

Activity 1

Match the unit fraction to the images.

 			 		
	<p>Clip a peg on the images that represent:</p> $\frac{1}{3}$			<p>Clip a peg on the images that represent:</p> $\frac{1}{4}$	
					

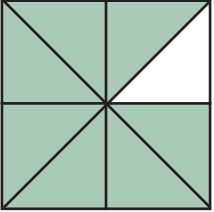

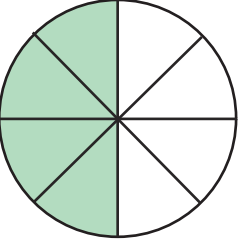

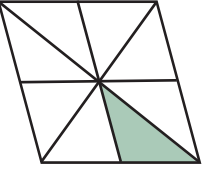

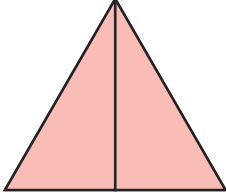

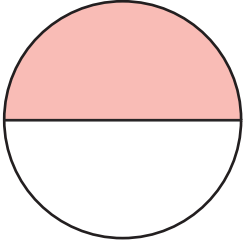

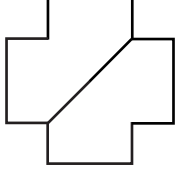

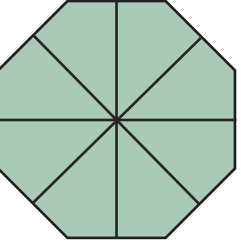

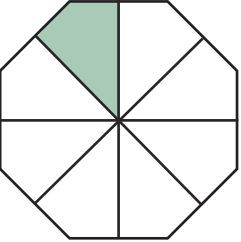

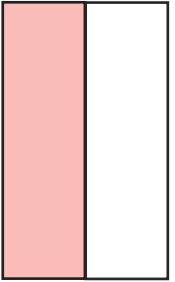

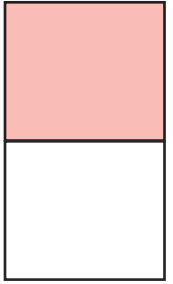

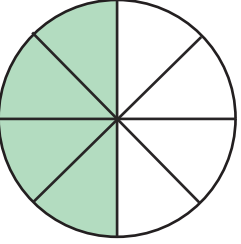

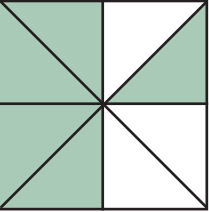

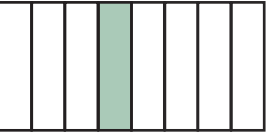

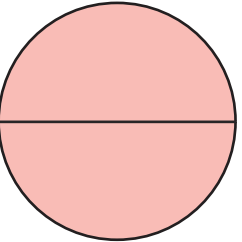

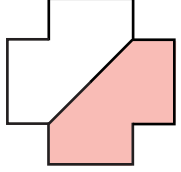

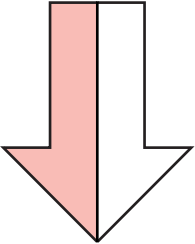

Activity 1

Match the unit fraction to the images.

 		 			
	<p>Clip a peg on the images that represent:</p> $\frac{1}{5}$			<p>Clip a peg on the images that represent:</p> $\frac{1}{6}$	
					

