

Decimal Number Addition with Dice

I can add decimal numbers. (ACMNA128)

Instructions:

1. Roll four dice.
2. Write the numbers in any order on the first line of the addition problem. Make a decision on how many decimal numbers will be in your number. Don't forget to include the decimal point!
3. Repeat this step, writing the next number under the first. Make sure to line the numbers up correctly.
4. Complete the addition and record the answer.
5. Repeat this process until you have completed the activity sheet.
