

# Deck Map

Draw aerial pictures of the different pieces of deck equipment on the outline map of the deck. You will need to label each of the features.

If you wish, you can listen again to the Sound Story Chapter 1 to remind you of the equipment and where they would be positioned. You may also use the Deck Equipment Images so that you know what the items look like.

- anchor
- bulwark
- companionway
- gunwales
- main deck
- sail
- boats
- capstan
- forecastle
- head
- mast
- spars

**Text Challenge!** Can you add annotations to your labels or include text boxes to explain briefly what some/all of the pieces of equipment were used for? You will need to do some research in books or on the Internet to find out how the equipment worked and was used.