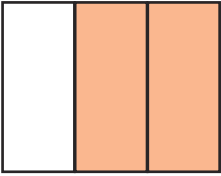

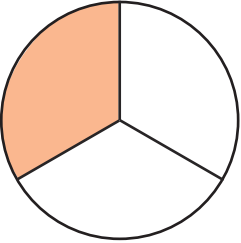

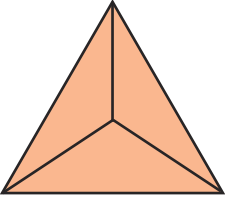

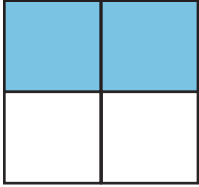

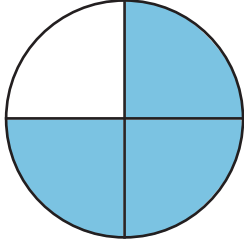

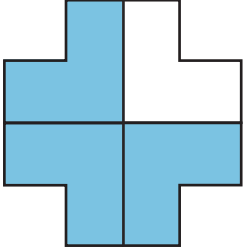

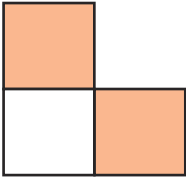

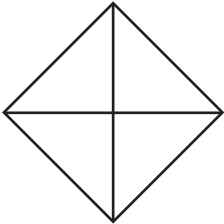

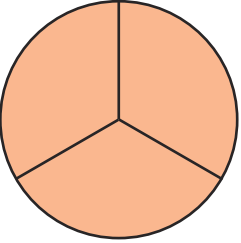

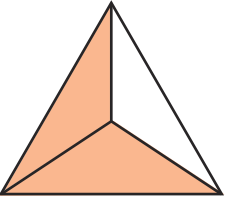

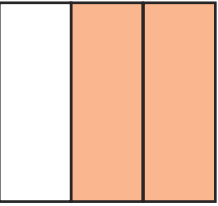

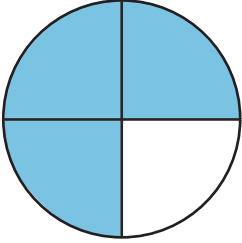

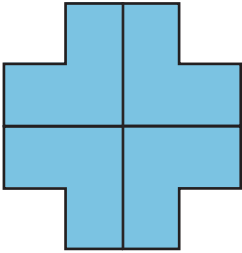

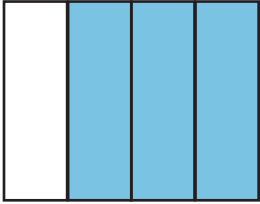

Activity 1

Match the unit fraction to the images.

 			 		
	<p>Clip a peg on the images that represent:</p> $\frac{1}{8}$			<p>Clip a peg on the images that represent:</p> $\frac{1}{2}$	
					

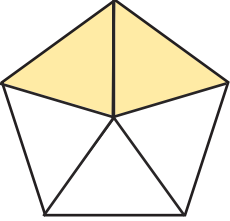

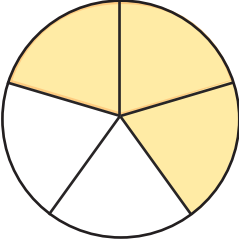

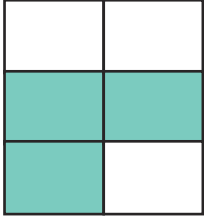

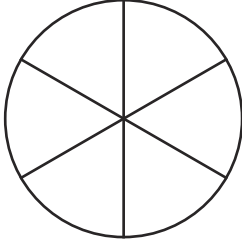

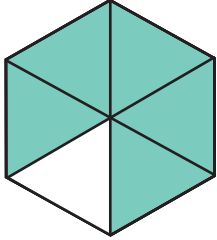

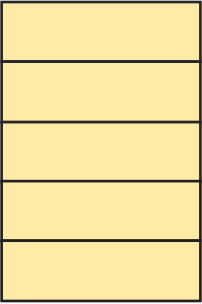

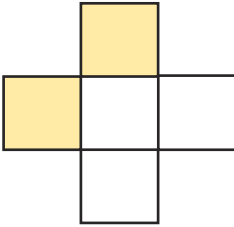

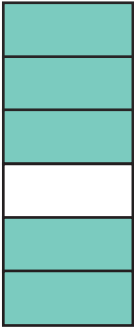

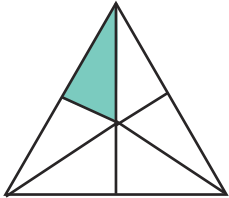

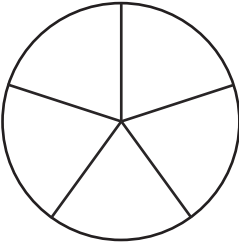

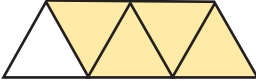

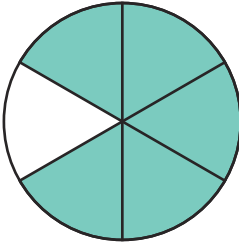

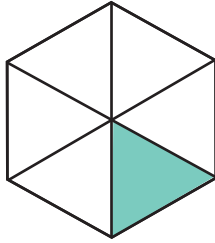

Activity 2

Match the non-unit fraction to the images.

