To Spam or Not To Spam?

Using the templates below, write an example of a spam email and an example of a safe email. Use your knowledge of what to consider when deciding if an email is spam or safe. Can you remember what to look out for?

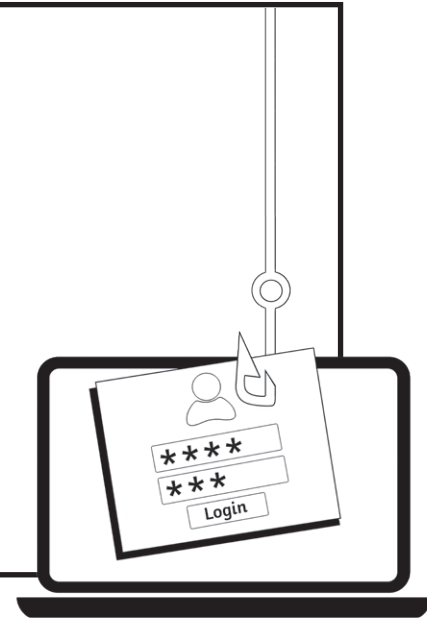

Remember: Stop, Read and Assess.

When deciding if an email is safe to open, you must **Stop, Read and Assess** the email. Check if you know the sender by checking the email address and assess if the subject text looks accurate.

Warning Signs

One or more of these things might mean an email is unsafe to open:

- an unknown or strange-looking email address
- an email address pretending to be something else (e.g. instead of _____, the address might say _____)
- spelling mistakes in the subject or a strange subject title
- strange-looking fonts, characters, symbols or an unfamiliar language
