Exploring Size: Earth, Sun and Moon

Activity:

- 1. Allocate roles to each member of your group. One person to be the moon, one the sun and one the Earth.
- 2. The Earth will stand in front of the moon (holding the tennis ball) and the sun (holding the basketball).
- 3. The Earth will ask the sun to move backwards until it appears to be the same size as the moon.
- 4. Swap roles so everyone has a turn at each position.