 			 		
	<p>Clip a peg on the images that represent:</p> $\frac{2}{3}$			<p>Clip a peg on the images that represent:</p> $\frac{2}{4}$	
					

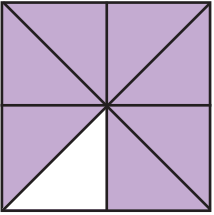

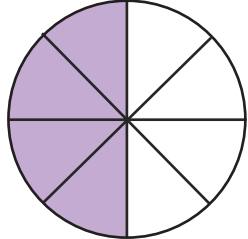

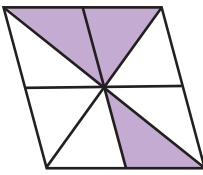

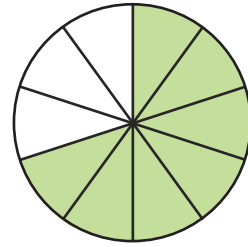

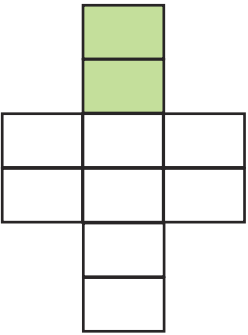

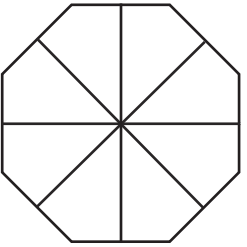

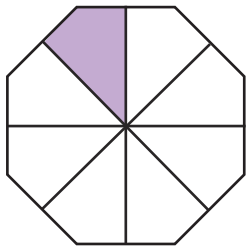

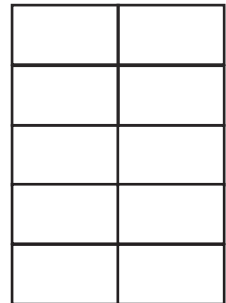

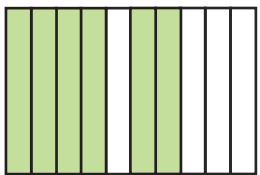

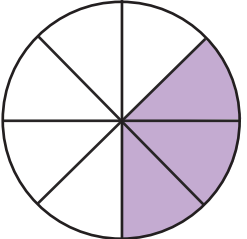

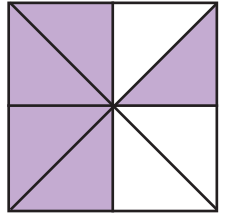

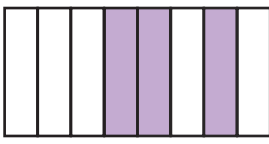

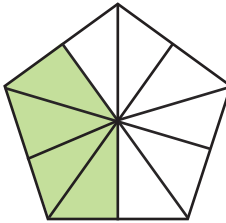

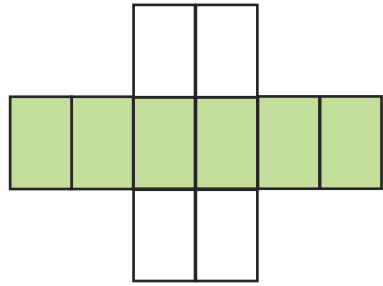

Activity 2

Match the non-unit fraction to the images.

