Multiplication and Division | Twinkl Tours

I can solve problems involving all four operations.		
R - I can read the question carefully, identifying key words.		
U - I understand what the question is asking me to do.		
C - I can choose the correct method needed to answer the question.		
S - I can solve the problem using written calculation methods.		
A - I can answer the original question.		
C - I check my answer using inverse calculations.
