the length of the bars to show the number of children with each pet.

Class Pets

Use your tally to create your own scaled bar chart. Change the length of the bars to show the number of children that have each pet.