					
	<p>Clip a peg on the images that represent:</p> $\frac{2}{5}$			<p>Clip a peg on the images that represent:</p> $\frac{5}{6}$	
					

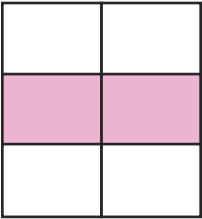

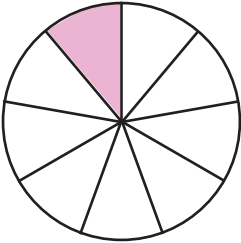

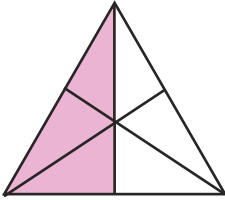

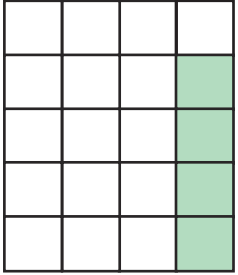

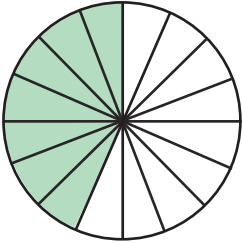

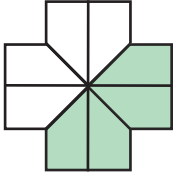

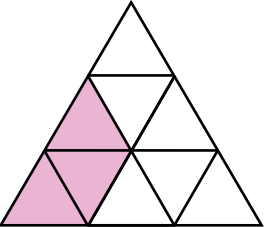

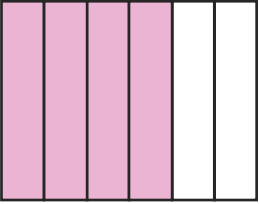

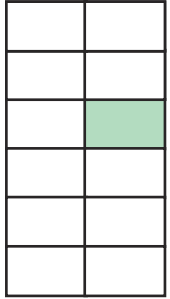

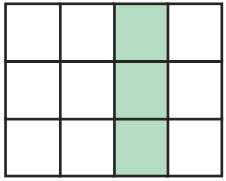

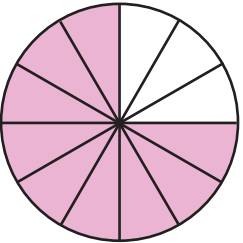

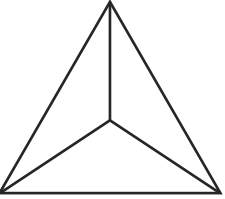

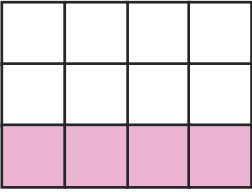

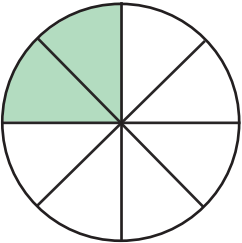

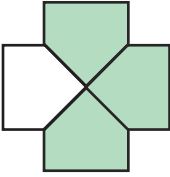

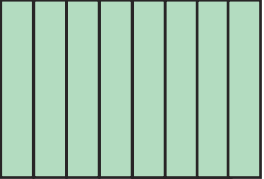

Activity 2

Match the non-unit fraction to the images.

 			 		
	<p>Clip a peg on the images that represent:</p> $\frac{3}{8}$			<p>Clip a peg on the images that represent:</p> $\frac{6}{10}$	
					

