## Investigating Perimeter

Choose the correct statement from the drop-down box.

A perimeter is $\square$

The shapes below use either whole cm squares or half cm squares (rectangles). Find the perimeter of each.

|  | 1 |  |  |  |  |
|  |  |  | 2 |  |  |
|  |  |  |  |  |  |

perimeter of shape $1=$ $\square$ cm perimeter of shape $2=\square \mathrm{cm}$

Find the perimeter of the shapes shown below.

$\square$
perimeter of shape $3=$ cm
perimeter of shape $4=$ cm

Find the perimeter of all the shapes shown below.
