

Farmer Hallows' Pumpkin Patch

Farmer Hallows will be inviting customers to pick their own pumpkins from his huge pumpkin patch. Sadly, Farmer Hallows has little time to design posters and below is his best effort. Can you help him by suggesting some improvements? Write your ideas in the boxes next to each part of the poster.

PICK YOUR OWN PUMPKIN

Every Sunday in October at
Spookydale Farm

Special Offer
3 Pumpkins = £10.00

[Four empty rectangular boxes for suggestions, each with an arrow pointing to a specific part of the poster: the title, the location, the pumpkin image, and the special offer.]

On another piece of paper, or using a computer, design the poster again so that it is more interesting and easier to understand.

Recipe Card

Talk to an adult at home about their favourite recipe. It doesn't have to be a complicated recipe – it could even be for jam on toast!

Below is a checklist of things to remember when making a recipe card. If you don't have a working computer, you could use the blank template to create your card and then complete the challenge sentences beneath it.

When making your card, make sure you:

- choose a page size of A5;
- type up your ingredients and your method – don't forget to use your spellcheck tool;
- put the text into two columns;
- give your recipe a title and make this bigger than the ingredients and method;
- insert a photo.

Recipe Card