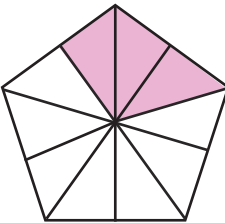

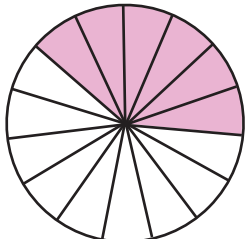

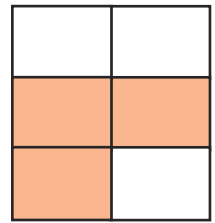

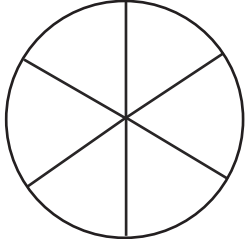

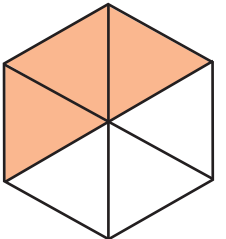

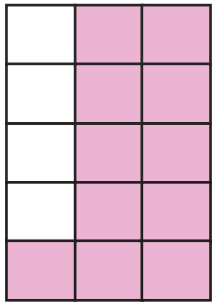

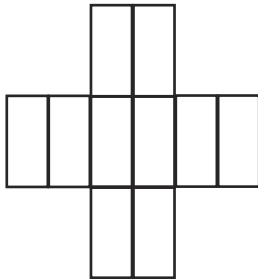

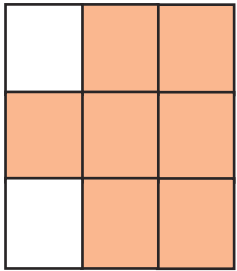

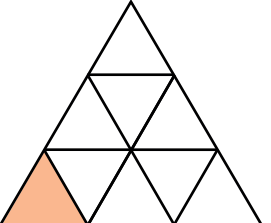

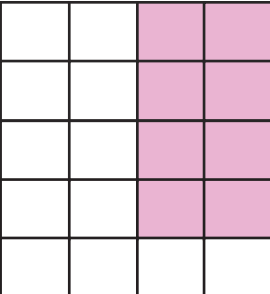

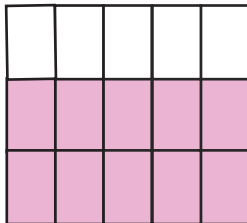

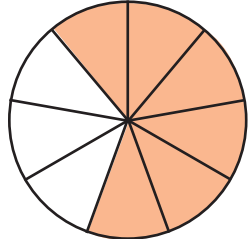

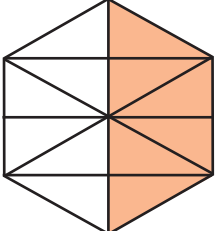

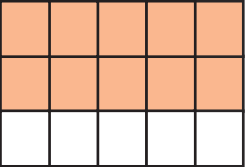

Activity 3

Match the fraction given to images of equivalent fractions.

					
	<p>Clip a peg on the images that represent:</p> $\frac{1}{3}$			<p>Clip a peg on the images that represent:</p> $\frac{1}{4}$	
					

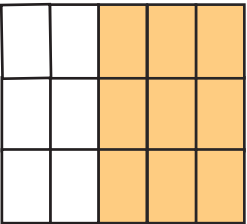

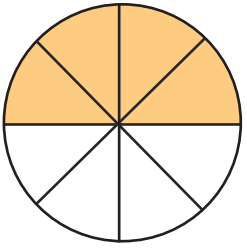

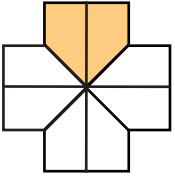

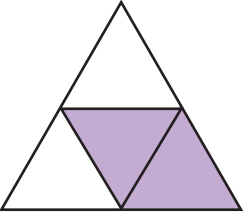

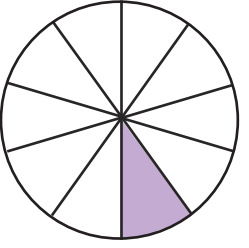

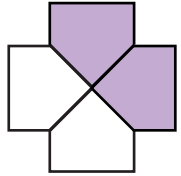

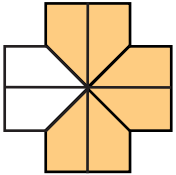

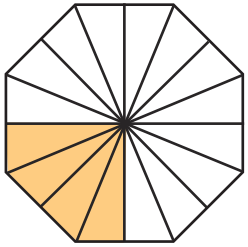

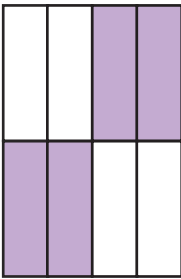

Activity 3

Match the fraction given to images of equivalent fractions.

 		 			
	<p>Clip a peg on the images that represent:</p> $\frac{2}{5}$			<p>Clip a peg on the images that represent:</p> $\frac{2}{3}$	
					

Activity 3

Match the fraction given to images of equivalent fractions.

					
	<p>Clip a peg on the images that represent:</p> $\frac{3}{4}$			<p>Clip a peg on the images that represent:</p> $\frac{1}{2}$
