

All Those Teeth

What does the tooth fairy do
with all the teeth she has?

Draw what you think she does
with them.

All Those Teeth

The tooth fairy collects millions of teeth!

Draw what you think she does with them.

Write an explanation for your picture focusing on why she uses the teeth in the way you have suggested.

All Those Teeth

The tooth fairy collects millions of teeth!

Create an explanation diagram below for what you think she does with them.

Write an explanation for your picture focusing on why she uses the teeth in the way you have suggested.

All Those Teeth

What does the tooth fairy do with all the teeth she has?

Draw what you think she does with them.

A large, empty rectangular box for drawing.

All Those Teeth

The tooth fairy collects millions of teeth!

Draw what you think she does with them.

Write an explanation for your picture focusing on why she uses the teeth in the way you have suggested.

All Those Teeth

The tooth fairy collects millions of teeth!

Write an explanation for your picture focusing on why she uses the teeth in the way you have suggested.

Comparing Animal Teeth

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Do all three have any teeth that are the same? Which type of teeth?

Why do you think they have the type of teeth that you stated above in common?

Comparing Animal Teeth

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Elephant - Herbivore

Lion - Carnivore

Human - Omnivore

What are the differences in the type of teeth these animals have?

What would happen if the lion had teeth like an elephant?

Comparing Animal Teeth

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Are there any types of teeth that all three have in common? Why do they have these in common?

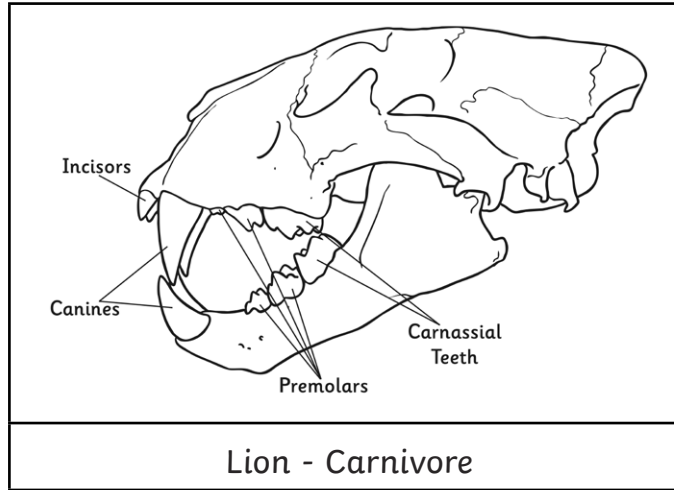

Explain any differences that you have found between the types of teeth the animals have:

Comparing Animal Teeth Answers

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Do all three have any teeth that are the same? Which type of teeth?

They all have premolars.

Why do you think they have the type of teeth that you stated above in common?

I think they all have premolars because they all need to hold and crush their food.

Comparing Animal Teeth Answers

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

What are the differences in the type of teeth these animals have?

The elephant has lots of flat molar and premolars for eating its plant diet. The lion has sharp teeth to tear the meat off its prey. Humans have a mixture of sharp and flat teeth as we are omnivores.

What would happen if the lion had teeth like an elephant?

If the lion had teeth like an elephant, it would not be able to rip and chew the meat off its prey.

Comparing Animal Teeth Answers

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Are there any types of teeth that all three have in common? Why do they have these in common?

They all have premolars and molars because all 3 animals need to hold and crush their food before swallowing it.

Explain any differences that you have found between the types of teeth the animals have:

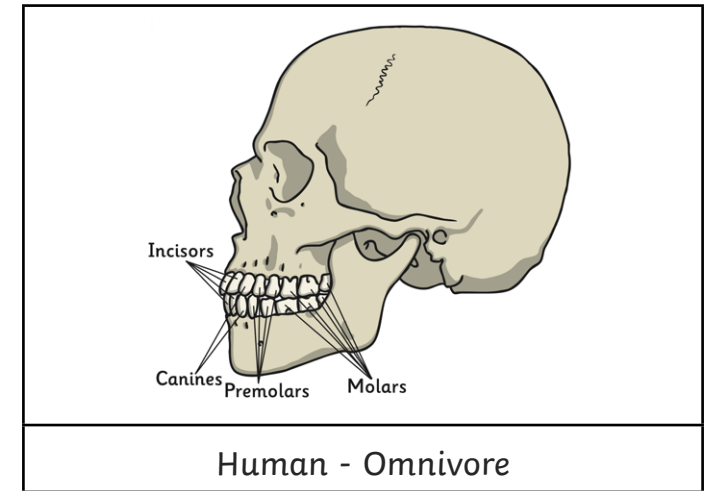

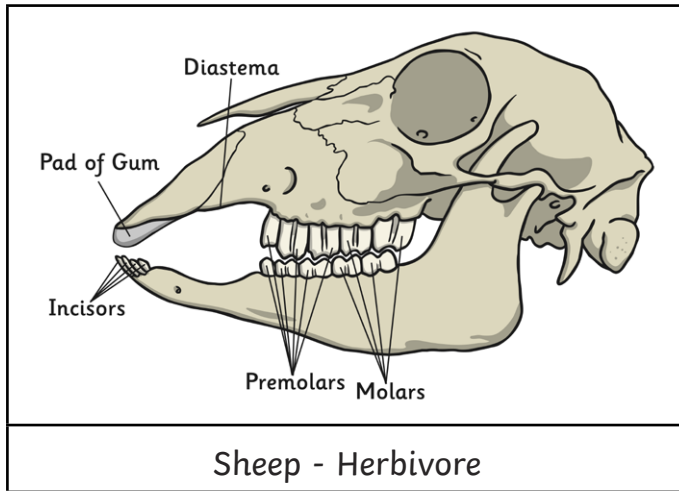

The elephant has lots of flat molar and premolars for crushing its plant diet, as well as large incisors that are outside the mouth. The lion has lots of sharp teeth to tear the meat off its prey. The human has a mixture of sharp and flat teeth as we are omnivores.

Name of animal:

Drawing or picture of its skull and teeth:

Function of teeth:

Did you know?

Interesting fact:

What would happen if humans had the same teeth:

Interesting Teeth Facts

Create a poster with interesting, strange and fun facts about teeth. The poster can be about teeth in general or you can choose to research particular animals.

Types and Functions of Teeth

I can identify the types and functions of teeth.

I can identify similarities and differences related to scientific ideas.

Name of tooth:

Canine

Function:

Name of tooth:

Premolar

Function:

Name of tooth:

Wisdom Tooth

Function:

Name of tooth:

Molar

Function:

Name of tooth:

Incisor

Function:

Key:

- Canines
- Molars
- Premolars
- Incisors
- Wisdom Teeth

The boxes below explain the function of the types of teeth.
Cut out the boxes and stick them next to the correct arrow.

Holding and crushing food	Biting and cutting food	Grinding food
No function anymore	Tearing and ripping food	

Types and Functions of Teeth

I can identify the types and functions of teeth.
