## Instructions

- On your turn, roll the dice.
- Choose one of the improper fractions shown on the row that matches the number you rolled.
- Convert the improper fraction to a mixed number. Showing your working out.
- If your partner thinks you are correct, colour and claim that representation.
- Claim four in a line to win.

Five halves are equal to 2 wholes and 1 half.

I worked it out using the division  $5 \div 2 = 2 \text{ r } 1$ .

$\frac{5}{2}$
