Jungle Setting

Read the jungle setting description below. Analyse the vocabulary and descriptions that have been used.

In the tropical jungle, the warm rays of the early sunrise beat down through the thick, vibrant vegetation. Woody, twisted vines wrapped around towering trees as if they were climbing desperately towards the sunlight. Chattering spider monkeys leapt across the tangled maze of sun-speckled plants as they searched for delicious, fresh fruit to feast upon. In the distance, colourful macaws and parrots joined the delightful chorus of animals singing at dawn. Without warning, a heavy shower of rain lashed down upon the humid jungle. Snakes slithered across rough, damp branches while a majestic jaguar took shelter and camouflaged under bowing trees. Shallow puddles formed on the dark, decaying jungle floor. Anteaters rummaged around and devoured the squirming insects that scurried across the rotten plants.
